# **VALIDATION**

Validation obliges the ORI to confirm the record is complete, accurate and still outstanding or active. Validation is accomplished by reviewing the original entry and current supporting documents. Recent consultation with any appropriate complainant, victim, prosecutor, court, motor vehicle registry files, or other appropriate source is required with respect to the Warrant/Wanted, Missing Person, Person With Information, Protection Order, Identity Theft, Violent Person, Gang Member, Vehicle, Gun, Boat, Security and Part Files. In the event the ORI is unsuccessful in its attempts to contact the victim, complainant, etc., the entering authority must make a determination based on the best information and knowledge available whether or not to retain the original entry in the file.

**Validation policies/procedures must be written and copies of these procedures must be on file for review during a CIB or NCIC Audit.**

## **ACCURACY**

The accuracy of records is an integral part of the system. The accuracy of a record must be double-checked by a second party. The verification of a record should include assuring all available cross-checking was made and that the data in the record matches the data in the investigative report.

**Maintaining accurate files will ensure officer safety and means more apprehensions and recoveries will be made.**

## **COMPLETENESS**

Complete records include all information that was available on the person or property at the time of entry. The validation process should include a review of whether additional information has become available (missing from the original entry) that could be added.

Complete inquiries on persons include numbers that could be indexed in the record, i.e., Social Security, Passport, Vehicle Identification Number (VIN), License Plates, Driver's License, etc. Inquiries should be made on all names/aliases used by the suspect. Complete vehicle records include VIN and License Plate Numbers.

## **TIMELINESS**

NCIC policy requires timely entry of records to ensure maximum system effectiveness. Timely entry is defined by NCIC as not to exceed three days upon receipt of documentation by the entering agency, with the exception of missing persons and protection orders as described below. The date and time of receipt of a warrant or report should be documented by the agency. Agencies are encouraged to prioritize their entries. Warrants for violent offenses, felonies, fugitives, and officer safety concerns should be entered before warrants for less serious offenses.

The National Child Search Assistance Act (42 U.S.C. 5779, 5780) requires law enforcement to immediately enter into the National Crime Information Center (NCIC) database every reported case involving a missing child. The Adam Walsh Child Protection and Safety Act of 2006 defined

the timely entry requirement for missing persons under the age of 21 as “within two hours of receipt.”

Wisconsin state statutes require law enforcement to enter domestic abuse protection orders and injunctions into the TIME System within 24 hours of receiving them. State Statutes also require modifications made by the court to existing domestic abuse orders and injunctions must be applied to entries in the TIME System within one business day. State statutes also require the same provisions for child abuse orders, individual at-risk orders, and harassment orders.

# **AUDIT REQUIREMENTS**

## **TAC**

Each agency with TIME System access must assign a TIME Agency Coordinator (TAC). The TAC is responsible for coordinating TIME System training, recertification, and specialized training of all users, ensuring compliance with NCIC and Crime Information Bureau (CIB) policy and coordinating record validation. All TACs must be employed by the agency and attend TIME Agency Coordinator training within twelve months of assignment.

## **TRAINING**

Within six months of employment or assignment, all personnel who access NCIC must be trained and functionally tested to assure compliance with NCIC/CIB policy and regulations. Biennially, all certified operators are required to recertify by attending an in-service or completing computer based training and achieve a passing score on the associated evaluation.

All personnel that have unescorted access to criminal justice information, and those who have direct responsibility to configure and maintain computer systems and networks with direct access to the TIME System are required to complete security awareness training. Security awareness training must be completed biennially.

## **PERSONNEL SECURITY**

Thorough background screening by the employing agency of personnel is required. State and national criminal history checks by fingerprint identification must be conducted prior to granting authorized, unescorted access to criminal justice information and the TIME System. This includes those who have direct responsibility to configure and maintain computer systems and networks with direct access to the TIME System. The minimum check must include submission of completed applicant fingerprints to the FBI CJIS Division and the CIB through the state identification bureau. CIB and NCIC Wanted Person Files must also be checked. If the person resides outside Wisconsin, a check of criminal history file in the state the person resides is required. Sworn personnel who have been fingerprinted and certified by the Law Enforcement Standards Board already meet this requirement. Background re-investigations are recommended every 5 years as good business practice.

If personnel who already have access to the TIME system, CJIS systems, and/or criminal justice information are subsequently arrested or convicted of a crime, a waiver must be obtained to allow continued access to criminal justice information.

Each criminal justice agency authorized to receive NCIC/CIB information must have appropriate written standards for discipline of NCIC/CIB policy violators.

## **CRIMINAL HISTORIES**

An agency must maintain a secondary dissemination log for III and State of Wisconsin CHRI records for one year from the date of inquiry. This is required whenever an agency transfers a record to another criminal justice agency or an individual within another criminal justice agency, or to anyone legally entitled to receive such information that is outside the original receiving agency and is not included in the attention line. This log shall include the name of the individual within the criminal justice agency to whom the response is given.

All computer requests for CHRI must identify the requesting agency and a specific individual.

The proper purpose code must be used on all CHRI queries. An agency must be able to justify the reason for each query.

## **DATA FILES**

Proper documentation must be placed in the case file prior to entry into the computer system. This documentation would include a warrant, missing person report signed by an authoritative source other than the investigating police agency, or a stolen property complaint.

All entries are entered in a timely manner to ensure maximum system effectiveness. Timely entry is defined by NCIC as not to exceed three days upon receipt of documentation by the entering agency. The date and time of receipt of a warrant or report should be documented by the agency. Federal law Title 42 USC 5780 requires law enforcement agencies to immediately enter cases of missing children. The law defines a child for purposes of missing persons as someone under the age of 21 and defines immediately as being "within 2 hours of receipt." Wisconsin statutes require domestic abuse, child abuse, vulnerable adult, and harassment orders, both temporary and injunction, to be entered within 24 hours of receipt.

All entries are to be removed as soon as the agency learns the person has been apprehended, found, or is no longer wanted or the property has been recovered.

Stolen/missing license plates can be entered only when the second license plate is removed from the vehicle and corrective registration takes place. If the complainant intends to apply for duplicate registration instead of new registration, the license plate(s) cannot be entered. If only one plate is reported stolen or missing, it cannot be entered unless the remaining plate is destroyed or not used. The entering agency must document what is done with the remaining plate.

Hit confirmation must be available 24 hours a day / seven days a week. Agencies and terminals that receive hit confirmation and are not staffed 24 hours a day must either have the terminals rerouted or include an after-hours telephone number or NCIC agency identifier in the remarks/miscellaneous field of record entries.

All entries, modifications, supplements, and cancellations must be double-checked by a second party to assure accuracy.

## **VALIDATION**

Develop and implement written validation procedures.

## **OTHER AGENCY AGREEMENTS**

Obtain signed agency agreements with authorized agencies that the agency provides with TIME service and/or information.

## **TECHNICAL SECURITY REVIEW**

The technical security review indicates that the agency is in compliance or is out of compliance with CJIS / TIME System security policies.

# **ADVISORY MESSAGES**

## **LOCATED RECORD (\$L.)**

Once a record has been located, a message is sent to the entering agency. If this message is received, the record should be canceled. If the record is a warrant and a detainer will be placed, the incarcerating agency should be contacted to obtain details to enter the detainer.

- Line 1: Locate Message (\$.L.) sent
- Line 2: The ORI of record being located.
- Line 3: "Locate Notification" giving time (in Eastern Standard Time) and date of the Locate placement.
- Line 4: Various data/descriptors. This line starts with a two character code describing what is being located. The code will always start with the letter "L", followed by the first character of the file the located record is in (V/vehicle, W/warrant, M/missing, G/gun, etc.)  
The NCIC Agency Identifier of the locating agency will follow the two character locate/file code.  
Following the NCIC Agency Identifier will be two record identifiers. These may be NIC #, originating agency case number, and serial number and/. The date the Locate was placed will follow. If there is a locating agency case number, it will follow the date the locate was placed.
- Line 5: The case number used in the locate request  
If the record being located is a person, a code indicating what type of action is taking place will appear as the last data. The codes used are: EXTR (extradite), NOEX (no extradition) or DETN (Detained - used for Missing Persons).
- Line 6: Literal name of the agency that is filing the Locate.
- Lines 7-15: The record Locate is placed against.
- Line 16: Shows the date the locate was placed, the ORI number of the agency that located the person or property and their case number used in the locate request.

## **DETAINDER - ADVISORY MESSAGES**

Upon entry, or modification, of the detainer of a CIB and NCIC record, a \$O (Incarcerating Agency Notification) message will be sent to the incarcerating agency ORI. The Detainer Advisory Message informs the incarcerating agency that they should contact the entering agency prior to releasing the subject to ensure pick-up arrangements have been made.

When a missing person record or unidentified person record is entered or modified, a comparison is triggered between the Missing Person files and Unidentified Person files. The comparison can be triggered by the entry or modification of your record, or your record matched with information in a record from another agency that was entered or modified. The comparison is run overnight at NCIC. Two possible outcomes are possible for this automatic search of the two files: \$.N. or \$.M.

## **NO MATCH (\$.N.)**

A \$.N. No Match occurs when the automatic comparison of Missing Person and Unidentified Person files find no records from the opposing file type that matches your record.

\$.N.UNIDENTIFIED/MISSING COMPARE RESULTS

WI0130000

YOUR RECORD WITH NIC/M137847157 OCA/141433-J HAS BEEN SEARCHED. THE SEARCH DID NOT PRODUCE ANY POSSIBLE MATCHES.

## **POSSIBLE MATCH (\$.M.)**

You can receive a \$.M. message if your Missing Person or Unidentified Person record is a match with one that was entered. A possible match response can provide an investigative lead. The record should be queried and reviewed. The entering agency should be contacted for more information.

\$.M.UNIDENTIFIED/MISSING COMPARE RESULTS

WI0130000

## **NICS DENIED (\$.H.NDN)**

This new unsolicited message, \$.H.NDN, is a NICS Denial Notification. These notifications are sent to agencies when an individual is denied the purchase of a firearm by NICS within an agency's jurisdiction. The unsolicited message will be sent to the agency's main terminal informing them of the denial. The message will include the name, demographic information of the individual who was denied, the reason for the denial, and where the attempted purchase was made. It is at the agency's discretion to determine if action needs to be taken based on the message.

### **FIREARM DENIAL NOTICE:**

A PERSON PURCHASING/RESIDING IN YOUR JURISDICTION WAS RECENTLY DENIED THE TRANSFER OF HANDGUN

\*\*\*\*\*

THE FBI ENCOURAGES YOU TO CONTACT YOUR LOCAL BUREAU OF ALCOHOL, TOBACCO, FIREARMS AND EXPLOSIVES OFFICE PRIOR TO TAKING ACTION. CHARLESTON ATF, 304-234-5678

THENATIONAL INSTANT CRIMINAL BACKGROUND CHECK SYSTEM (NICS) SECTION CONDUCTED A NAME SEARCH USING DESCRIPTIVE DATA, NOT FINGERPRINTS, FOR A FIREARM BACKGROUND CHECK WHICH WAS DENIED ON 4/26/2022, 02:02:23PM FOR:

NAME: DOE, JOHN L. NTN: 102356748

SEX: M RACE: W DATE OF BIRTH: 10-11-1990 PLACE OF BIRTH: WV

HEIGHT: 6'1" WEIGHT: 185 SOCIAL SECURITY NUMBER: 123-45-6789

RESIDENCE ADDRESS: 456 AMERICAN WAY, APPLE PIE, APPLE PIE COUNTY, WV 22445

INFORMATION RECEIVED INDICATES THE ATTEMPTED PURCHASER IS PROHIBITED FROM RECEIVING OR POSSESSING FIREARMS IN THE STATE OF PURCHASE AND/OR STATE OR RESIDENCE, BASED ON:

SUBJECT OF QUALIFYING PROTECTION ORDER

THE ATTEMPTED PURCHASE OCCURRED AT:

FIREARM DEALER: USA ARMS

ADDRESS: 123 MAIN STREET, HOMETOWN, HOMETOWN COUNTY WV, 23456

PHONE: 304-625-1002

SHOULD YOU HAVE QUESTIONS REGARDING THIS NOTIFICATION, PLEASE VISIT:

(Web address will be inserted when established WWW.FBI.GOV)

THIS NOTIFICATION WAS ALSO PROVIDED TO THE FOLLOWING ORI(S):

WV0470150 SO APPLE PIE COUNTY 304-478-0000

WV0625630 PD HOMETOWN 304-457-0000

## **NICS UNDER 21 NOTIFICATION (\$.H.U21)**

This new unsolicited message from the FBI will be sent when a background check is initiated for a potential firearm transferee under the age of 21. This message will be sent to the law enforcement agency based on the address information provided by the potential firearm transferee. If the agency does not have a terminal, the message will be sent to the county. If you receive a \$.H.U21 unsolicited message, the NICS Section of the FBI is requesting relevant juvenile information that an agency may have on the subject. In the reply, an agency should advise of any potentially prohibiting information that may exist for the subject. If your agency determines prohibiting information is not available or that your agency is not permitted to share juvenile information for firearm eligibility determinations, your agency should respond as such to the message. Agencies are asked to share other information on potentially applicable federal, state, tribal, or local firearm prohibitions including information establishing the potential firearm transferee as a current user of controlled substance, or a respondent of a protection order.

*The following is an example of the request the NICS Section will send to the identified points of contact:*

In accordance with the Bipartisan Safer Communities Act, when individuals under 21 years of age seek the transfer of a firearm through a federal firearms licensee, the FBI's National Instant Criminal Background Check System (NICS) Section is required to contact your agency for information. We are primarily reaching out to you seeking relevant *juvenile* information on the subject below. However, if you have knowledge of or possess any information that could impact the subject's eligibility to receive a firearm, we request you provide such information as well or make us aware by emailing [NICS\\_U21@fbi.gov](mailto:NICS_U21@fbi.gov).

Please respond to this request within three business days, including the NICS Transaction Number (NTN) listed below. Please indicate whether your agency does/does not possess prohibiting information or whether your agency has knowledge of potentially prohibiting information.

Name Last, First M                      NTN

Sex

Race

Date of Birth

Place of Birth

Height                      Weight

Social Security Number

Residence Address:

The types of information you may possess include, but are not limited to, an inference of drug use within the past year, active warrants, active protection orders, pending or convicted criminal cases, or mental health adjudications. If a mental health adjudication is located and cannot be shared directly with the NICS Section, please indicate this in your email response. If you have questions regarding this request, please provide a name and phone number and the NICS Section will contact your agency for further discussion.

## **HOT CHECK INITIATIVE**

Upon arrest fingerprint submission to the FBI, two checks are performed on the fingerprint card: a name-based check and a fingerprint comparison check. The Hot Check Initiative is a result of the name-based query and will return if a warrant matches the name associated with the fingerprint submission.

☐ [I am logging in from a dispatch workstation within a criminal justice agency or police vehicle.](#)  
☐ [Register this device.](#)

SECURITY WARNING: You are entering the Wisconsin Department of Justice TIME System. By logging in, you acknowledge that you will comply with all federal laws, state laws and regulations related to the TIME System. Unauthorized access is prohibited and may be subject to criminal and/or civil penalties. System usage may be monitored, recorded and subject to audit. Use of the system indicates consent to monitoring and recording of your transactions.

Use of the TIME System from publicly accessible computers is prohibited. This would include but are not limited to: hotel business center computers, convention center computers, public library computers, public kiosk computers, etc. No individual may use the TIME System without the authorization of a criminal justice agency. All personnel accessing the TIME System must be trained in the operation of equipment, system policies and procedures. Initial training must occur within six months of employment or assignment to a position with TIME System access. TIME System users must be recertified every two years for continue use of the system.

All transactions sent must deal with authorized criminal justice and law enforcement matters. Data stored in computerized central repositories (data files) which are part of the TIME System must be protected from unauthorized access. Data stored in the Crime Information Bureau TIME System and the NCIC Files is documented law enforcement information. Therefore, entry and access to all computerized law enforcement information must be restricted to authorized law enforcement / criminal justice agencies.

**Please note that the eTIME maintenance window is 4am to 6am daily.  
Normally this is only Mon-Fri and it is usually available by 4:30am.**

To view the validation, authorized users click on the Online Validation link as shown below.

### On-Line Validations

Enter Validating ORI:

Please note that eTIME is unavailable from 4am to 6am daily for routine maintenance.

The most current month's validation and the two previous months' validations are accessible online. The status of a particular validation is visible under Certification Status. Certified validations are those that have been completed. In-process validations require additional certifications to be complete.

Once you select a specific validation month, you can then:

- View and/or certify the records
- Print the validation list, with exception reports, if you want a hardcopy (eTIME will only keep three months of validation records).
- Print a completed certification page for those months that have a "Certified" status
- Download the validation in an XML or text format to facilitate automated comparisons with your in-house data

Submit Action

Please note that eTIME is unavailable from 4am to 6am daily for routine maintenance.

Once the user selects a specific validation, the records to be validated will appear in a list by file type. The file type can be changed by clicking on the Select File Type drop down. The Certifying Person and Certification Date fields automatically populate after login. The Display Records option allows the user to select which records appear: In-Process, Certified, Exceptions or ALL.

A user can certify the validation of each record individually, by specific file type or certify the entire validation at once. An individual record can be viewed by clicking on the black CIB or NCIC hyperlink under the "Record" column. This will display the record contained within that month's validation. If you want to certify ALL file type records for a validation, a checkbox is located to the left of the SUBMIT button. Once a record / validation has been certified it cannot be reversed.

**NOTE: All records must contain a check mark ☒ in the certify box to the left of the Agency ORI for the validation to be complete.**

## **NOTIFICATION EMAIL**

Subject: (Month) Validation

The (Month) Validation containing records entered in the month of (Month) is available online. You must log in to the eTIME Browser and complete your certifications no later than MM/DD/CCYY.

The purpose of the validation is to ensure that the records maintained by the Crime Information Bureau and the National Crime Information Center are accurate, complete, and up-to-date. Instructions for completing the validation are provided during TIME System Validation Officer training.

It is essential and required that your agency take immediate action on completing this validation. Certification indicates that your agency has received the validation; **has taken corrective action on those records that were incorrect; and, has cancelled those records that were inactive.**

Due to the limited time which the CIB has to validate these files with NCIC, **IF THE CERTIFICATION OF YOUR RECORDS IS NOT ACCOMPLISHED BY THE DATE INDICATED, WE WILL HAVE NO ALTERNATIVE BUT TO PURGE ALL THE RECORDS FOR THAT MONTH.** Any modification or cancellation must be made using the ORI of the original entry.

## **CERTIFICATION REMINDER EMAIL**

Message for: **(Agency Name)**

Attention: Validation Officer(s)

Reference: On-line validation certification due

The due date of **MM/DD/CCYY** for certifying records on-line is approaching. This validation contains active records entered in the month of **(Month)** in the current and prior years.

Please complete the certification of on-line validation as soon as possible. If certification is not completed by the specified due date uncertified records will be removed from the system.

Questions regarding this reminder message may be directed to terminal CIBT, or e-mail CIBTRAIN@DOJ.STATE.WI.US or phone 608/266-7792.

MARCH

# ANNUAL PURGE

Within the first week of January, NCIC purges all vehicles, part and stolen property records that have exceeded the retention period. CIB will mail a printout to your agency identifying the records that were purged. **Re-entry of these records requires contact with the complainant(s) to verify the stolen status.** This purge includes license plate information in Warrant, Protection Orders/Injunctions and Missing Person records.

**NOTE:** Records entered into the Article file with a type code of "T" (Toxic/Hazardous Materials), "Q" (Public Safety, Homeland Security, & Critical Infrastructure Items of Identification) and "Z" (Lost or stolen equipment associated with Public Safety, Homeland Security, and Critical Infrastructure) are retained in NCIC indefinitely and must be validated.

# VALIDATION EXCEPTION REPORT

The Validation Exception Report identifies records that were found to be mismatched in the CIB and NCIC databases. Each record that is mismatched will contain an Exception Reason. The Exception Reason may be that the record was in one database but not the other or that searchable identifiers i.e., social security number, alias DOB, do not match or are absent from one of the databases. Validation officers must query each listed record by NCIC Number (NIC) & System Identification Number (SCN) to determine if the record is actually absent from a specific database. If the record exists in both databases no further action is necessary except to validate the record. If the record exists in one database but not the other, and a review of the case file determines that the case is still active, then your agency needs to cancel and re-enter so the record exists in both the CIB & NCIC databases. You may need to contact the TIME System Control Center (TSCC) for assistance in cancelling a record from NCIC. **If your agency determines that the record is no longer valid, the record must be cancelled immediately.** If the data is found to be mismatched between the two databases, the record should be modified so both records contain the same data.

## Wisconsin Crime Information Bureau Validations Exception Report For the Month of October, 20XX

Entering Agency ORI: WI0130000  
DANE COUNTY SHERIFF

Print Date: MM/DD/YY

WANTED PERSON		04CF1705	17600928	W156334225	CIB and NCIC data do not match for record
WANTED PERSON		04CF1841	17602567	W756391084	CIB and NCIC data do not match for record

## Wisconsin Crime Information Bureau Validations Exception Report For the Month of October, 20XX

Entering Agency ORI: WI0130000  
DANE COUNTY SHERIFF

Print Date: MM/DD/YY  
Page Number: 3

\*\*\* Review your case file and modify, cancel or re-enter accordingly \*\*\*

FILE TYPE	UNIT	OCA	SCN	NIC	EXCEPTION REASON
MISSING PERSON		D15560	23561009	M815933790	CIB record not found in NCIC
VEHICLE		060070496		V979038331	NCIC record not found in CIB

# **RETENTION PERIODS**

## **1. WARRANT/WANTED PERSONS**

- A. Warrant -- Indefinite
- B. Temporary Felony Want -- 48 Hours
- C. Temporary Misdemeanor Want -- 72 Hours
- D. Juvenile Warrant -- Indefinite
- E. Detainers -- Midnight of the Date Sentence Ends

**NOTE:** Expired license plate data remains in a person record -- Four Years + Year of Entry

## **2. MISSING PERSONS**

- A. Disabled, Endangered, Involuntary, Other, Juvenile & Disaster Victim – Indefinite
- B. Person With Information - Indefinite

## **3. PROTECTION ORDER/INJUNCTIONS**

- A. Temporary restraining orders -- 96 hours after expiration date of order
- B. Injunctions -- Midnight of expiration date (can be non-expiring)

## **4. VIOLENT PERSON**

- A. Indefinite

## **5. GANG ORGANIZATION**

- A. Indefinite

## **6. GANG MEMBER**

- A. Date of Purge entered by agency, or
- B. Five years

## **7. UNIDENTIFIED PERSONS**

- A. Indefinite

## **8. IDENTITY THEFT VICTIM**

- A. Date of Purge entered by agency, or
- B. Five years

**9. VEHICLES**

- A. Stolen, if Vehicle Identification Number (VIN) or Owner Applied Number (OAN) is included -- Four Years + Year of Entry
- B. Stolen, if VIN or OAN is not included -- 90 Days
- C. Felony -- 90 Days
- D. Stolen/Missing License Plate -- Four Years + Year of Entry

**10. PARTS**

- A. Four Years + Year of Entry

**11. ARTICLES**

- A. One Year + Year of Entry
- B. Indefinitely for entries with type code of "T" (Toxic/Hazardous Materials), "Q" (Public Safety, Homeland Security, & Critical Infrastructure Items of Identification) or "Z" (lost or stolen equipment associated with Public Safety, Homeland Security, and Critical Infrastructure).

**12. GUNS**

- A. Stolen/Lost/Felony -- Indefinite
- B. Recovered -- Two Years + Year of Entry

**13. BOATS**

- A. If Boat Hull Number is included -- Four Years + Year of Entry
- B. If Boat Hull Number is not included -- 90 Days

**14. SECURITIES**

- A. Four Years + Year of Entry
- B. Travelers Checks & Money Orders -- Two Years + Year of Entry
- C. Ransom Money -- Indefinite

# UPDATING RECORDS

## MODIFY

Records should be updated whenever information is received that could be added to the record or whenever it is learned that information in the record needs to be corrected or removed. A "Modify transaction" allows the operator to perform these functions:

1. Add data to the base record: As long as the field was blank in the original entry, the information can be "modified in".
2. Change data in the base record: Corrections can be made by using the modify transaction since this allows the operator to "write over" the incorrect data.
3. Delete data from the base record: This can be accomplished by using the modify transaction & placing the pound sign (#) in the field to be deleted.

**NOTES:** When modifying the "engine power" in a stolen part entry, the "part category" field must also be filled in. The TIME System looks at these as a group for purposes of doing a modification.

When modifying a temporary restraining order to an injunction, modify the type of order, beginning date, and ending date. The beginning date must be the beginning date of the injunction not the beginning date of the temporary restraining order.

NCIC does not allow modification or supplementation of temporary restraining order records after the ending date. This will require agencies to cancel the temporary restraining order and enter a new injunction. Due to the time change between eastern and central time, users will be rejected when attempting to modify a protection order record between 2300 and 2400 hours central time on the date of expiration.

When modifying the "MISCELLANEOUS/REMARKS" field you must key in all of the information you want to appear in that field. You cannot just add information to what is already in the field.

## **SUPPLEMENT**

A Supplement transaction allows you to add data to an already established field within a record.  
Data that can be supplemented:

### **DATES OF BIRTH**

Nine additional

### **SCARS, MARKS, TATTOOS AND OTHER CHARACTERISTICS**

Nine additional

Nineteen additional on missing & unidentified persons

### **SOCIAL SECURITY NUMBERS**

Nine additional

### **MISCELLANEOUS NUMBERS**

Nine additional

### **DRIVER'S LICENSE NUMBERS**

Nine additional

### **ALIAS NAMES**

Ninety-nine additional (monikers may be entered as alias last names, leaving the first name field blank, for gang/threat screening center file members only)

### **CAUTION AND MEDICAL CONDITIONS**

Ten additional

### **DENTAL INFORMATION**

Missing & unidentified persons only

### **DETAINER**

Warrant/wanted persons only

### **LICENSE PLATES**

Nine additional

### **VEHICLE IDENTIFICATION NUMBER, YEAR, MAKE, MODEL, STYLE AND COLOR**

Gang/threat screening center file members only

### **IDENTIFYING DRESS, TATTOOS, HAND SIGNALS AND GRAFFITI**

Gang/threat screening center file organization only by primary ORI

### **PROTECTION ORDER CONDITIONS**

Seven additional

### **PROTECTION ORDER PETITIONER INFORMATION**

Nine additional

### **STOLEN/FRAUDULENT IDENTIFIERS**

Ninety-nine additional names, for warrant/wanted person only  
Nine additional dates of birth, social security, driver's license & miscellaneous numbers, for warrant/wanted person only

### **PERSON WITH INFORMATION**

One additional person with information

Each person with information may have up to 99 additional names, 9 additional dates of birth, 9 additional scars, marks, tattoos, and other characteristics.

### **IMAGES**

Nine additional identifying images (other than mugshot and signature) can be associated with a person record.

Nine additional identifying images (such as tattoos, dress, or graffiti) can be associated with a gang/threat screening center file group reference record.

# **PERSON FILES**

## **GENERAL GUIDELINES FOR VALIDATING PERSON RECORDS**

### **CHANGES ON WARRANTS, ORDERS/INJUNCTIONS**

Any addition of data or changes made must be made by the court and must be signed or initialed by the judge.

### **WARRANTS**

Any Felony or Non-Felony State Law warrants should be entered into NCIC. Any Felony or Non-Felony State Law warrant found in CIB Only should be canceled and entered into NCIC. Felony or Non-Felony State Law warrants may be maintained in CIB Only if the agency already has another warrant for the same individual entered into NCIC.

Child support warrants may be Felony, Non-Felony State Law (statute 948.22) or State Law Civil Process. (Statutes ranging from 769.101, 785.03 or 818.02)

Use caution when basing the warrant category on the case number issued, as case numbers do not change even if cases are pled down or up from the originally charged offense.

If doubt exists on which category to enter the warrant, contact the prosecuting attorney for assistance.

If your agency is not willing or able to serve the subject 24 hours a day, 7 days a week, the warrant should not be entered.

### **FIREARM PURCHASE DISQUALIFICATION**

Title 18 of the United State Code, Chapter 44, § 922 (g) prohibits the purchase of a firearm if the subject is a fugitive from justice. The Wisconsin Handgun Hotline, operated by the Crime Information Bureau (CIB), performs a background check in accordance with Wis. Statute § 175.35 to ensure that a person is eligible to purchase a handgun under state and federal laws. All registered firearm dealers in Wisconsin are required to call the Handgun Hotline before transferring a handgun. The Handgun Hotline performs a query of the CIB and NCIC hot files, in addition to other searches, to determine if the subject is wanted. In accordance with CJIS policy, the Handgun Hotline will send a Hit Confirmation Request to confirm the warrant is still outstanding even though the subject is not in custody.

If the person is attempting to purchase a long gun, the registered firearm dealer is required to contact NICS (National Instant Criminal Background Check System) operated by the FBI CJIS Division to complete the required background check. NICS only queries the NCIC hot files to determine if the subject is wanted. If felony or misdemeanor warrants have only been entered in CIB, a person may be able to purchase a long gun that would have otherwise been denied.

### **DETAINERS**

A detainer can be appended to a warrant/wanted person record after the person is arrested, hit confirmation has occurred and the wanted person will not be released to the agency holding the warrant. It is not permissible to leave a warrant record in the TIME System without appending detainer information when the subject has been arrested or taken into custody on the warrant.

The entry of detainer information is voluntary and not required by the TIME System. The alternative to the use of the detainer data is to cancel the warrant record as soon as the entering agency has been advised that the subject is in custody and being held for their agency.

Detainer information may be added to any wanted person record, whether the record is listed on both the CIB and NCIC database or in the CIB files only.

Before detainer information can be added to a record which is entered in both CIB and NCIC, the record must be in a "located" status. A locate can be placed by the agency that arrested or incarcerated the subject indicating that the subject is being detained. The entering agency cannot place a Locate on their own record. If the arresting or incarcerating agency refuses to locate the record, the entering agency can request the TIME System Control Center (TSCC) to locate the record. Once the record has been located, the entering agency can proceed with the existing transactions to enter the detainer.

### **DATE SENTENCE ENDS**

The date sentence ends must be a documented date accurately representing the anticipated transfer of the subject from the incarcerating agency to your department. For detainer information added to an NCIC record, the Date Sentence Ends must be 5 days or more into the future.

If the subject is to be held and appear in court on a specific date, that date must be entered.

If the subject is to serve a specific number of days at the incarcerating agency, the Date Sentence Ends must be entered.

For detainers on CIB records only, if the subject is not immediately available for pick up and the agency is unable to obtain an accurate ending date from the incarcerating agency at the time of entering the detainer information, the agency must enter an end date that is ten days or less in the future. At approximately 12:00 a.m. on the date the sentence ends automatic advisory messages will be sent to both the incarcerating agency and the entering agency advising that the detainer has expired and that contact should be made to determine if the subject is available for pickup.

If the subject is still not available for pick up when the sentence ending date has been reached and an accurate date of release is still not available, the agency must enter an ending date that is ten days or less into the future. This process may be repeated as necessary, until the subject is available for pickup.

The entry of detainer information is voluntary and not required by the TIME System. The alternative to the use of the detainer data is to cancel the warrant record as soon as the entering agency has been advised that the subject is in custody and being held for their agency.

It is not permissible to leave a warrant record in the TIME System without appending detainer information when the subject has been arrested or taken into custody on the warrant.

If a detainer reaches the "date sentence ends" and gets purged before the individual was read to be turned over to the ORI, it is the agency's responsibility to reach out to the incarcerating agency to make arrangements for pick up. The warrant **cannot** be re-entered as it has already been served.

## **EXTRADITION AND GEOGRAPHIC LIMITATIONS**

Communication must take place with the district attorney/prosecutor's office regarding extradition restrictions on felony and misdemeanor warrants entered into the TIME System. Documentation must be kept in the case file to support the extradition limitations entered.

**NOTE** - Your local law enforcement agency may develop their own geographic restrictions policy on how far they will go to serve civil process warrants. This policy must be in writing and available for review during an NCIC or CIB audit.

## **IN-STATE GEOGRAPHIC RESTRICTIONS**

Misdemeanor and felony warrants can only be entered with code A = Court Ordered – See Remarks. The specific restrictions must then be stated in the miscellaneous remarks field. Court ordered geographic restrictions must be stated on the warrant or as an attachment to the warrant. Any of the geographic codes shown below may be used for entry of civil process warrants.

- A = Court Ordered – See Remarks
- B = East of HWY 51
- C = West of HWY 51
- D = North of HWY 10
- E = South of HWY 10
- F = East of HWY 51 & North of HWY 10
- G = East of HWY 51 & South of HWY 10
- H = West of HWY 51 & North of HWY 10
- I = West of HWY 51 & South of HWY 10
- J = Within County of ORI
- K = Within Adjacent Counties of ORI

## **EXTRADITION LIMITATION CODES**

One of the following extradition limitation codes must be used when entering a warrant into NCIC.

- 1 = Felony full extradition
- 2 = Felony limited extradition see miscellaneous field
- 3 = Felony extradition surrounding states only
- 4 = Felony no extradition
- 5 = Felony extradition arrangement pending see miscellaneous field
- 6 = Felony pending extradition determination
  
- A = Misdemeanor full extradition otherwise noted in the miscellaneous field
- B = Misdemeanor limited extradition see miscellaneous field
- C = Misdemeanor extradition surrounding states only
- D = Misdemeanor no extradition
- E = Misdemeanor extradition arrangements pending see miscellaneous field
- F = Misdemeanor pending extradition determination

## **OFFENSE CODE**

When a warrant is issued for “failure to pay” or “failure to appear” the offense code for “contempt of court” (5005) or “failure to appear” (5015) must be entered in the offense code field. The original offense i.e. “speeding” must be explained in the expanded offense code field and the original offense code field based upon NCIC edits, as explained below.

Commitments declare a stipulation of guilt, the subject has been ordered to pay a fine or fee and has either made a partial payment or has not yet made a payment. Failing to pay a fine, fee or recovered judgment as ordered by the court is considered contempt of court, thus commitments would be entered with offense code 5005, Contempt of Court.

Arrest warrants may declare that a subject has not been notified of an initial charge. Such warrants would be entered with an original offense code describing the actual charge.

Bench warrants declare that a subject has been notified of the initial charge, but has failed to appear in court. Such warrants would be entered with offense code 5015, Failure to Appear.

## **EXPANDED OFFENSE FIELD**

When a warrant is entered into the TIME System with an offense code of 0199, 0299, 0399, 5005, 5015, 5099, 7099, 7199, 7299 or 7399 the expanded offense field becomes required. This is a nineteen-character field used to explain the offense in more specific detail.

## **ORIGINAL OFFENSE CODE**

This field is required when the offense code is 4901, 4999, 5001, 5002, 5011, 5012, 5013, 5014, 5015, 8100, 8101, or 8102. The original offense code field must contain the NCIC code for the original offense. System edits will not allow you to enter the same NCIC code in both of these fields.

**NOTE:** These fields must be used as explained above. Leaving a required field blank may result in the entry being rejected or invalid data being entered in the TIME System.

In order to determine the most appropriate offense code, be sure to utilize the most recent version of the NCIC Code Manual, which is available on WILENET. Another tool that can be utilized is the Query Statute Number Portal Form (0181).

## **PROTECTION ORDERS AND INJUNCTIONS**

When the petitioner listed on the order is a business, the information should be entered as it appears on the court order. If there is no individual named on the order, enter the business name as it appears on the order into the last name field and place an X in the first name field.

When multiple petitioners exist, the first petitioner’s information should be entered in the petitioner fields. Additional petitioners’ data should be added using the supplemental petitioner fields.

Juveniles may appear as petitioners on an order. Their information should be entered in the petitioner fields, regardless of age. Listing juveniles in the remarks field is inadequate, as the remarks field is not a searchable field.

When entering No Contact Orders the proper code is code #8, Other (entry of applicable statute number is required). Entry of these orders is not mandatory but is recommended to protect the victim. Entry of a no contact order can be performed by a sheriff's office or a police department. The expiration date is the respondent's next court date and petitioner data can be obtained from the court.

When validating orders/injunctions, verify the type of order/injunction, beginning date and ending date. The beginning date must be the beginning date of the injunction not the beginning date of the temporary restraining order.

NCIC temporary restraining order/injunction records will contain an additional field called Protection Order Conditions. If the Type of Order is 2, 4, 6 or 12, protection order condition 07 must be entered. Any special protection order conditions should be entered in the miscellaneous remarks field. Further information on the conditions of the order may be obtained from the listed ORI.

When the last, first or middle name spelling listed on the temporary restraining order and related entry varies from the last, first or middle name now listed on the newly issued injunction, the name listed on the injunction may be entered as an alias. The agency must then maintain the supportive documentation (temporary restraining order) which supports both names.

### **CAUTION/MEDICAL CONDITIONS**

A caution and/or medical condition indicator should be included in an entry when it is known that the individual in question is armed and dangerous, has suicidal tendencies, has previously escaped from custody, is a drug addict, or whatever is appropriate in the particular circumstances of the individual.

The specific caution and/or medical condition information must be entered by using the caution/medical condition field.

### **NAME**

Enter the full name as it appears on the face of the warrant, temporary restraining order, injunction, identity theft report, missing person report or gang member documentation. A space or hyphen in the last name field is acceptable. Spaces or hyphens in the first or middle name fields must be removed.

When the middle name or initial is known but does not appear on the face of the warrant, temporary restraining order, injunction, identity theft report, missing person report and gang member documentation it may be included in the original entry.

In the event of a criminal kidnapping of a juvenile by the noncustodial mother, it is recommended that the mother's maiden name be entered as a possible alias and the following information be added to the miscellaneous/remarks field: "child is missing under suspicious circumstances: and/or "child is believed to be in a life-threatening situation." The mother's maiden name should also be entered if it is believed that a runaway juvenile is using the maiden name to try to avoid identification.

**NOTE:** In some instances the Wisconsin Department of Transportation (DOT) response or other records show an individual's middle name as "NMI" or "NMN". These should not

be entered as part of the name. They are only used to indicate that no middle name or initial is known or available.

For audit purposes NCIC has defined data fields as critical and non-critical. A critical data field is one that impacts the search and the resulting responses (i.e., names, DOBs, social security numbers, etc.). Non-critical data fields are those that provide additional information but would not impact the search results (i.e., skin tone, address, warrant number, etc.). NCIC's search algorithm uses the last name only when searching names. For NCIC audit purposes they consider a record to be complete (all available information is entered) for names if all names are entered that would impact the response results. For example, if a record entered as John James Smith Jr NCIC would not require the entry of AKA's of John James Smith, John Smith, or John J Smith from an NCIC audit perspective for completeness as they would not impact whether the record was returned since the last names are all the same, Smith.

One must also consider the other standpoint which is officer information. Even though a record may return, the officer must make a determination whether the record is the same person that they have stopped. This requires the officer knowing as much information as possible which would include first and middle names even though they are not used by NCIC for searching. For example, wouldn't it be good officer information to know a person's first name is James and not Jesus or a middle name of James vs. Jonathon when only J is entered as a middle initial even though it doesn't impact the NCIC search if the last name for all of them is Smith? It is worth noting here that CIB Hotfiles uses both last name and first names for searching.

Taking all of this into consideration CIB will be moving forward with the following guidelines.

- Person records are to be entered with the name on the source documentation.
  - If the source document contains middle initial, middle name or suffix and it is not entered in the record as the base name or as supplemental data (AKA) it will be marked incomplete during a CIB audit.
  - A suffix, middle initial, or full middle name may be entered in the base record when the original documentation does not contain the suffix, middle initial, or only a middle initial as long as documentation is maintained within the case file to show from where it was obtained.
- If a record does not contain a documented complete first or middle names as base record or supplemental names the record will be marked as incomplete during a CIB audit.
- If a record does not contain documented name variations (i.e., Bill vs. William), or any other documented names the record will be marked as incomplete during a CIB audit.
- Records containing complete first, middle and last name sets (i.e., John James Smith) do not require entry of AKA's that contained shortened name sets (i.e., John Smith, John J Smith).

The above guidelines only address the entry of names and do not change the need to enter all available information to assist officers and communication personnel in making identification determinations.

If the legal name of the petitioner has changed from what is on the protection order or injunction due to marriage, divorce, etc., the agency can enter the new legal name of the petitioner as a second petitioner. In the MIS Remarks field, the agency should indicate that the additional petitioner is a second name for the petitioner.

## **RACE CODE**

The race code of "U" is only to be used when no other valid race code is available or when two or more race codes are documented and the proper race cannot be determined. NCIC policy states "records for Hispanics should be entered with the race code most closely representing the individual". This means that if the individual has light skin he or she should be entered as white. If the individual has dark skin he or she should be entered as black.

## **SCARS/MARKS/TATTOOS/OTHER IDENTIFYING CHARACTERISTICS**

When scars/marks/tattoos and other identifying characteristics exist for missing person entries, be sure to further describe such identifiers in the miscellaneous remarks field.

## **FBI UCN NUMBER**

The FBI number should be included in an NCIC wanted person entry when possible. When an NCIC wanted person entry contains an FBI number, the wanted information is posted in the subject's III criminal history record. FBI staff will then notify the entering agency if fingerprints are submitted that match with the wanted person.

## **MISCELLANEOUS NUMBER**

If entering additional State Identification Numbers (SID) in the miscellaneous number field use the prefix code of "OA" (Originating Agency Number). Department of Corrections (DOC) numbers and Department of Natural Resources (DNR) customer ID numbers can also be entered into the miscellaneous number field using the prefix code of "PI" (Personal Identification Number).

## **WISCONSIN DRIVERS LICENSE NUMBER VS. IDENTIFICATION NUMBER**

If there is no Wisconsin driver's license issued, the driver's license number cannot be entered, regardless of what status is listed. DOT contains violation file information where a subject may have driving violations but not have a driver's license. DOT assigns a number to these violation files, but they are not a form of identification and cannot be entered.

If the Wisconsin driver's privileges are expired, revoked, cancelled, or suspended, the driver's license number can be entered using the date within the expiration date field.

If the individual has been issued a DOT identification card, enter this number in the driver's license number field and include in the miscellaneous or remarks field that the driver's license number is a Wisconsin identification card using the identification card year of expiration.

If the individual has been issued a Wisconsin driver's license and a Wisconsin identification card and the operator uses the expiration date of the Wisconsin identification card, the operator must state in the miscellaneous or remarks field that the driver's license number is a Wisconsin identification card.

The driver license or identification card expiration may be entered as any one of the available expirations documented within the agency case file. This includes the expiration date as documented on the DOT response or the year a former driver license or identification card number was changed. The code for unknown (UNKN) should **only** be used when an agency is unable to determine another valid expiration date.

## **PERSON ENTRIES CONTAINING VEHICLE INFORMATION**

Vehicle and/or license plate information may be entered as part of a person record, provided the location of the vehicle and/or license plate is unknown, and the entering agency has reasonable grounds to believe that the person may be operating the vehicle or a vehicle bearing the license plate. Mere knowledge or verification with the Department of Motor Vehicles that a vehicle and/or license plate is registered to the wanted person, missing person, respondent and gang member does not meet the criteria for entry of either or both as part of any person record. The registered owner may live in a household containing multiple drivers, any of whom may have access to the vehicle in question.

If vehicle information is contained in a person entry, the entering agency must maintain documentation of the above facts/criteria. This documentation is not only essential for audit purposes, but also becomes valuable in the event of a civil lawsuit. Remember that when vehicle information is listed on a person entry, the response will be displayed when the vehicle information is queried through the TIME System. This may result in the person driving the vehicle at the time being subjected to a felony traffic stop and subsequent arrest. If this driver is not the wanted subject, unwanted consequences, including lawsuits could result.

## **STOLEN/FRAUDULENT IDENTIFIERS**

If an individual is, or has been, in possession of stolen or fraudulent documents such as a social security card, driver's license, passport, etc., this information may be entered into a wanted person record as stolen or fraudulently obtained identifiers.

## **MISCELLANEOUS/REMARKS**

The miscellaneous remarks field allows a maximum of 500 characters. This will allow agencies to include other related information and use fewer abbreviations.

## **IMAGES**

One mugshot and one signature image can be associated with an NCIC person record. Up to ten identifying images (other than mugshot and signature) can be associated with a person record. Documentation of all images must be included in the case file. Images must be a JPEG and no more than 16K, cropped to 256-x256 pixels and 8 bits per pixel gray scale, with a quality factor of 25.

## **STATE STATUTE REQUIREMENTS**

### **Warrants**

165.83 (2)

The department shall:

- (a) Obtain and file fingerprints, descriptions, photographs, and any other available identifying data on persons who have been arrested or taken into custody in this state:
  - 1. For an offense which is a felony or which would be a felony if committed by an adult.
  - 2. For an offense which is a misdemeanor, which would be a misdemeanor if committed by an adult or which is a violation of an ordinance, and the offense involves burglary tools, commercial gambling, dealing in gambling devices, contributing to the delinquency of a child, dealing in stolen property, controlled substances or controlled substance analogs under ch. 961, firearms, dangerous weapons, explosives, pandering, prostitution, sex offenses where children are victims, or worthless checks.
  - 3. For an offense charged or alleged as disorderly conduct but which relates to an act connected with one or more of the offenses under subd. 2.
  - 4. As a fugitive from justice.
  - 5. For any other offenses designated by the Attorney General; e.g., stalking and harassment.
- (d) Obtain the file information relating to identifiable stolen or lost property.
- (e) Obtain and file a copy or detailed description of each arrest warrant issued in this state for the offenses under par. (a), §346.63 (1) or (5) or §800.03 (4) but not served because the whereabouts of the person named on the warrant is unknown or because that person has left the state. All available identifying data shall be obtained with the copy of the warrant, including any information indicating that the person named on the warrant may be armed, dangerous or possessed of suicidal tendencies.

165.84(3)

All persons in charge of law enforcement and tribal law enforcement agencies shall forward to the department copies or detailed descriptions of the arrest warrants and the identifying data described in 165.83 (2) (e) immediately upon determination of the fact that the warrant cannot be served for the reasons stated. If the warrant is subsequently served or withdrawn, the law enforcement or tribal law enforcement agency concerned must immediately notify the department of the service or withdrawal. In any case, the law enforcement agency or tribal law enforcement agency concerned must annually, no later than January 31 of each year, confirm to the department all arrest warrants of this type which continue to be outstanding.

968.04 (3)(a) Mandatory provisions

The warrant shall:

1. Be in writing and signed by the judge.
2. State the name of the crime and section charged and number of the section alleged to have violated.
3. Have attached to it a copy of the complaint.
4. State the name of the person to be arrested, if known, or if not known, designate the person to be arrested by any description by which the person to be arrested can be identified with reasonable certainty.
5. State the date when it was issued and the name of the judge who issued it together with the title of the judge's office.
6. Command that the person against whom the complaint was made be arrested and brought before the judge issuing the warrant, or, if the judge is absent or unable to act, before some other judge in the same county.
7. The warrant shall be in substantially the following form: (see statute for format)

990.01 (38) Signature:

If the signature of any person is required by law it shall always be the handwriting of such person or, if the person is unable to write, the person's mark or the person's name written by some other person at the person's request and in the person's presence, or, subject to any applicable requirements under ch.137, the electronic signature of the person.

801.17 (13) Signatures of Court Officials

If the signature of a court official is required on a document, an electronic signature may be used. The electronic signature shall be treated as the court official's personal original signature for all purposes under Wisconsin statutes and court rules. Where a non-electronic signature would be located on a particular order, form, letter or other document, the official's printed name shall be inserted.

Supreme Court Rule 70.42(1)(a) Electronic signatures

"Court official" means a circuit court judge, clerk of circuit court, register in probate, juvenile clerk, court commissioner appointed under section 757.68 and SCR 75.02 (1), justice of the supreme court, judge of the court of appeals, and the clerk of the supreme and appellate courts

Supreme Court Rule §70.42 (1) (b) Electronic signatures

"Electronic signature" means an electronic sound, symbol, or process attached to or logically associated with a document and executed or adopted by a person with the intent to sign the document.

## **Municipal Court Procedure**

800.02 (5)

Warrant form:

The warrant shall be in the name of the state of Wisconsin, shall be directed to all law enforcement officers in the state, may be addressed to any law enforcement officer in the state, may specify geographical limits for enforcement of the warrant, and shall be signed by the municipal judge who authorizes its issuance or contain a computer-generated facsimile of the judge's signature. A municipal judge may authorize the issuance of a warrant under this chapter by using a computer or other electronic media. The municipal judge shall make the authorization so that it is accessible to the attorney for the municipality and law enforcement officers. A law enforcement officer shall convert the municipal judge's authorization to a paper copy of the warrant before serving the warrant. The warrant shall contain or have attached to it the following information:

- a) The name of the defendant.
- b) The offense alleged.
- c) A copy of the citation or complaint.
- d) A finding of probable cause that the defendant committed the offense.
- e) A command to arrest the defendant and bring him or her before the municipal judge or other municipal judge or judge of the county.
- f) The date of issuance.

## **MISSING PERSON FEDERAL REQUIREMENTS**

The National Child Search Assistance Act (42 U.S.C. 5779, 5780) requires law enforcement to immediately enter into the National Crime Information Center (NCIC) database every reported case involving a missing child. The intent of this law is to ensure that law enforcement disseminates, as quickly as possible, information vital to the recovery of a missing child. Additionally, the Adam Walsh Child Protection and Safety Act of 2006 clearly defined the timely entry requirement for missing person records under the age of twenty-one (21) from “immediately” to “within two hours of receipt.”

“Suzanne’s Law,” amends Section 3701 (a) of the Crime Control Act of 1990 so that there is no waiting period before a law enforcement agency initiates an investigation of a missing person under the age of twenty one. The law requires law enforcement to immediately notify the NCIC when someone between the ages of 18 and 21 is reported missing.

## **MISSING PERSON REPORTS**

A record for a missing person who is 21 years of age and over may be entered in the Missing Person File provided the entering agency has signed documentation in its possession supporting the stated conditions under which the person is declared missing. This written documentation will aid in the protection of the individual’s right to privacy. In the absence of documentation from a parent/legal guardian, next of kin, physician, or other authoritative source, including friend/neighbor in unusual circumstances, or when such documentation is not reasonably attainable, a signed report by the investigating officer will suffice.

A record for a missing person who is under the age of 21 must be immediately entered using one of the appropriate categories. A missing person report filed with an agency is sufficient documentation for entering a juvenile in the Missing Person File.

## **PROTECTION ORDERS**

### **§813.12 (6) (b) Domestic abuse restraining orders and injunctions**

Within one business day after an order or injunction is issued, extended, modified or vacated under this section, the clerk of the circuit court shall send a copy of the order or injunction, or of the order extending, modifying or vacating an order or injunction, to the sheriff or to any other local law enforcement agency which is the central repository for orders and injunctions and which has jurisdiction over the petitioner's premises.

### **§813.12 (6) (c)**

No later than 24 hours after receiving the information under par. (b), the sheriff or other appropriate local law enforcement agency under par. (b) shall enter the information concerning an order or injunction issued, extended, modified or vacated under this section into the transaction information for management of enforcement system. The sheriff or other appropriate local law enforcement agency shall also make available to other law enforcement agencies, through a verification system, information on the existence and status of any order or injunction issued under this section. The information need not be maintained after the order or injunction is no longer in effect.

### **§813.12 (6) (am) 1.**

If an injunction is issued or extended under sub. (4) or if a tribal injunction is filed under s. 806.247 (3), the clerk of the circuit court shall notify the department of justice of the injunction and shall provide the department of justice with information concerning the period during which the injunction is in effect and information necessary to identify the respondent for purposes of a firearms restrictions record search under s. 175.35 (2g) (c).

### **§813.1283**

State statute 813.1283 recognizes the existence of Canadian Domestic Violence Protection Orders and requires Wisconsin law enforcement officers to enforce them as any other protection order of this state or any other state. The Canadian Domestic Violence Protection Order can be presented to Wisconsin Circuit Court to be filed and then entered into the TIME System by the sheriff's office following the same rules as Wisconsin and foreign protection orders.

Administrative Rule Jus 10.06 (1) (c) advises the required respondent identifying information to be: Name, Sex, Race, Date of Birth, Height, Weight, Hair Color.

State statutes 813.122 (9) (b) & (c), 813.123 (8) (b) & (c), and 813.125 (5g) (a) & (b) require the same provisions for child abuse orders, individual at risk orders, and harassment orders.

## **ENDING DATE OF INJUNCTIONS**

The “Ending Date” is a required field for entry of an injunction and the TIME System will not allow the “Ending Date” field to be filled with “NONEXP” for non-expiring. This is done in conjunction with Wisconsin Chapter 813 and the restricted time limits for injunctions. Therefore, if your agency receives an injunction with the “Effective Until” or “Ending Date” field not completed it should be returned to the court to obtain the specific date of when the order expires. With regards to “Kayleigh’s Law, if there is no ending date, you will still be required to put in an ending date since “NONEXP” is not an option. The end date must be entered as 12/31/2150.

State statutes 813.12 (4) (c) (1) & (4) (c) (2) restrict the length of time a domestic abuse injunction may be issued for.

### **§813.12 (4) (c) (1)**

An injunction under this subsection is effective according to its terms, for a period of time that the petitioner requests, but not more than 4 years. An injunction granted under this subsection is not voided if the petitioner allows or initiates contact with the respondent or by the admittance of the respondent into a dwelling that the injunction directs him or her to avoid.

### **§813.12 (4) (c) (2)**

When an injunction granted for less than 4 years expires, the court shall extend the injunction if the petitioner states that an extension is necessary to protect him or her. This extension shall remain in effect until 4 years after the date the court first entered the injunction.

### **§813.12 (4) (d)**

A judge or circuit court commissioner may, upon issuing an injunction or granting an extension of an injunction issued under this subsection, order that the injunction is in effect for not more than 10 years, if the court finds, by a preponderance of the evidence stated on the record, that any of the following are true:

- a. There is a substantial risk that the respondent may commit first-degree intentional homicide under s. 940.01, or 2nd-degree intentional homicide under s. 940.05, against the petitioner.
  - b. There is a substantial risk that the respondent may commit sexual assault under s. 940.225 (1), (2), or (3), or under s. 948.02 (1) or (2), against the petitioner.
2. This paragraph does not prohibit a petitioner from requesting a new temporary restraining order under sub. (3) or injunction under this subsection before or at the expiration of a previously entered order or injunction.

State statutes 813.123 (5) (c) (1), and 813.125 (4) (c) specify the same 4 year period for individual at risk orders and harassment orders.

State statutes 813.122 (5) (d) (1) & (d) (2) restrict the length of time for which a child abuse injunction may be issued.

### **§813.122 (5) (d) (1)**

An injunction under this subsection is effective according to its terms, for a period of time that the petitioner requests, but not more than 2 years or until the child victim attains 18 years of age, whichever occurs first.

§813.122 (5) (d) (2)

When an injunction in effect for less than 6 months expires, the court shall extend the injunction if the petitioner states that an extension is necessary to protect the child victim. This extension shall remain in effect until 6 months after the date the court first entered the injunction or the child attains 18 year of age, whichever occurs first.

§813.122 (5) (dm)

A judge may, upon issuing an injunction or granting an extension of an injunction issued under this subsection, order that the injunction is in effect for not more than 5 years, if the court finds, by a preponderance of the evidence stated on the record, that any of the following are true:

- a. There is a substantial risk that the respondent may commit first-degree intentional homicide under s. 940.01, or 2nd-degree intentional homicide under s. 940.05, against the child victim.
  - b. There is a substantial risk that the respondent may commit sexual assault under s. 940.225 (1), (2), or (3), or under s. 948.02 (1) or (2), against the child victim.
2. This paragraph does not prohibit a petitioner from requesting a new temporary restraining order under sub. (4) or injunction under this subsection before or at the expiration of a previously entered order or injunction.

State statutes 813.123(5)(c)(1), (c)(2) & (c)(3) restrict the length of time a vulnerable adult at risk injunction may be issued for.

§813.123(5)(c)(1)

An injunction under this subsection is effective according to its terms, but not more than 4 years.

§813.123(3)(5)(2)

When an injunction that has been in effect for less than 6 months expires, the court shall extend the injunction if the petitioner states that an extension is necessary to protect the vulnerable adult at risk. This extension shall remain in effect until 6 months after the date the court first entered the injunction.

State statute 813.125(4)(c) restricts the length of time for which a harassment injunction may be issued.

§813.125(4)(c)

An injunction under this subsection is effective according to its terms, but not more than 4 years.

State statutes 813.12 (4) (d) 1m, 813.122 (5) (d) 1m, 813.123 (5) (d) 1m, 813.125 (4) (d) 1m allow for a permanent injunction to be ordered when the respondent has been convicted of sexual assault and in which the petitioner was the victim.

§813.12 (4) (d) 1m

A judge may, upon request by a petitioner, order that the injunction is in effect permanently if the respondent has been convicted of a violation of s. 940.225 (1) to (3) in which the petitioner was the crime victim.

§813.122 (5) (dm) 1m

A judge may, upon request by a petitioner, order that the injunction is in effect permanently if the respondent has been convicted of a violation of s. 948.02 or 948.025 in which the child victim was the crime victim.

§813.123 (5) (dm) 1m

A judge may, upon request by a petitioner, order that the injunction is in effect permanently if the respondent has been convicted of a violation of s. 940.225 (1) to (3) in which the individual at risk was the crime victim.

§813.125 (4) (d) 1m

A judge may, upon request by a petitioner, order that the injunction is in effect permanently if the respondent has been convicted of a violation of s. 940.225 (1) to (3) in which the petitioner was the crime victim.

**NOTE:** Any addition of data or changes made to a protection order/injunction must be made by the court and must be signed or initialed by the judge.

## Wanted Person Record Validation Steps:

1. Check with the clerk of courts/municipal court to confirm warrant is still valid.
2. Confirm warrant has actual or electronic signature - not a stamp. (Complaint may be signed by court commissioner, child support investigator and/or corporation counsel for civil law cases.)
3. Ensure all information contained in entry is supported by documentation.
4. Run subject, including DOT/CIB/NCIC/NLETS/CHRI/DNR/DOC, etc. Determine if new information is available to be added to record or if current information should be updated. Modify and supplement record as needed.
5. Confirm extradition/geographical restrictions are documented (either attached to file or written in policy).
6. If DOT ID card information is entered, confirm statement is made in remarks indicating DL information is really an ID vs. DL.
7. Confirm warrant type/offense codes are correct.
8. Check if FBI number is included in entry if the record is in NCIC, as it produces the hits-to-wants message.
9. Confirm bond amount is still accurate.
10. Confirm caution indicators and supplement if needed.
11. If wanted person record is entered in NCIC, consider associating images to entry.
12. If the record is in CIB Only, is it necessary to remove and add it to NCIC

# **VEHICLE FILE**

## **GENERAL GUIDELINES FOR VALIDATING VEHICLE RECORDS**

### **OWNER-APPLIED NUMBER**

If an owner inscribes a number on different parts of his vehicle, the number should be entered in this field. Do not include any special characters such as asterisks or dashes. Do not use a single number, run of zeros, single alpha, or run of alphas. If the number exceeds 20 characters, enter the last 20 characters in this field and indicate the full number in the miscellaneous/ remarks field. Another reason for entering a number in this field is when NCIC has rejected the number entered into the VIN field. If all supporting documentation states the number that NCIC rejected is the accurate VIN, enter that number into the Owner-Applied Number (OAN) field until the "true" VIN can be determined; this ensures a hit response if that number is queried either as a VIN or an OAN. If supporting documentation for a stolen motorcycle contains both a frame and an engine number, the frame number is considered the VIN; the engine number should be entered in the OAN field.

ATV and Snowmobile decals may be entered as owner applied numbers.

### **LICENSE PLATE INFORMATION**

There are four fields associated with the license plate: License Plate Number, State of Registration, Year of Expiration, and License Plate Type. It is important to enter the correct license plate type, as there are two different code tables associated with this field: Query codes and Entry codes.

For snowmobile, All-Terrain Vehicle (ATV), Utility-Terrain Vehicles (UTV), and Off-Highway Motorcycle (OHM) entries the registration number is entered as a license plate.

Stolen/Felony vehicle entries with sesquicentennial license plates & stolen/missing sesquicentennial license plates entered with the plate type code of "ZZ" (all others), will need to be identified and modified during the validation process with the correct license plate type code of "CM" (commemorative license plate).

When validating U.S. government license plates the state of registration should be listed as "US", the expiration date as "NX" (non-expiring) and plate type as "US".

When a single license plate is taken from a vehicle that has two plates issued to it, the agency should specify in the remarks field whether the plate taken was the front or back plate. If only one license plate was taken the plate may only be entered when the remaining plate is removed/destroyed and the complainant or owner obtains corrective registration. If the owner or complainant wishes to retain the same license plate number, no entry can be made to the database. Documentation should be maintained detailing what happened to the remaining plate and the fact that the owner was directed to obtain corrective registration.

## **VEHICLE IDENTIFICATION NUMBER**

Enter the number as shown on the supporting documentation. If NCIC rejects this number and all documentation supports the "erroneous" number, enter the number in the Owner-Applied Number (OAN) field until you are able to obtain the correct number. Assistance in determining the correct VIN number may be obtained from the National Insurance Crime Bureau (NICB). When entering motorcycles, the frame number is considered the VIN; the engine number should be entered in the OAN field.

## **YEAR, MODEL, STYLE**

All vehicles will have a year of manufacture associated with the model. Most vehicle models have specific codes assigned to them; however, generic codes are used in some instances.

## **MAKE**

Use the proper make code for the vehicle being entered. The year of manufacture can make a difference in the code to be used, e.g., there are three or four different codes assigned to Jeep depending on the model year. All-Terrain Vehicles and Utility-Terrain Vehicles (ATVs and UTVs) must be entered using the related motorcycle make code. If the manufacturer of the ATV does not manufacture motorcycles and no make code is assigned it must be entered with the generic code of "ATV". You must then specify the manufacturer of the vehicle in the expanded make code or miscellaneous or remarks field.

Other generic make codes that must be explained:

Assembled vehicles	ASVE	US Coast Guard	USCG
Aircraft	AERO	US Marine Corp	USMC
All-terrain vehicles Unpublished ATV		US Navy	USN
Dune Buggy and go carts	SPEC	** State Air National Guard	AG__
Home and garden equipment	FARM	** Civil Air Patrol	AP__
Cycles:		** National Guard	NG__
Homemade	HOMD	Snowmobiles Unpublished	SNOW
Reconstructed	RECO	Trailers:	
Unpublished	CYCL	Homemade	HMDE
Military Vehicles:		Reconstructed	RCON
US Air Force	USAF	Unpublished	TRLR
US Army	USA	Trucks Unpublished	TRUK

\*\* For National Guard or Civil Air Patrol entries, the two-character code representing the state where the unit is located should be placed after the respective make code

## **VEHICLE COLOR**

This is a two part field. If the vehicle is one solid color enter the color code into the first part of the field, the second part of the field remains blank. When a vehicle of two colors is described, the colors should be entered in the order of top to bottom or front to rear. When describing a vehicle of more than two colors, the code MUL/COL should be entered in this field and the actual colors listed in the miscellaneous/remarks field.

## **MISCELLANEOUS/REMARKS**

A variety of information should be included in this field: The manufacturer's complete name must be entered when a generic make code is used. A brief explanation of the felony for felony vehicle entries, complete numbers when they exceed the maximum allowed for the specific field (a VIN or OAN exceeding 20 characters), and "3W-Motorcycle" for those that are street legal. When a single license plate is taken, the agency should note in the miscellaneous remarks field which one was taken.

The miscellaneous remarks field allows a maximum of 200 characters. This will allow agencies to include other related information and use fewer abbreviations.

Codes assigned to each manufacturer are available in the Portal 100 software tables/help messages or the Code Manual.

## **IMAGES**

One identifying or generic image can be associated with a vehicle. Documentation of all images must be included in the case file.

NOA:Y MIS:TWO PLATES TOW AUTHORIZED HOLD FOR PRINTS UPON RECOVERY PER DIST 7 CAPTAIN

## **Vehicle Record Validation Steps:**

1. Contact complainant/owner to ensure item is still missing. If owner has been compensated by insurance company, ensure that the insurance company still has investigative interest in return of item. If neither are available, validate with investigating officer.
2. Ensure all information contained in entry is supported by documentation.
3. Run item including DOT/CIB/NCIC/NLETS/DNR, etc. Determine if new information is available to be added to record, or if current information should be updated. Modify and supplement record as needed.
4. For license plates, confirm that corrective registration has been applied for.
5. When one license plate is stolen/missing from a vehicle that had two, document that the second plate is not still being used. Indicate in the remarks field which of the two plates have been taken.
6. Confirm license plate type is correct.
7. Confirm caution indicators and supplement if needed.
8. Consider associating images to entry.

# **PART FILE**

## **GENERAL GUIDELINES FOR VALIDATING PART RECORDS**

### **SERIAL NUMBER**

When a stolen vehicle/boat part is entered, the serial number of the part must be entered in the serial number field. If an entry is for a stolen certificate of title, the title number should be entered in the serial number field. If the part is a non-motorized forklift, the serial number should be entered in the serial number field. The Vehicle Identification Number (VIN) should be entered in the serial number field when the stolen part is a VIN plate.

### **OWNER-APPLIED NUMBER**

The owner-applied number field is a 20 character searchable field. If the record entry also contains a serial number, it cannot be the same as the owner-applied number.

Another use of the owner-applied number field occurs when the stolen vehicle/boat part has a unique identification number which has been assigned in connection with a theft prevention program. In such a case, the owner-applied number may be entered as the only numeric identifier or in addition to a serial number.

### **BRAND**

There are many different codes assigned to VEHICLE and BOAT part brand names. This creates a problem because of the duplication of brand names for vehicles, boats, and their parts. For example, there is a MERCURY automobile and there is a MERCURY outboard motor; each one has a different code. It is important to use the appropriate code for the type of part being entered. Here are some of the most common brand names that have two or more codes assigned to them:

MANUFACTURER	AUTO CODE	TRAILER CODE	BOAT CODE
JOHNSON	--	JOHN	OMCJ
CHRYSLER	CHRY	CHRS	CHRM/CRYO/VW
MERCURY	MERC	MERB/MERR	MRCM/MROB/QSR

If there is no code assigned to the brand, enter a generic code (PART, ENGN) and list the brand in the miscellaneous/remarks field.

### **PART CATEGORY**

This two-character code identifies the type of part that is being entered; e.g., outboard motor, engine, drive shaft, alternator, battery, etc. If no category code is assigned, use one of the following generic codes:

VEHICLES

Automotive Parts - AG

Construction Parts – CE

Farm/Garden Parts – FE

BOATS

Boat Parts - BX

## **ENGINE POWER**

Indicate the size of the engine in cubic inches (I), cubic centimeters (C), liters (L), horsepower (H) or pounds of thrust (P). Examples: 125 Horsepower = 125H, 3 Liters = 3L, 250cc = 250C. Round fractions down to the base number; i.e., 9.9 horsepower would be entered as 9H and then further explain in the miscellaneous/remarks field that the engine power is "9 pt 9".

**NOTE:** NCIC has implemented a requirement that if a stolen part is entered with the part category code of "OB", the engine power field is mandatory. Failure to enter the engine power will cause the entry to be rejected by NCIC.

## **PRODUCTION YEAR**

If the part category code of "OB" is entered then this field is required. If the production year is not known "UNKN" must be entered.

## **MISCELLANEOUS/REMARKS**

A description of the part category **MUST** be included (this is why the miscellaneous/remarks field is required for all stolen part records); model number, model year, color scheme of the outboard motor, etc. should be entered in this field. The brand name must be included when a generic code has been used in the brand field.

The miscellaneous/remarks field allows a maximum of 200 characters. This will allow agencies to include other related information and use fewer abbreviations.

## **IMAGES**

One identifying image can be associated with a vehicle/boat part.

## **Part Record Validation Steps:**

1. Contact complainant/owner to ensure item is still missing. If owner has been compensated by insurance company, ensure that the insurance company still has investigative interest in return of item. If neither is available, validate with investigating officer.
2. Ensure all information contained in entry is supported by documentation.
3. Run item including CIB/NCIC, etc. Determine if new information is available to be added to record, or if current information should be updated. Modify and supplement record as needed.
4. Confirm part category code is correct and a plain language explanation is present in the miscellaneous remarks field.
5. Confirm caution indicators and supplement if needed.
6. Consider associating images to entry.

# **BOAT FILE**

## **GENERAL GUIDELINES FOR VALIDATING BOAT RECORDS**

### **REGISTRATION NUMBER**

After an application for registration of a boat with a state or the United States Coast Guard has been approved, the applicant is issued a "Certificate of Number" (a Registration Certificate authorizing the boat's use primarily for pleasure) setting forth the identification number assigned to the boat. The applicant is required to display this number "boat registration number" on each side of the bow of the vessel. The registration number will be no more than ten characters; however, it may be less.

The US Code of Federal Regulations, Title 33, Section 174.23 sets out the requirements for boat registration numbers. Each registration number must consist of two capital letters denoting the state of the issuing authority. These two alphabetic characters should be followed by not more than four numerics and two alphabetic characters or not more than three numerics and three alphabetic characters. A number suffix may not include the letters "I", "O", or "Q", which may be mistaken for numerals. Not all of these state code prefixes match the CIB/NCIC state codes. Those that differ are California (CF), Colorado (CL), Delaware (DL), Hawaii (HA), Kansas (KA), Massachusetts (MS), Michigan (MC), Mississippi (MI), Wisconsin (WS) and Washington (WN).

### **HULL NUMBER**

The US Code of Federal Regulations, Title 33, Section 181, requires that hull identification numbers affixed to boats manufactured as of August 1973 must consist of 12 characters. A manufacturer may display additional characters after the required 12; however, they must be separated by a hyphen.

The complete hull number, including any alphabetic character(s), must be entered in this field. Any spaces, hyphens, or special characters which may appear as part of the hull number should be omitted from the boat hull number field. If the hull number exceeds 20 characters, the last 20 characters must be entered in the boat hull number field. The complete boat hull number must be entered in the miscellaneous field.

### **HULL NUMBER CONSTRUCTION**

The first three characters are identification assigned to the manufacturer: positions one and two must be alphabetic, position three must be alphabetic or the numerics 1 or 2.

The fourth through eighth characters are assigned by the manufacturer and may be either alphabetic or numeric except for the alphabetic characters I, O, and Q.

The ninth through the twelfth characters indicate the date of certification or date of manufacture. The characters must be either:

- All numerics with positions nine and ten indicating the month and positions eleven and twelve indicating the year; or
- The ninth character must be the alphabetic M, the tenth and eleventh characters must be numerics indicating the model year, and the twelfth character must be an alphabetic indicating the month of the model year, August is designated by the alphabetic A, September by B, October by C, etc.; or

- The ninth and tenth characters indicate month and year of the date of certification or date of manufacture. Character nine is an alpha character: the first month of the year, January, is “A” and the last month of the year December, is “L”. Character ten is the last digit of the year of certification or manufacture, such as “2” for 1992. Characters eleven and twelve are the model year, such as “94” for 1994.

## **BOAT YEAR**

The boat year must contain the model year during which the boat was manufactured. The boat year may be obtained from the boat hull number.

## **BOAT MAKE**

If this field contains the code MISC, refer to your TIME System Software tables/help messages or on-line TIME System Manual. If a valid code has been assigned to the manufacturer; modify the proper code into the make field. If a code has not been assigned “MISC” is the proper code to use, however the manufacturer name MUST be included in the miscellaneous field. If the manufacturer’s name is not known, the miscellaneous field should be used to describe the boat and any information which can lead to the determination of the manufacturer’s name.

**NOTE:** When a generic make code such as “MISC” is used in the entry, the expanded make code field must be completed.

## **BOAT LENGTH**

NCIC uses this field for off-line searches. Round the length off to the nearest foot; i.e., 18' 9" should be entered as 19. The actual length (i.e., 18' 9") must then be explained in the miscellaneous field.

## **BOAT COLOR**

This is a two part field. If the boat is a solid color, enter the color code into the first part of the field, the second part of the field remains blank. When describing a boat of two colors, the dominant color of the boat’s hull above the waterline should be entered first followed by the next most prevalent color. If the boat has more than two major colors, enter MUL/COL, and explain the color scheme in the miscellaneous field.

## **COAST GUARD DOCUMENT NUMBER**

Commercial vessels and certain motor yachts over five tons are “documented” as vessels of U.S. registration under navigation laws administered by the U.S. Coast Guard. An official identifying number is assigned to the vessel, and a valid marine document reflecting the assigned number is issued. This unique number (commonly referred to as a “document number”) is permanently marked on the main beam of the “documented” vessel in addition to appearing on the official marine document issued to the owner of the vessel. A document number should be entered in the registration number field when the document number is the only numeric identifier; otherwise, it should be entered into the coast guard document number field. The number will be no more than ten characters; however, it may be less. All characters of the number will be numeric.

## **MISCELLANEOUS**

A variety of information can be entered into this field, including the manufacturer's name if MISC was used as the boat make code. Serialized home-built boats should be identified by entering the words "HOME BUILT." The words "KIT BUILT" should be entered to identify boats constructed from a kit where the manufacturer's identity is not displayed on the boat. Further descriptive data such as trim colors, number of hulls, number of sails, etc. may also be entered in this field.

**NOTE:** The miscellaneous field allows a maximum of 200 characters. This will allow agencies to include other related information and use fewer abbreviations.

## **IMAGE**

One identifying or generic image can be associated with a boat record.

2. Ensure all information contained in entry is supported by documentation.
3. Run item including DNR/NCIC/NLETS, etc. Determine if new information is available to be added to record, or if current information should be updated. Modify and supplement record as needed.
4. Confirm caution indicators and supplement if needed.
5. Consider associating an image to entry.

# **GUN FILE**

## **GENERAL GUIDELINES FOR VALIDATING GUN RECORDS**

### **MAKE**

The gun make field must be filled with a minimum of two and a maximum of three characters. Codes assigned to each manufacturer are available in the TIME System Software tables/help messages or on-line TIME System Manual.

- **GUN MAKE NOT LISTED IN TABLES**

When the make of a serialized firearm is not listed in your software tables, the code ZZZ should be placed in the make field and the make of the firearm should be entered in the expanded make code field.

- **GUN MAKE UNKNOWN BUT COUNTRY OF MANUFACTURE KNOWN**

If the make of a firearm is unknown but the country of manufacture is known, the appropriate code for that country should be entered in the make field, and "UNKN" should be entered in the expanded make code field.

- **GUN MAKE AND COUNTRY OF MANUFACTURE BOTH UNKNOWN**

When neither the gun make nor country where manufactured is known, the gun can be entered when the gun has a distinct point(s) of identification or is connected with a major criminal investigation. The code ZZZ should be entered into the make field and "MAK UNKN" should be placed as the first item in the miscellaneous field; the distinct point(s) of identification or connection to major criminal investigation should be noted.

### **US MILITARY ISSUED WEAPONS**

The code US should be entered in the make field when all of the following conditions exist: 1) the make of the firearm is not known, 2) the country of manufacture is the United States, and 3) the firearm is not a U.S. Military-issue weapon as described in the following paragraph.

For a firearm (including surplus weapons) that is a U.S. Military-issue weapon, the make field code USA should be used. Common U.S. Military-issue weapons are listed below:

- .45 caliber and/or 9mm U.S. Submachine Guns:
  - M1, M1A1, M1928, M1928A1 (Thompson),
  - M50, M55 (Reising), M42 (United Defense),
  - M3, M3A1 (Grease Gun)
- .45 caliber U.S. Pistols, M1911 and M1911A1(Colt), Mk 23 (HK)
- .45 caliber U.S. Revolvers, M1917
- .30 caliber U.S. Carbines, M1, M2, M3

.30 caliber U.S. Rifles  
Models 1892, 94, 96, 98 (Krag)  
Models 1903 and 1903A3, etc. (Springfield)  
M1 (Garand)  
M1917 (Enfield)  
7.62mm U.S. Rifle, M14, M21, M40A1  
5.56mm U.S. Rifle, M4A1, M16, M16A1, M16A2, etc.  
.30 caliber U.S. Machine Guns (including the Browning Automatic Rifle, etc.)  
9mm U.S. Pistols, M9 (Beretta), P226 (Sig Sauer)

## **MODEL**

Check the miscellaneous field of the record to see if the model information has been entered there. If it is, modify that information into the model field. Otherwise, check the supporting documentation to obtain the gun model.

## **TYPE**

The type field is two characters long, and in most cases, data should be entered into both positions. The first position is for the weapon type code (Pistol = P). The second position represents the weapon action/description (Bolt Action = B). For pistols, shotguns and rifles, the second position is required; for all others, this position is optional but should be used. There is confusion over automatic action (A) vs. semiautomatic action (I). It is important officers obtain the correct description. If a complainant states "automatic", the officer should question whether the weapon really is automatic or semi-automatic and document whichever it is. Per FBI guidelines, a 3-round burst gun is considered an automatic.

**NOTE:** Taser weapons are included in this file. The proper type code for entry is "Z" and the caliber code is "9999".

## **MISCELLANEOUS**

A variety of data can be entered into this field: Manufacturer/Country name if "ZZZ" make code was used, barrel length, color/finish, cartridge capacity, any unique features/descriptions, etc.

**NOTE:** The miscellaneous field allows a maximum of 200 characters. This will allow agencies to include other related information and use fewer abbreviations.

**NOTE:** If a record was entered before 10/18/72, there may be problems canceling or modifying it. Contact TSCC with problems.

**NOTE:** BB guns and paintball guns should not be entered in the Gun file. These would be entered as articles.

# **GUN FILE RECORD(S)**

## **Gun Record Validation Steps:**

1. Contact complainant/owner to ensure item is still missing. If owner has been compensated by insurance company, ensure that the insurance company still has investigative interest in return of item. If neither is available, validate with investigating officer.
2. Ensure all information contained in entry is supported by documentation.
3. Confirm gun type entered is correct and supported by documentation.
4. For recovered guns, ensure weapon is still in agency possession.
5. Confirm caution indicators and supplement if needed.
6. Consider associating images to entry.

# **ARTICLE FILE**

## **GENERAL GUIDELINES FOR VALIDATING ARTICLE RECORDS**

### **TYPE**

Only article file records containing a type field code of “T” (toxic/hazardous materials, “Q” (public safety, homeland security, & critical infrastructure items of identification), or “Z” (lost or stolen equipment associated with public safety, homeland security, and critical infrastructure) must be validated during the monthly validation process.

1. The complete name of the article must be used if possible. If the article name is one word of more than six letters, the first six letters in the article name must be used.
2. An article name which is two words must be treated as one word.
3. If an article name is three words, the initials of the first two words and the first four letters of the last word must be used.
4. The entry will be rejected if the type code begins with an alphabetic character other than Y and is not a code listed in the tables.

### **BRAND**

If there is no code assigned to the brand or the brand is unknown enter “NO BRA” and list the brand name (if known) in the miscellaneous field.

### **MODEL**

If the entry is for a toxic, hazardous chemical, the model field should convey the chemical’s physical properties by words such as “LIQUID”, “GAS”, “POWDER”, “CRYSTAL”, “SOLID”. etc. If the model name or number contains more than nine characters, only the last nine characters must be used, with the complete model number shown in the miscellaneous field. For example, model number 12345678987 would be entered in the model field as 345678987. The complete model number (12345678987) should be entered in the miscellaneous field.

Model names consisting of alphabetic characters only should be entered omitting spaces and periods.

### **SERIAL NUMBER**

Single zero only, run of zeros only, or single alphabetic character only cannot be used. The serial number cannot be identical to owner-applied number. Sequential entries must have a single hyphen separating the serial numbers.

### **LOT NUMBER**

This is a free text field used to help identify a stolen chemical.

### **HAZARDOUS MATERIAL CONTAINER**

This is a free text field used to help identify the type of container the chemical is stored in.

### **PARTIAL LOT INDICATOR**

This field is used to indicate whether the stolen chemical represents a partial or complete shipment.

### **UNITED NATIONS NUMBER**

This code is used as a reference number to request additional information on a specific chemical via Nlets. If this field is entered by the user, the initial warning in a hit response on a stolen chemical would be followed by message:

ADDITIONAL INFORMATION AVAILABLE FROM NLETS HAZMAT

### **MISCELLANEOUS**

This field should be used in the following instances:

1. To further describe the stolen article.
2. To describe the location of the serial number and/or owner-applied number on an item of property.
3. To provide a complete description of the stolen article when the code NO BRA is used in the brand field.
4. If the serial number exceeds 20 characters in which case the rightmost 20 characters should be entered in the serial number field, and the complete serial number should be entered in the miscellaneous field.
5. The complete model number if it contains more than nine characters and the last nine have been entered in the model field.

The miscellaneous field allows a maximum of 200 characters. This will allow agencies to include other related information and use fewer abbreviations.

### **IMAGE**

One identifying image can be associated with an article.

2. Ensure all information contained in entry is supported by documentation.
3. Confirm caution indicators and supplement if needed.
4. Ensure location of serial number is specified in miscellaneous remarks.
5. Consider associating images to entry.

# **SECURITY FILE**

## **GENERAL GUIDELINES FOR VALIDATING SECURITY RECORDS**

### **ISSUER**

Name of the company, agency, or organization printed on the security is to be placed in the issuer field even if the security was stolen or embezzled before it was appropriately prepared or issued by an authorized person. U.S. currency/notes should be entered as "USTREASURY." Canadian notes/currency must be entered as "CANADA."

### **OWNER**

The full name of the owner appearing on the face of the security is to be included if space in this field permits. Names must be entered in this order: mandatory surname; mandatory comma; space (optional); mandatory first name or initial(s); if any; mandatory space after each middle name or initial except last one; and suffix denoting seniority (Jr., III, etc.) if any. Incorrect placement or omission of the comma will result in a negative response to inquiries on the name. If two names are listed, use only the first. If currency is being entered, the owner would be "BEARER".

**Institutional Owner:** If the owner is not a person but a company, bank, brokerage house, etc., the full name must be entered in the same order as it appears on the document.

**Traveler's Check:** The name of the person or company holding a traveler's check at the time of theft or embezzlement should be entered in this field even though this information is not indicated on the face of the document.

**Money Order:** The person in possession of a money order at the time of theft or embezzlement should be identified as the owner even though his/her name does not appear on the document.

### **SOCIAL SECURITY NUMBER**

The social security number found on the face of the security. When co-owners are listed on the security, the social security number of the first person listed is preferred if available.

### **SECURITY DATE FIELD**

The series year (four numeric characters and any alphabetic character suffix) must be included in this field. The series year is found on the face of U.S. currency following the word SERIES. For example, SERIES 1993 would be entered as 1993.

For Bank of Canada (currency), the year which follows the word OTTAWA (centered immediately under the black bar on which is written BANK OF CANADA-BANQUE DU CANADA) is to be entered. This date will be referred to as the series year.

The alphabetic character M or P is not to be prefixed to the series year of U.S. currency or Canadian notes. They are used only when entering the maturity or issue date.

Securities such as bonds, debentures, notes, and other certificates acknowledging debt usually set out a specific date (maturity date) when they become payable to the owner. Maturity date is to be entered in the security date field when it appears on the security.

Certain securities such as stock certificates represent shares of ownership in a corporation and as such have no maturity date. Others, such as traveler's checks, are documents that can be cashed if appropriately signed or endorsed. For such securities, the date prepared or issued should be entered as issued date.

When maturity date appears, the date entered in the security date field should be preceded by the alphabetic character M; e.g., M011299 for the maturity date January 12, 1999. When issue date appears, the date entered should be preceded by the alphabetic character P; e.g., P051395 for the issue date May 13, 1995.

The issue date of each U.S. Savings Bond appears in the upper right-hand corner on the face side. The issue day is always the first day of the month in which the bond was issued.

If a money order was stolen **before** it was issued and no security date appears thereon, the word BLANK is to be entered into the security date.

### **MISCELLANEOUS**

Detail any special attributes about the security. If the security is counterfeit, enter "COUNTERFEIT" as the first word in this field.

If the face plate number and the back plate number for counterfeit U.S. currency and Bank of Canada notes appear on the currency, they should be entered in this field.

Bait money (prerecorded currency) is Federal Reserve Notes that have been marked to identify stolen money as evidence against a robber. BAIT MONEY should be entered as the first item in the miscellaneous field if Federal Reserve Notes stolen were recorded as bait money.

The interest noted on the security is to be listed: 10.5% interest should appear as 10 1-2 int. Interest information should be noted first in this field, unless the security is counterfeit.

**NOTE:** The miscellaneous field allows a maximum of 200 characters. This will allow agencies to include other related information and use fewer abbreviations.

## **Security Record Validation Steps:**

1. Contact complainant/owner to ensure item is still missing. If owner has been compensated by insurance company, ensure that the insurance company still has investigative interest in return of item. If neither is available, validate with investigating officer.
2. Ensure all information contained in entry is supported by documentation.
3. Confirm caution indicators and supplement if needed.

# **ACQUIRING MAXIMUM DATA**

Always attempt to obtain as much information as possible to enter into the record. In many cases, the information is available simply by reading the officer's case report. If not, there are numerous databases that can be accessed to obtain required and optional information to enter. Remember that "packing a record" with all available data increases the chances of apprehending the wanted person, finding and identifying the missing person and recovering stolen property.

## **PERSON RECORDS**

1. Department of Transportation files - Wisconsin & other states
  - Driver's license number
  - Physical descriptors
  - Address
  - Former name(s)
  - Other possible states to query
2. Criminal History files – FBI, State and Local levels
  - Address
  - Physical descriptors
  - Scars, marks, tattoos, other Conditions
  - Alias names and dates of birth
  - Social Security Number(s)
  - Driver's license number(s)
  - Fingerprint classification
  - Whether caution should be used
  - FBI number/state identification number
  - Miscellaneous numbers
  - Photos
3. Wisconsin Department of Natural Resources
  - Address
  - Phone number
  - Physical descriptors
4. Other Police/Criminal Justice Agencies (i.e. Probation & Parole, Department of Corrections Locator, Sex Offender Registration, etc.) Source documentation must be provided for any information obtained from another police agency such as:
  - Current place of employment
  - Acquaintances that subject may be with
  - Scars, marks, tattoos, other conditions
  - Alias names and dates of birth
  - Whether caution should be used
5. Dentists/Doctors
  - Dental information surgeries, scars, etc.
  - Mental and/or physical illness or disabilities

6. Clerk of Courts Office/Consolidated Court Automation Program (CCAP)
  - Address
  - Alias names and dates of birth
7. INTERPOL-U.S. National Central Bureau
  - Whether caution should be used
8. Complainant
  - Identifying photo(s)
9. Internet Resources, i.e. social websites, etc.,
  - Identifying photo(s)
  - Scars, marks, tattoos, other conditions
10. Print Resources, i.e. yearbooks, phone directories, etc.
  - Identifying photo(s)
  - Scars, marks, tattoos, other conditions

### **VEHICLE and BOAT RECORDS**

1. Department of Transportation files - Wisconsin & other states
  - License plate number
  - License plate year of expiration
  - License plate type
  - Vehicle identification number
  - Vehicle year, make, model and style
  - Address
  - Whether the vehicle has been re-registered since stolen
2. Department of Natural Resources files - Wisconsin & other states
  - Snowmobile & ATV registration
  - Vehicle year, make, model and style
  - Vehicle identification number
  - Boat registration
  - Boat hull number
  - Boat year, make, model and type
  - Address
  - Whether registration activity has occurred since stolen
3. National Insurance Crime Bureau
  - Verification of vehicle identification number
  - Vehicle year, make, model, style
4. NCIC
  - Generic photo
5. Complainant
  - Identifying photo

# **IMAGES**

The TIME System supports entry and response of NCIC images for persons, articles, parts, boats, guns and vehicles. Agencies can enter an image they have on file for the person or property or NCIC provides generic images for boats and vehicles. To enter an NCIC image the record must already exist.

## **IMAGE FIELDS**

### **REQUIRED**

Image Type  
NCIC Number  
Image

### **OPTIONAL**

Date of Image  
Miscellaneous

## **GENERAL GUIDELINES FOR IMAGE ENTRIES**

### **IMAGE TYPE**

An Image Type of "M" for a mug shot, "I" for identifying image or "S" for signature is selected. "M" should normally be used for the person files and "I" for the property files. The NIC number is required to identify the NCIC record the image will be appended to. Click on the "Browse" button to navigate to the desired image file. Date of Image and Miscellaneous are optional.

### **IMAGE SPECIFICATIONS**

Images must be a JPEG and no more than 16K, cropped to 256-x256 pixels and 8 bits per pixel gray scale, with a quality factor of 25.

### **GENERIC IMAGES**

To locate an appropriate generic image, query the generic image library by specifying year, make, model and style of the vehicle you are interested in. Once a generic image is located, note the NCIC number associated with it. Modify your vehicle/boat entry using the appropriate modify image transaction and include the NCIC number of the generic reference image.

## **IMAGE ENTRY RESPONSE**

```
/0015 1742 41A49397          WI0130000
NCIC  186451      22 MM/DD/YY 10:11 01 OF 01
1L01174200186451
WI0130000
IMAGE IS ACCEPTED
NIC/W446555367 IMN/I177744777 IMT/I
```

## IMAGE QUERIES

Users querying persons/property on the system may include an indication in their query if they wish to receive images. If requested by the user, images associated with NCIC records will be returned and may be viewed on the screen and/or printer.

Special queries also exist that allow users to request a specific image or the entire set of images that has been associated with a record.

# **DENTAL CHARACTERISTICS**

Dental characteristics should be entered from information provided by the dentist. The code "ALL" should be entered in the first Dental Characteristics (DCH) Field if all 32 permanent teeth are present with no restorations. If dental characteristics are not available, use the code "UNK". If "ALL" or "UNK" is not used, you must enter a valid code for all 32 teeth.

The following rules apply when entering dental characteristics for each tooth:

- The DCH Field shall contain a maximum of 32 codes consisting of two numerics followed by option 1, 2, or 3:
  1. One special character /, or one special character / followed by R.
  2. One alphabetic character M, O, D, F, L, X, or V.
  3. Two to seven alphabetic characters M, O, D, F, L, C, and R.
- Any combination of M, O, D, F, or L should be entered in the sequence of M, O, D, F, L.
- The R character should follow any combination of M, O, D, F, L, C or the / character.
- The C character should follow any combination of M, O, D, F, or L.
- The only character that should be used with / is the R character.
- The characters V and X should not be used with any combination of characters.
- The characters M, O, D, F, L, C, R, /, V, and X may only be used once per numeric.

# MISSING PERSON CERTIFICATION

IN ORDER TO REASSURE THAT THE RIGHT OF PRIVACY OF INDIVIDUALS WILL NOT BE VIOLATED:

The National Crime Information Center (NCIC) requires that the law enforcement agency have in its possession written documentation certifying that one of the four following conditions exist PRIOR to entering a missing person into NCIC records:

- (1) The person I am reporting as missing is under proven physical/mental disability or is senile, thereby subjecting himself/herself or others to personal and immediate danger.
- (2) The person I am reporting as missing is missing under circumstances indicating that the disappearance was not voluntary.
- (3) The person I am reporting as missing is in the company of another person under circumstances indicating that his or her physical safety is in danger.
- (4) The person I am reporting as missing is under the age of 18 and whose custody and control is vested in me. Further, that said missing person does not meet any of the criteria set forth in numbers 1, 2, and 3 above.

I HEREBY DECLARE THAT:

\_\_\_\_\_  
First Name                      Middle Name                      Last Name

OF

\_\_\_\_\_  
Address                      City                      State  
\_\_\_\_\_  
Date of Birth                      Age

IS MISSING PURSUANT TO NUMBER \_\_\_\_\_ ABOVE AND I REQUEST THAT SAID INDIVIDUAL BE ENTERED INTO THE NCIC RECORD AS A MISSING PERSON.

\_\_\_\_\_

## Identity Theft File Consent Document

By signing this document, I hereby provide the \_\_\_\_\_ Police/Sheriff's Department permission to enter my personal data into the Federal Bureau of Investigation's Identity Theft File. This information may include, but is not limited to, physical descriptors and identifying information including my name, date of birth, place of birth, social security number, the type of identity theft, and a password provided to me for future identification purposes. I am also providing permission to enter my photograph and fingerprints into this file when that capability becomes available.

I understand that this information is being submitted as part of a criminal investigation in which I was a victim and will be available to entities having access to the Federal Bureau of Investigations National Crime Information Center (NCIC) files for any authorized purpose. I am providing this data voluntarily as a means to memorialize my claim of identity theft and to obtain a unique password to be used for future identity verification purposes.

I understand that the FBI intends to remove this information from the NCIC active file no later than 5 years from date of entry. I understand that I may at any time submit a written request to the entering agency to have this information removed from the active file at an earlier date. I further understand that information removed from the active file will not thereafter be accessible via NCIC terminals, but it will be retained by the FBI as a record of the NCIC entry until such time as its deletion may be authorized by the National Archives and Records Administration (NARA).

I understand that this is a legally binding document reflecting my intent to have personal data entered into the FBI's Identity Theft File. I declare under penalty of perjury that the forgoing is true and correct (See 28 U.S.C. 1746).

The Privacy Act of 1974 (5 United States Code 552a) requires that Federal, state, or local agencies inform individuals whose social security number is being requested whether such disclosure is mandatory or voluntary, the basis of authority of such solicitation, and the uses which will be made of it. Accordingly, disclosure of your social security number is voluntary; it is being requested pursuant to 28 U.S.C. 534 for the purposes described above. The social security number will be used as an identification tool; consequently, failure to provide the number may result in a reduced ability to make such identifications or provide future identity verifications.

COMMENTS: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

## **GROUP REFERENCE CAPABILITY (GRC) – CRITERIA FOR ENTRY**

### **1. GRC – GANG DEFINITION**

For purposes of entry in the GRC, a **gang** must meet the following criteria:

1. The group must be an ongoing organization, association, or group of three or more persons.
2. The group must have a common interest and/or activity characterized by the commission of or involvement in a pattern of criminal or delinquent conduct.

**CRIMINAL or DELINQUENT CONDUCT** includes narcotics distribution, firearms or explosives violations, murder, extortion, obstruction of justice (including witness intimidation and/or tampering), and any other violent offenses such as assault, threats, burglary, and/or carjacking.

**Delinquent Conduct** includes conduct of a juvenile that would be a crime if committed by an adult.

**Criminal Conduct** includes acts committed during incarceration that are often labeled disruptive and that could be punished as crimes.

**Note:** Tagger groups, for example, whose only interest and/or activity is spray painting do not meet the Gang entry criteria; therefore, this type of information should not be submitted.

## SAMPLE AGENCY AGREEMENT

**An agreement between the "Access Agency" and the "Indirect Access Agency", an authorized criminal justice / law enforcement agency receiving TIME System access and/or information via the "Access Agency".**

Access Agency: \_\_\_\_\_ ORI: \_\_\_\_\_

Indirect Access Agency: \_\_\_\_\_ ORI: \_\_\_\_\_

The Wisconsin Department of Justice, Crime Information Bureau (CIB) operates the Transaction Information for the Management of Enforcement (TIME) System. The "Access Agency" has direct access to the TIME System and has signed an agreement with CIB. The "Access Agency" agrees to perform TIME System transactions on behalf of the "Indirect Access Agency" and/or provide TIME System information to the "Indirect Access Agency" in accordance with this agreement and TIME System policies.

\*\*\*\*\*

- 1) It is agreed that any information received from the Wisconsin TIME System shall be for authorized criminal justice / law enforcement purposes and is not to be disseminated to unauthorized agencies or individuals. Any secondary dissemination of this information must meet state and federal statutes and/or regulations.  
  
A member of the public cannot request information directly from the TIME System. If a member of the public wishes to obtain information from one of the files available via the TIME System, the requester must contact the agency that owns the file (i.e. Department of Transportation for driver's license information, CIB for Wisconsin adult criminal history, etc.). Public records rules apply to requests for existing TIME System responses that were obtained in pursuance to the criminal justice / law enforcement agency's official duties and functions and are contained within agency case files. The TIME System interfaces with data files maintained by various data sources. The ability to redisclose information obtained from the TIME System, in response to a public records request for existing records, depends on: 1) any restrictions imposed by the data source or applicable law, and 2) your usual public records analysis. An agency may need to redact non-disclosable confidential data prior to release.
- 2) Information received from the TIME/NCIC Systems and exchanged between the agencies party to this agreement will be exchanged following the security controls and conditions specified in the CJIS Security Policy.
- 3) Under this agreement TIME System information may be released to other authorized criminal justice / law enforcement agencies; i.e. county District Attorney, prosecuting attorneys, courts, other law enforcement agencies. Wisconsin driver's license photos obtained via the TIME System may only be released to other authorized criminal justice / law enforcement agencies if the releasing and receiving agencies meet all the conditions imposed by state statute. Dissemination of system information via an inadequately protected communications media such as Internet email is prohibited. The "Indirect Access Agency" will accept any and all responsibility for keeping accurate information in their logs according to NCIC, CIB and data service policies / procedures and applicable statutory provisions for secondary dissemination of information.
- 4) The "Indirect Access Agency" agrees to participate in security awareness training. All personnel who have access to criminal justice information must complete security awareness training within six months of employment or assignment. Security awareness training must be completed every year. Personnel that maintain TIME System certification receive security awareness training during that training.
- 5) All records entered in the TIME System by the "Access Agency" Department on behalf of the "Indirect Access

Appendix D: Sample Forms (Advanced & Validation)

Agency" will contain the ORI of the "Indirect Access Agency". It is agreed that the "Indirect Access Agency" will continue timely follow up investigation regarding any and all cases in which wanted or missing persons and property have been entered. It is the responsibility of the "Indirect Access Agency" to maintain hard copy documentation of these entries according to CIB and NCIC policies and procedures. Any additional information received by the "Indirect Access Agency" will immediately be passed on to the "Access Agency" to update information entered. This information includes modifications, supplements and cancellations. Entry, modify, supplement and cancellation verifications will be supplied to the "Indirect Access Agency" by the "Access Agency". The "Indirect Access Agency" will be responsible for monthly validation of all records entered with the "Indirect Access Agency" ORI.

**OR (choose applicable paragraph)**

All records entered in the TIME System by the "Access Agency" Department on behalf of the "Indirect Access Agency" will contain the ORI of the "Access Agency". It is agreed that the "Indirect Access Agency" will continue timely follow up investigation regarding any and all cases in which wanted or missing persons and property have been entered. It is the responsibility of the "Access Agency" to maintain hard copy documentation of these entries according to CIB and NCIC policies and procedures. Any additional information received by the "Indirect Access Agency" will immediately be passed on to the "Access Agency" to update documentation and information entered. This information includes modifications, supplements and cancellations. The "Access Agency" will be responsible for monthly validation of all records entered with the "Access Agency" ORI.

- 6) If the "Indirect Access Agency" is not a 24 hour operation, it shall provide a phone number(s) and have a contact person(s) available during off-duty hours to immediately check records and reply if another agency receives a NCIC/CIB hit and requests confirmation of wanted/stolen/missing status. (NCIC/CIB policy requires a ten (10) minute hit response for urgent requests.)
- 7) The "Indirect Access Agency" shall maintain accurate logs and proper hard copy documentation to have available for CIB and NCIC audits.
- 8) The "Indirect Access Agency" shall ensure all personnel with access to criminal justice information have undergone the required background check, including submission of fingerprints to the FBI/CIB, and have completed the required security awareness training.
- 9) Each agency reserves the right to terminate this agreement with or without notice upon determining that the other agency has violated any law, rule or regulation concerning criminal justice information or violated the terms of this agreement.
- 10) Termination of this agreement shall not negate the obligation of either party to maintain records previously entered under this agreement to insure their accuracy, completeness and timeliness.
- 11) The "Indirect Access Agency" agrees to the above listed items as a condition to continue access to the TIME System and information through the "Access Agency".

## SECTION 2 -- SYSTEM CHANGES

**DIAGRAM FOR BODY PARTS STATUS FIELD****Instructions:**

The purpose of the body parts status is to link two or more agencies that recover parts of one body. Therefore, body parts which were amputated and healed prior to death (antemortem) should be coded as recovered in the Body Parts Status Field. Body parts which were amputated antemortem should be coded in the Scars, Marks, Tattoos, and Other Physical Characteristics Field using the missing body parts codes.

**2.6.4 ESTIMATED DATE OF DEATH (EDD)**

The most recent estimate of date of death provided by the medical examiner/coroner should be entered. For example, if the coroner estimates that death occurred between May and September 1995, then 19950900 should be entered in the EDD Field.
