General Entry Information

Entry of records into CIB and NCIC files poses some unique liability issues to entering agencies. All operators dealing with file entries, modifies, supplements and cancellations must be aware of what is required before, during and after record entry.

The NCIC and TIME Systems are computerized indices of documented criminal justice information. The systems are used as locator systems to assist agencies in apprehending and recovering wanted persons, missing persons, unidentified persons, and stolen property. The systems store vast amounts of criminal justice information that can be instantly retrieved by and/or furnished to any authorized agency.

For the TIME System to work effectively, all entries or records must utilize as much information as possible. Adding more information to a record increases the chances of locating stolen property, finding missing persons, or arresting fugitives.

HOT FILES

All records are entered directly into the CIB and NCIC's "hot files" by the originating agency (ORI, agency holding the warrant, missing person report, theft report, or gang information, etc.). The accuracy, completeness, and maintenance of records in the TIME System are the responsibility of the law enforcement or criminal justice agency indicated as the ORI. As each agency can enter, update, and cancel their records in the TIME System, the files are constantly changing (thus the name "hot files").

Entries may be made at the statewide level (CIB), nationwide level (NCIC) or both. Not every entry type allows this choice; some entries are automatically submitted to both files while others are maintained only in the NCIC database. When an entry is made, the information is translated by the TIME System and then is forwarded to NCIC, if appropriate. NCIC may also perform edits of the data entered. When entries are accepted by a database, a unique identification number is created. These unique numbers are called a System Identification Number, or SCN (TIME System), or an NCIC/NIC number. An entry may be rejected if it does not contain the minimum required data; or contains invalid, or improper data. When an NCIC record is rejected, the corresponding CIB record is rejected as well.

TIMELINESS

Current and complete records help to ensure officer and public safety, increase the likelihood of apprehending a fugitive or locating a missing person or stolen property. NCIC and CIB have adopted a timely entry policy to ensure records in the CIB and NCIC databases remain current. It states:

"To ensure maximum system effectiveness, NCIC/TIME System records must be entered immediately when the conditions for entry are met, not to exceed 3 days upon receipt by the entering agency".

When agencies receive information for entry into the TIME System, the date and time of receipt should be documented by the agency. In cases where the warrant or report date of receipt for entry is undocumented, timeliness of entry will be a joint evaluation by the audit staff and local agency personnel. CIB/NCIC recommends a date and time stamp be affixed to the case report or warrant documentation. However, an electronic or paper log is also sufficient.

Operator Guidelines

Below is a list of CIB/NCIC policies aimed at reducing record errors. Operators should become familiar with the list. Following it closely will reduce your agency's liability.

- 1) Proper documentation must be placed in a hardcopy or electronic case file prior to entry into the computer system. This documentation would include: a warrant or apprehension request, detainer, protection order/injunction, information on a gang organization and its members, missing person report signed by an authoritative source other than the investigating police agency (in the absence of documentation from a parent, legal guardian, next of kin, physician, or other authoritative source, including friend or neighbor in unusual circumstances, or when such documentation is not reasonably attainable, a signed report by the investigating officer will suffice), stolen property complaint or identity theft report. All information entered into a record MUST have supporting documentation (e.g., physical descriptors, vehicle color, weapon type and action, etc.) and this documentation must be retained in the related hardcopy or electronic case file.
- 2) TIME System worksheets available from CIB are not considered documentation, unless the agency has a written policy that requires them to be used as part of the original case report. Rather, the worksheets are a tool that can be used by an agency to gather maximum data needed for the entry in one place, to assist in entry, modification, supplementation, and cancellation of records.
- 3) All entries, modifications, supplements, and cancellations must be double-checked by a second party to assure accuracy.
- 4) Additional sources (e.g., criminal history record files, Department of Transportation files, Department of Natural Resources files, the complainant, etc.) should be checked prior to entry to ensure that all records are as complete as possible. All additional information entered into the record must be documented in the hardcopy or electronic case file (i.e., vehicle identification number, serial number, alias name, etc.)
- 5) All records are to be removed as soon as the agency learns the person has been apprehended, found, or is no longer wanted or the property has been recovered.
Note: A detainer can be appended to an existing warrant/wanted person record after the person is arrested, hit confirmation has occurred and the person will not be released to the agency holding the warrant.
- 6) The appropriate NCIC agency identifier is to be used when entering records for non-terminal agencies.
- 7) Hit confirmation must be available 24 hours a day / seven days a week. Agencies and terminals that receive hit confirmation and are not staffed 24 hours a day must either have the terminals rerouted or include an after-hours telephone number or NCIC agency identifier in the remarks or miscellaneous fields of record entries.
- 8) The most current record printout showing substantial change to the record should be retained in the case file.

Warrant/Wanted Person File

STATE STATUTE REQUIREMENTS

A primary reason agencies enter records into the TIME System is to provide information to other criminal justice agencies. This information enables other criminal justice agencies to assist in apprehending a wanted person, recover stolen property or locate a missing person. Wisconsin law enforcement agencies also use the TIME System to fulfill their duties under state law. State statutes 165.84(3) and 165.84(6) require law enforcement agencies to forward specific information to the Wisconsin Department of Justice:

§ 165.84(3)

All persons in charge of law enforcement and tribal law enforcement agencies shall forward to the department copies or detailed descriptions of the arrest warrants and the identifying data described in 165.83(2)(e) immediately upon determination of the fact that the warrant cannot be served for the reasons stated. If the warrant is subsequently served or withdrawn, the law enforcement or tribal law enforcement agency concerned must immediately notify the department of the service or withdrawal. In any case, the law enforcement agency or tribal law enforcement agency concerned must annually, no later than January 31 of each year, confirm to the department all arrest warrants of this type which continue to be outstanding.

§ 165.84(6)

All persons in charge of law enforcement and tribal law enforcement agencies in this state shall furnish the department with any other identifying data required in accordance with guidelines established by the department. All law enforcement and tribal law enforcement agencies and penal and correctional institutions in this state having criminal identification files shall cooperate in providing to the department copies of such items in these files as will aid in establishing the nucleus of the state criminal identification file.

State Statute 165.83(2) specifies what type of information the Department of Justice must collect:

§165.83(2)

The department shall:

- (a) Obtain and file fingerprints, descriptions, photographs, and any other available identifying data on persons who have been arrested or taken into custody in this state:
 - 1. For an offense which is a felony, or which would be a felony if committed by an adult.
 - 2. For an offense which is a misdemeanor, which would be a misdemeanor if committed by an adult or which is a violation of an ordinance, and the offense involves burglary tools, commercial gambling, dealing in gambling devices, contributing to the delinquency of a child, dealing in stolen property, controlled substances or controlled substance analogs under ch. 961, firearms, dangerous weapons, explosives, pandering, prostitution, sex offenses where children are victims, or worthless checks.

3. For an offense charged or alleged as disorderly conduct but which relates to an act connected with one or more of the offenses under subd. 2.
 4. A fugitive from justice.
 5. For any other offenses designated by the Attorney General (e.g., stalking and harassment).
- (d) Obtain the file information relating to identifiable stolen or lost property.
- (e) Obtain and file a copy or detailed description of each arrest warrant issued in this state for the offenses under par. (a), §346.63 (1) or (5) but not served because the whereabouts of the person named on the warrant is unknown or because that person has left the state. All available identifying data shall be obtained with the copy of the warrant, including any information indicating that the person named on the warrant may be armed, dangerous or possessed of suicidal tendencies.

COMMENCEMENT OF CRIMINAL PROCEEDINGS

§ 968.04(3) (a) Mandatory provisions

The warrant shall:

1. Be in writing and signed by the judge.
2. State the name of the crime and section charged and number of the section alleged to have been violated.
3. Have attached to it a copy of the complaint.
4. State the name of the person to be arrested, if known, or if not known, designate the person to be arrested by any description by which the person to be arrested can be identified with reasonable certainty.
5. State the date when it was issued and the name of the judge who issued it together with the title of the judge's office.
6. Command that the person against whom the complaint was made be arrested and brought before the judge issuing the warrant, or, if the judge is absent or unable to act, before some other judge in the same county.
7. The warrant shall be in substantially the following form: (see statute for format, p.15-17 for examples)

§ 990.01(38) Signature:

If the signature of any person is required by law it shall always be the handwriting of such person or, if the person is unable to write, the person's mark or the person's name written by some other person at the person's request and in the person's presence, or, subject to any applicable requirements under ch.137, the electronic signature of the person.

§ 801.17(13) Signatures of Court Officials

If the signature of a court official is required on a document, an electronic signature may be used. The electronic signature shall be treated as the court official's personal original signature for all purposes under Wisconsin statutes and court rules. Where a non-electronic signature would be located on a particular order, form, letter or other document, the official's printed name shall be inserted.

Supreme Court Rule §70.42 (1) (a) Electronic signatures

"Court official" means a circuit court judge, clerk of circuit court, register in probate, juvenile clerk, court commissioner appointed under section 757.68 and SCR 75.02 (1), justice of the supreme court, judge of the court of appeals, and the clerk of the supreme and appellate courts.

Supreme Court Rule §70.42 (1) (b) Electronic signatures

"Electronic signature" means an electronic sound, symbol, or process attached to or logically associated with a document and executed or adopted by a person with the intent to sign the document.

MUNICIPAL COURT PROCEDURE

§800.02(5)

Warrant form:

The warrant shall be in the name of the state of Wisconsin, shall be directed to all law enforcement officers in the state, may be addressed to any law enforcement officer in the state, may specify geographical limits for enforcement of the warrant, and shall be signed by the municipal judge who authorizes its issuance or contain a computer-generated facsimile of the judge's signature. A municipal judge may authorize the issuance of a warrant under this chapter by using a computer or other electronic media. The municipal judge shall make the authorization so that it is accessible to the attorney for the municipality and law enforcement officers. A law enforcement officer shall convert the municipal judge's authorization to a paper copy of the warrant before serving the warrant. The warrant shall contain or have attached to it the following information:

- a) The name of the defendant.
- b) The offense alleged.
- c) A copy of the citation or complaint.
- d) A finding of probable cause that the defendant committed the offense.
- e) A command to arrest the defendant and bring him or her before the municipal judge or other municipal judge or judge of the county.
- f) The date of issuance.

WARRANT CATEGORIES

1. Felony Warrant

Violation of State Law that calls for a penalty of imprisonment in the State Prison (ss 939.60). The warrant can be entered into CIB/NCIC.**** The sentence for imprisonment will be a year or longer.

2. Temporary Felony Want

Knowledge by police that a felony was committed and who the person was that committed the felony, but no warrant has been issued yet. The want can be entered into CIB only or CIB and NCIC.

The entering agency must actively pursue obtaining a warrant within 48 hours.

3. Non-Felony State Law Violation

This is a violation of State Statute that is punishable by fine and/or time in county jail. The warrant can be entered into CIB/NCIC.**** The sentence for jail will be up to but no longer than a year.

4. Temporary Misdemeanor Want

Knowledge by police that a misdemeanor was committed and who the person was that committed the misdemeanor, but no warrant has been issued yet. The want can be entered into CIB only.

The entering agency must actively pursue obtaining a warrant within 72 hours.

5. Civil Process - Non-Criminal State Law Violation

This is a violation of State Law or Statute, but the penalty calls for a forfeiture instead of a fine or imprisonment. A restriction as to how far the police agency will travel to serve the warrant is acceptable for a civil process violation. The warrant can be entered into CIB only. Complaints signed by corporation counsel, a child support officer, court commissioner, etc. are included in this category.

6. Civil Process - Local Ordinance

This is a violation of ordinance. An ordinance is defined as a regulation adopted by the governing body of a city, town or county. Because an ordinance violation is a civil violation and not a crime, restrictions on service can be applied against an ordinance violation warrant.

A restriction as to how far the police agency will travel to serve the warrant is acceptable for an ordinance violation. The warrant can be entered into CIB only.

Warrants signed by municipal judges are included in this category. Warrants in this category will include key words such as “municipal” and/or “ordinance.”

7. Juvenile Warrant

This is for a person under 17 years of age who has been declared delinquent by a juvenile court. The warrant can be entered into CIB only or CIB and NCIC.

SPECIAL CONSIDERATIONS:

*******NCIC only accepts one warrant per person per agency (ORI). If entering multiple warrants, any warrant after the first will be rejected by NCIC and entered into CIB Only.***

Child support warrants may be Felony, Non-Felony State Law (statute 948.22) or State Law Civil Process. (Statutes ranging from 769.101, 785.03 or 818.02)

Use caution when basing the warrant category on the case number issued, as case numbers do not change even if cases are pled down or up from the originally charged offense.

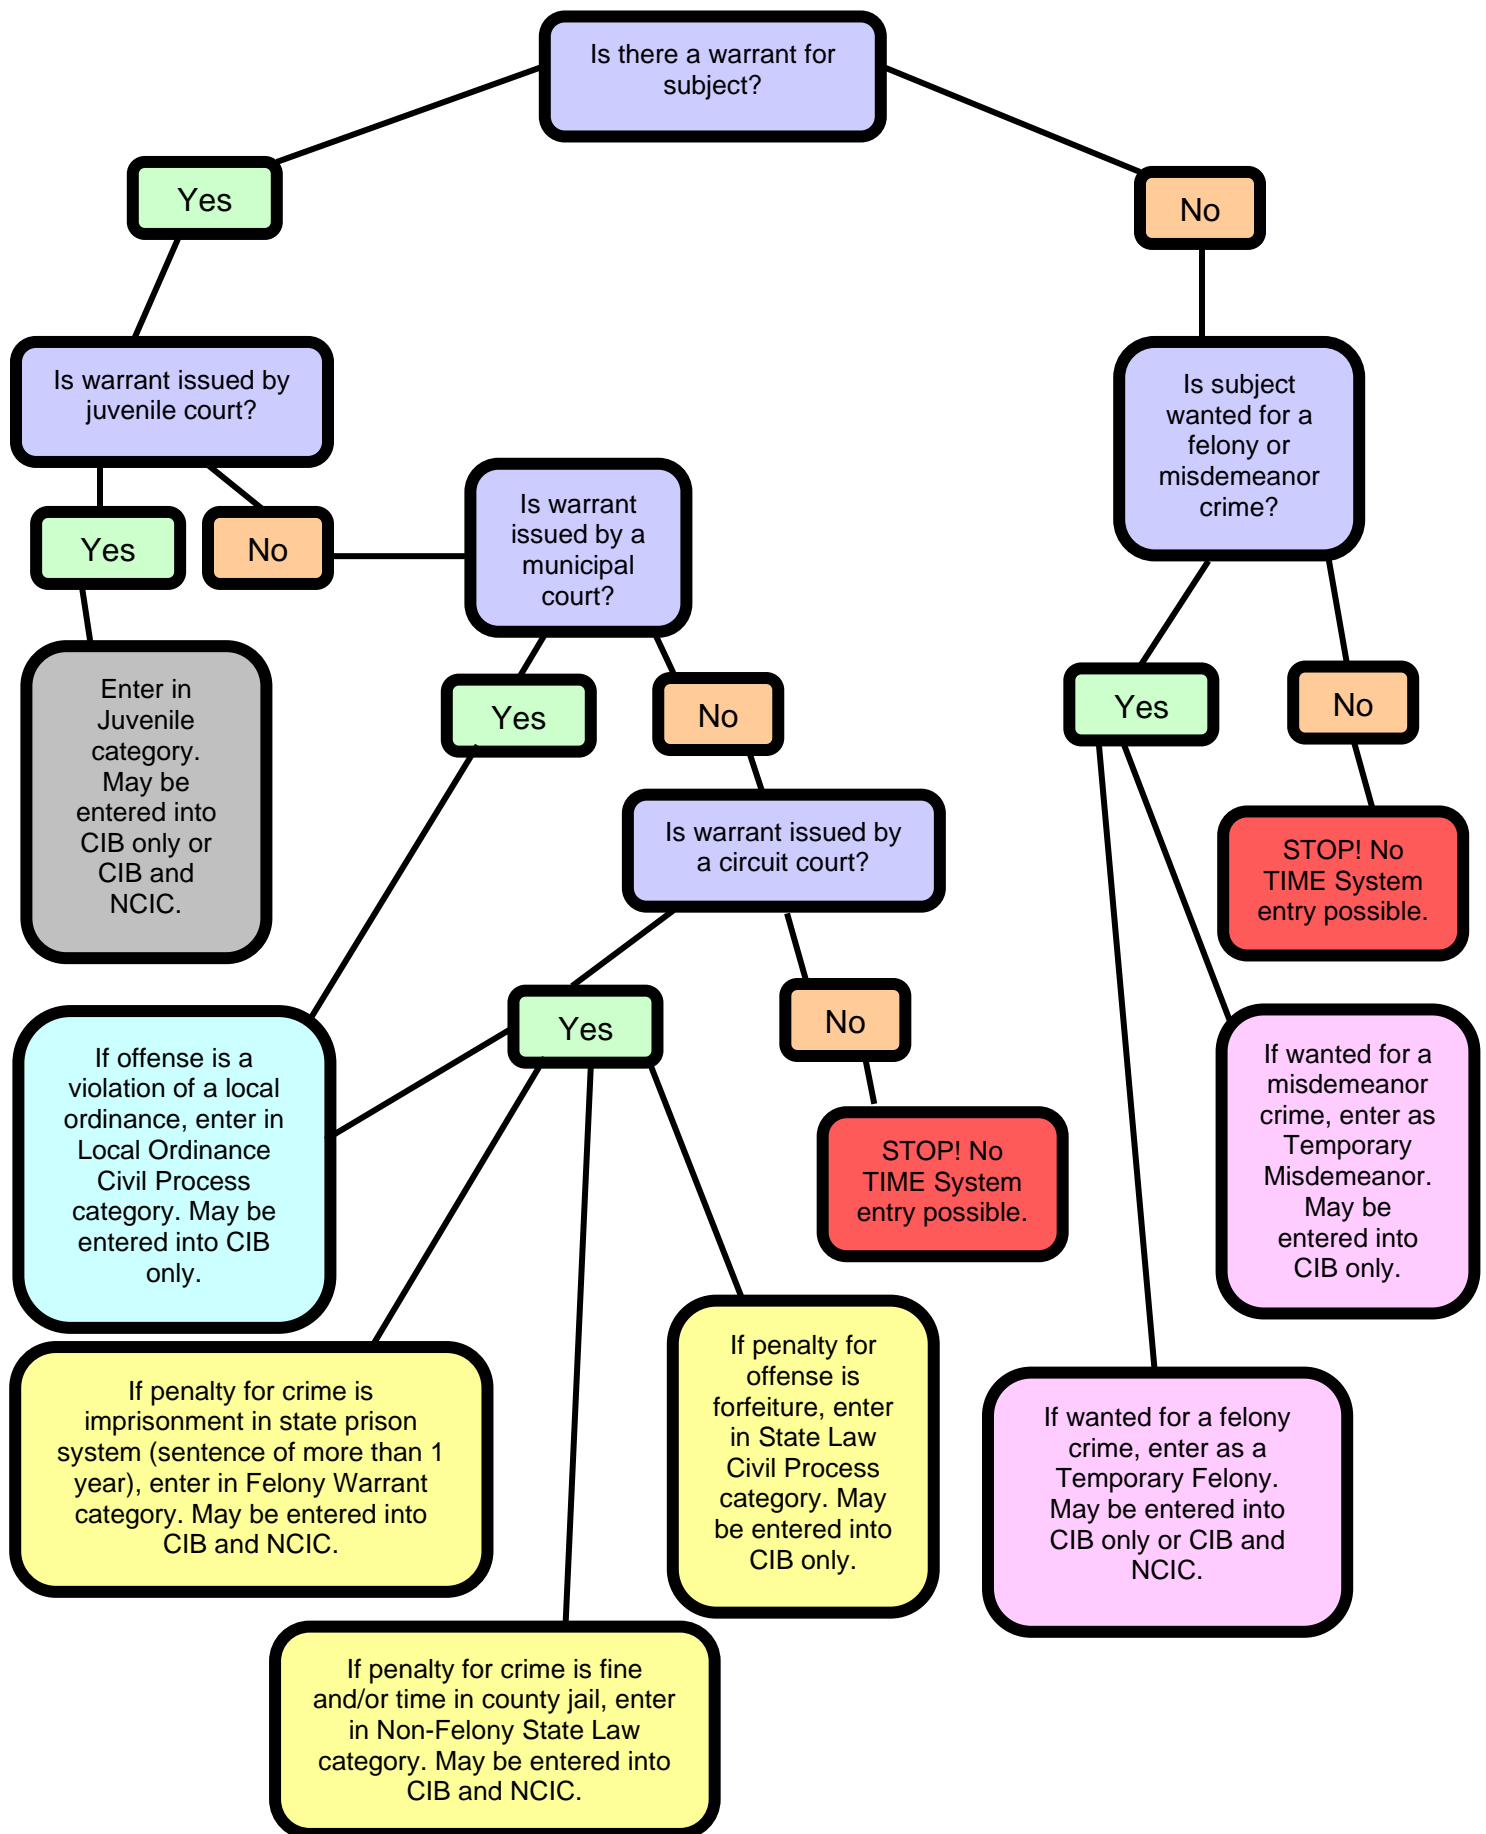

If doubt exists on which category to enter the warrant, contact the prosecuting attorney for assistance.

If your agency is not willing or able to serve the subject 24 hours a day, 7 days a week, the warrant should not be entered.

RETENTION PERIOD:

Indefinite - A warrant remains in the system until the entering agency cancels it.

Exception - A Temporary Felony Want stays in the system for 48 hours. A Temporary Misdemeanor Want stays in the system for 72 hours.

WANTED PERSON FIELDS

REQUIRED

Last Name	Height
First Name	Weight
Sex	Hair Color
Race	Agency Case #
Date of Birth	Offense Code
**Date of Emancipation	Warrant Date
**Date of Violation	Operator

OPTIONAL

Middle Name	Suffix
Place of Birth	Eye Color
Skin Tone	Scars, Marks, Tattoos & Characteristics
Fingerprint Classification	FBI #
Social Security #	Miscellaneous #
State Identification #	Street Address
[Driver's License State, Driver's License #]	Address City
[Driver's License Year of Expiration]	Address State
Bond Amount	Warrant #
Agency Unit	[License Plate #, License Plate State]
Original Offense Code	[License Plate Year of Expiration]
Linking Agency Identifier	[License Plate Type]
Linking Agency Case #	[Vehicle Identification #]
Court Identifier	[Vehicle Model Year]
Notify Originating Agency	[Vehicle Make, Model,]
Caution and Medical Conditions	[Vehicle Style, Color]
DNA Profile Indicator	Geographic Restriction
DNA Location	Miscellaneous/Remarks
Extradition Limitation	
Stolen/Fraudulent Identifiers	
- name, date of birth, miscellaneous #	
- social security #, driver's license #	

[Indicates Group Fields]

**Required when entering a Juvenile Warrant.

SPECIAL CONSIDERATIONS

MULTIPLE WARRANTS

CIB allows two options for entering multiple warrants on the same person: CIB permits an unlimited number of warrants to be entered on the same person if the entering agency provides a unique case number. CIB also permits the entry of one non-extraditable warrant on the same person per agency when multiple warrants are issued. The bond amount field must list the actual bond amount for the warrant that has been entered. The miscellaneous remarks field of the entry must include the specific offense literal of each additional warrant with a total bond amount, including fees, for all warrants.

NCIC WARRANT ENTRY

NCIC permits one entry into each of the Warrant, Missing Person, or other person files based upon the ORI and type of entry. When an agency has multiple warrants for one person, the most serious warrant should be entered into both CIB and NCIC, indicating in the remarks or miscellaneous field the specific offenses for which each additional warrant was issued.

Both felony and misdemeanor warrants, extraditable or not, are entered into NCIC. NCIC requires agencies to enter any felony or misdemeanor warrant into the NCIC database for two important reasons:

- **Officer safety** – a wanted subject is typically unaware of any extradition limitations placed on the warrant, but typically is aware a warrant has been issued. This may lead to erratic and dangerous behavior by the subject when confronted by law enforcement. Entering felony and misdemeanor warrants into the NCIC database ensures law enforcement officers in other states are aware of the person's wanted status even if they are unable to arrest the subject on the warrant due to the extradition restrictions.
- **Firearm Purchase Disqualification** - Title 18 of the United State Code, Chapter 44, §922 (g) prohibits the purchase of a firearm if the subject is a fugitive from justice. The Wisconsin Handgun Hotline, operated by the Crime Information Bureau (CIB), performs a background check in accordance with Wis. Statute §175.35 to ensure that a person is eligible to purchase a handgun under state and federal laws. All registered firearm dealers in Wisconsin are required to call the Handgun Hotline before transferring a handgun. The Handgun Hotline performs a query of the CIB and NCIC hot files, in addition to other searches, to determine if the subject is wanted. In accordance with CJIS policy, the Handgun Hotline will send a Hit Confirmation Request to confirm the warrant is still outstanding even though the subject is not in custody.

If the person is attempting to purchase a long gun, the registered firearm dealer is required to contact NICS (National Instant Criminal Background Check System) operated by the FBI CJIS Division to complete the required background check. NICS only queries the NCIC hot files to determine if the subject is wanted.

CHANGES ON WARRANTS, ORDERS/INJUNCTIONS

Any addition of data or changes made must be made by the court and must be signed or initialed by the judge.

CAUTION/MEDICAL CONDITIONS

A caution and/or medical condition indicator should be included in an entry when it is known that the individual in question is armed and dangerous, has suicidal tendencies, has previously escaped from custody, is a drug addict, or whatever is appropriate in the particular circumstances of the individual.

The specific caution and/or medical condition information must be entered by using the caution/medical condition field.

EXTRADITION AND GEOGRAPHIC LIMITATIONS

NCIC requires extradition limitations.

Communication must take place with the district attorney or prosecutor's office regarding extradition restrictions on felony and misdemeanor warrants entered into the TIME System. Documentation must be kept in the case file to support the extradition limitations entered. Agencies may develop their own geographic restriction policy on how far they will go to serve civil process warrants. This policy must be in writing and available for review during an NCIC or CIB audit.

IN-STATE GEOGRAPHIC RESTRICTIONS

Misdemeanor and felony warrants can only be entered with code A = Court Ordered - See Remarks. The specific restrictions must then be stated in the miscellaneous remarks field. Any of the geographic codes shown below may be used for entry of civil process warrants. Court ordered geographic restrictions must be stated on the warrant or as an attachment to the warrant by the judge.

A = Court Ordered – See Remarks	G = East of HWY 51 & South of HWY 10
B = East of HWY 51	H = West of HWY 51 & North of HWY 10
C = West of HWY 51	I = West of HWY 51 & South of HWY 10
D = North of HWY 10	J = Within County of ORI
E = South of HWY 10	K = Within Adjacent Counties of ORI
F = East of HWY 51 & North of HWY 10	

EXTRADITION LIMITATION FIELD (EXL)

One of the following extradition limitation codes must be used when entering a warrant into NCIC.

- 1 = Felony full extradition
- 2 = Felony limited extradition see miscellaneous field
- 3 = Felony extradition surrounding states only
- 4 = Felony no extradition
- 5 = Felony extradition arrangement pending see miscellaneous field
- 6 = Felony pending extradition determination

- A = Misdemeanor full extradition otherwise noted in the miscellaneous field
- B = Misdemeanor limited extradition see miscellaneous field
- C = Misdemeanor extradition surrounding states only
- D = Misdemeanor no extradition
- E = Misdemeanor extradition arrangements pending see miscellaneous field
- F = Misdemeanor pending extradition determination

NAME

Enter the full name as it appears on the face of the warrant, temporary restraining order, injunction, identity theft report, missing person report or gang member documentation. A space or hyphen in the last name field is acceptable. Spaces or hyphens in the first or middle name fields must be removed.

When the middle name or initial is known but does not appear on the face of the warrant, temporary restraining order, injunction, identity theft report, missing person report or gang member documentation it may be included in the original entry.

NOTE: In some instances, the Department of Transportation (DOT) response or other records show an individual's middle name as "NMI" or "NMN". These should not be entered as part of the name. They are only used to indicate that no middle name or initial is known or available.

RACE CODE

The race code of "U" is only to be used when no other valid race code is available or when two or more race codes are documented, and the proper race cannot be determined. NCIC policy states "records for Hispanic persons should be entered with the race code most closely representing the individual". This means that if the individual has light skin he or she should be entered as white. If the individual has dark skin, he or she should be entered as black.

FBI/UCN NUMBER

The FBI number should be included in NCIC wanted person entries when possible. When an NCIC wanted person entry contains an FBI number, the wanted information is posted to the subject's III criminal history record. FBI staff will notify the entering agency if fingerprints are submitted that match with the wanted person.

MISCELLANEOUS NUMBER

If entering additional State Identification Numbers (SID) in the miscellaneous number field use the prefix code of "OA" (Originating Agency Number). Department of Corrections (DOC) numbers and Department of Natural Resources (DNR) customer ID numbers can also be entered into the miscellaneous number field using the prefix code of "PI" (Personal Identification Number).

WISCONSIN DRIVER'S LICENSE NUMBER VS. IDENTIFICATION NUMBER

If there is no Wisconsin driver's license issued, the driver's license number cannot be entered, regardless of what status is listed. DOT contains violation file information where a subject may have driving violations but not have a driver's license. DOT assigns a number to these violation files, but they are not a form of identification and cannot be entered.

If the Wisconsin driver's license is expired, revoked, canceled, or suspended, the driver's license number can be entered using the date within the expiration date field. If the license is non-expiring, use the code NX.

If the individual has been issued a Wisconsin Department of Transportation (DOT) identification card, enter this number in the driver's license number field and include in the miscellaneous or remarks field that the driver's license number is a Wisconsin identification card using the identification card year of expiration. If the identification card is a non-expiring identification card, indicate this in the miscellaneous or remarks field.

If the individual has been issued a Wisconsin driver's license and a Wisconsin identification card and the operator uses the expiration date of the Wisconsin identification card, the operator must state in the miscellaneous or remarks field that the driver's license number is a Wisconsin identification card.

The driver license or identification card expiration may be entered using one of the available expiration dates documented within the agency case file. This includes the expiration date as documented on the DOT response or the year a former driver license or identification card number was changed. The code for unknown (UNKN) should only be used when an agency is unable to determine another valid expiration date.

PERSON ENTRIES CONTAINING VEHICLE INFORMATION

Vehicle and/or license plate information may be entered as part of a person record, provided the location of the vehicle and/or license plate is unknown, and the entering agency has reasonable grounds to believe that the person may be operating the vehicle or a vehicle bearing the license plate. **Mere knowledge or verification with the Department of Motor Vehicles that a vehicle and/or license plate is registered to the wanted person, missing person, respondent, violent person, or gang member does not meet the criteria for entry of either or both as part of any person record.** The registered owner may live in a household containing multiple drivers, any of whom may have access to the vehicle in question.

If vehicle information is contained in a person entry, the entering agency must maintain documentation of the above facts and criteria. This documentation is not only essential for audit purposes, but also becomes valuable in the event of a civil lawsuit. Remember that when vehicle information is listed on a person entry, the response will be displayed when the vehicle information is queried through the TIME System. This may result in the person driving the vehicle at the time being subjected to a felony traffic stop and subsequent arrest. If this driver is not the wanted subject, unwanted consequences,

including lawsuits could result.

OFFENSE CODE

When a warrant is issued for “failure to pay” or “failure to appear” the offense code for “contempt of court” (5005) or “failure to appear” (5015) must be entered in the offense code field. The original offense i.e., “speeding” must be explained in the expanded offense code field and the original offense code field based upon NCIC edits.

Commitments declare a stipulation of guilt; the subject has been ordered to pay a fine or fee and has either made a partial payment or has not yet made a payment. Failing to pay a fine, fee or recovered judgment as ordered by the court is considered contempt of court, thus commitments would be entered using offense code 5005, Contempt of Court.

Arrest warrants may declare that a subject has not been notified of an initial charge. Such warrants would be entered using the offense code describing the actual charge.

Bench warrants declare that a subject has been notified of the initial charge but has failed to appear in court. Such warrants would be entered with offense code 5015, Failure to Appear.

Note: In order to determine the most appropriate offense code, be sure to utilize the most recent version of the NCIC Code Manual, which is available on WILENET. Another tool that can be used is the Query Statute Number Portal Form (0181).

EXPANDED OFFENSE FIELD

When a warrant is entered into the TIME System with an offense code of 0199, 0299, 0399, 5005, 5015, 5099, 7099, 7199, 7299 or 7399 the expanded offense field is required. This is a nineteen-character field used to explain the offense in more specific detail.

ORIGINAL OFFENSE CODE

This field is required when the offense code is 4901, 4999, 5001, 5002, 5011, 5012, 5013, 5014, 5015, 8100, 8101, or 8102. The original offense code field must contain the NCIC code for the original offense. System edits will not allow you to enter the same NCIC code in both fields.

STOLEN/FRAUDULENT IDENTIFIERS

If an individual is or has been in possession of stolen or fraudulent documents such as a social security card, driver’s license, passport, etc., this information may be entered into a wanted person record as stolen or fraudulently obtained identifiers.

SAMPLE WARRANTS

CITY OF (YOUR CITY)
STATE OF WISCONSIN MUNICIPAL COURT (YOUR) COUNTY

CITY OF (YOUR CITY)

Plaintiff,

WARRANT/COMMITMENT

vs.

THOMAS A. WHATSHISNAME
M/W DOB: 10/23/1850
123 WEST WASHINGTON AVE
MADISON, WI , Defendant.

THE STATE OF WISCONSIN TO ANY LAW ENFORCEMENT OFFICER:

Whereas the City of (your city), on January 4, 1900 issued a citation for violation of city ordinance 9.346.21 (Failure to Yield Right of Way to Livestock) of said city and whereas Thomas Whatshisname on January 9, 1900 has been found guilty by default. A judgment was issued by the Municipal Court finding the defendant in default and ordered to pay sum of \$250.50 DOLLARS together with \$50.00 DOLLARS for court. The defendant has failed to pay the ordered judgment.

Any Law Enforcement Officer in Wisconsin is therefore, commanded to take the body of the said Thomas A. Whatshisname and hold him in the county jail for a term of six days. This warrant may be satisfied upon payment of \$300.50.

January 12, 1900
Date

Ronald McDonald
Municipal Court Judge

STATE OF WISCONSIN, CIRCUIT COURT, ANYWHERE COUNTYArrest-Bench Warrant/
Capias

Jane D. Doe

Case No. 1900CM000034

Name of Person

Person's Address 1780 West Speedway Blvd., Tucson, AZ			Phone Number (720)888-7010	
Person's Date of Birth 04/01/1856		Sex Female	Race White	Driver's License Number
Height 5ft 3in	Weight 135 lbs	Eye Color Blue	Hair color Blond	Other Identifying Characteristics
Charges Operate Vehicle Without Owner's Consent – statute 943.23(4m)				

TO ANY LAW ENFORCEMENT OFFICER

Arrest and bring the above-named person before me, or if I am not available, before some other judge or court commissioner of this county, because:

(Check Box A, B, or C below)

- ☒ A. A complaint/citation has been filed charging the defendant with the commission of an offense(s). The defendant has not previously appeared in or submitted to the jurisdiction of the court. **[A copy of the complaint or citation must always be attached. For a citation, an affidavit of the court officer is recommended.]** The name of the crime and statutory references in the complaint/citation are incorporated into this warrant. I have reviewed the complaint/citation and find probable cause to believe the defendant committed the offense(s).

(Check if either is appropriate):

- ☐ Although the maximum imprisonment is 6 months or less, I believe that the defendant will not appear in response to a summons.
- ☐ If the offense is one covered by the Uniform Bail/Deposit Schedule, the defendant may be released upon payment of the amount below. A new court date shall be provided to the defendant.
- ☐ B. The person failed to appear in court as required on (date) _____ for (type of court appearance) _____.
☐ The person shall be held for appearance in court.
☐ The person may be released upon payment of the amount below. A new court date shall be provided to the defendant.
- ☐ C. The person has failed to comply with a court order concerning the payment of fines, forfeitures, assessments, surcharges or costs to the court. The defendant may be released with no further court appearances upon payment of the total due, set forth below.

Is warrant Bondable: ☒ No ☐ Yes – amount due \$_____, plus statutory sheriff's fees.

If the person posts the total amount due and is released, the law enforcement agency shall inform the court and district attorney of the new court date.

Geographical restriction:

- ☐ Statewide
☐ Within adjacent counties of ORI
☐ Within county of ORI only
☐ Extradite entire United States
☐ Extradite within two-state radius
☐ Extradite adjacent states only
☒ Will not extradite
☐ Other

Date: February 2, 1900

In re the Support of:
Johnny Doe, 02/22/2009

State of Wisconsin, Petitioner,
-VS-
Stan D Ardman, CO RESPONDENT

ORDER FOR ARREST

Case No. 2013FA0025
IVD: 364907

Stan D Ardman, CO RESPONDENT
Male/White, Green/Brown, 603, 200
DOB: 01/16/1980
Address: 123 Main Street, Madison, WI
Phone: 555-555-5555

The court finds that a proceeding to enforce a child support obligation has been filed and that the Respondent, Stan D Ardman, was personally served, but failed to appear on 12/28/12. Therefore, TO THE SHERIFF OF ANY COUNTY:

YOU ARE COMMANDED TO TAKE INTO CUSTODY THE ABOVE-NAMED RESPONDENT as soon as possible and bring him/her before the court, pursuant to Wis. Stats. Sec. 818.01(1)(e) and (f).

X Stan D Ardman may be released from custody upon appearing before the court or upon payment of arrears and costs owed in this matter in the amount of \$495.00.

Dated this 7th day of February, 2013.

Joe Brown

Honorable Judge Joe Brown
Deputy Family Court Commissioner

WARRANT CANCELLATION

Warrant records are to be canceled after hit confirmation on the record and it has been determined by the agency that the warrant has been served and is no longer valid; or as soon as it has been learned the person is no longer wanted (i.e., the warrant being dismissed, etc.)

REQUIRED

Complete Name (character for character match with record)
System Identification #
Agency Case #
Operator

OPTIONAL

Reason for Person Record Removal

NOTE: Canceled records remain in the CIB database for a period of thirteen months after the date of cancellation and will have the word "Cleared" in the header. These records may only be viewed by querying the system identification number assigned to the record upon entry.

Detainer

A detainer can be appended to a warrant/wanted person record after the person is arrested, hit confirmation has occurred and the wanted person will not be released to the agency holding the warrant. It is not permissible to leave a warrant record in the TIME System without appending detainer information when the subject has been arrested or taken into custody on the warrant. The entry of detainer information is voluntary and not required by the TIME System. The alternative to the use of the detainer data is to cancel the warrant record as soon as the entering agency has been advised that the subject is in custody and being held for their agency.

Detainer information can be added to any wanted person record, except for temporary wants. Before detainer information can be added to a record which is entered in both CIB and NCIC, the record must be in a "located" status. A locate can be placed by the agency that arrested or incarcerated the subject indicating that the subject is being detained. If the arresting or incarcerating agency refuses to locate the record, the entering agency can request the TIME System Control Center (TSCC) to locate the record. Once the record has been located, the entering agency can proceed to enter the detainer.

Detainers cannot be used if agency is not willing or able to pick up the subject upon their release from the arresting agency's custody.

REQUIRED

System
Miscellaneous/Remarks
Agency Case #
Complete Name (character for character match with record)
Date of Detainer
Incarcerating Agency NCIC Identifier
Date Sentence Begins
Date Sentence Ends
Operator

OPTIONAL

Identification#

DATE SENTENCE ENDS

The date sentence ends must be a documented date accurately representing the anticipated transfer of the subject from the incarcerating agency to your department. For detainer information added to an NCIC record, the Date Sentence Ends must be 5 days or more into the future.

If the subject is to be held and appear in court on a specific date, that date must be entered.

If the subject is to serve a specific number of days at the incarcerating agency, the Date Sentence Ends must be entered.

For detainees on CIB records only, if the subject is not immediately available for pick up and the agency is unable to obtain an accurate ending date from the incarcerating agency at the time of entering the detainer information, the agency must enter an end date that is ten days or less in the future. At approximately 12:00 a.m. on the date the sentence ends automatic advisory messages will be sent to both the incarcerating agency and the entering agency advising that the detainer has expired and that contact should be made to determine if the subject is available for pickup.

If the subject is still not available for pick up when the sentence ending date has been reached and an accurate date of release is still not available, the agency must enter an ending date that is ten days or less into the future. This process may be repeated as necessary, until the subject is available for pickup.

The entry of detainer information is voluntary and not required by the TIME System. The alternative to the use of the detainer data is to cancel the warrant record as soon as the entering agency has been advised that the subject is in custody and being held for their agency.

It is not permissible to leave a warrant record in the TIME System without appending detainer information when the subject has been arrested or taken into custody on the warrant.

If a detainer reaches the "date sentence ends" and gets purged before the individual was ready to be turned over to the ORI, it is the agency's responsibility to reach out to the Incarcerating agency to make arrangements for pick up. The warrant **cannot** be re-entered as it has already been served.

Missing Person File

FEDERAL REQUIRMENTS

The National Child Search Assistance Act (42 U.S.C. 5779, 5780) requires law enforcement to immediately enter into the National Crime Information Center (NCIC) database every reported case involving a missing child. The intent of this law is to ensure that information vital to the recovery of a missing child is disseminated by law enforcement as quickly as possible. Additionally, the Adam Walsh Child Protection and Safety Act of 2006 clearly defined the timely entry requirement for missing person records under the age of 21 from “**immediately**” to “**within two hours of receipt.**”

“Suzanne’s Law,” amends Section 3701 (a) of the Crime Control Act of 1990 so that there is no waiting period before a law enforcement agency initiates an investigation of a missing person under the age of twenty-one (21). The law requires law enforcement to immediately notify NCIC when someone under the age of twenty-one (21) is reported missing.

Missing Person Documentation

A record for a missing person who is 21 years of age and over may be entered in the Missing Person File provided the entering agency has signed documentation in its possession supporting the stated conditions under which the person is declared missing. This written documentation will aid in the protection of the individual’s right to privacy. In the absence of documentation from a parent or legal guardian, next of kin, physician, or other authoritative source, including friend or neighbor in unusual circumstances, or when such documentation is not reasonably attainable, a signed report by the investigating officer will suffice.

A record for a missing person who is under the age of 21 must be immediately entered using one of the appropriate categories. A missing person report filed with an agency is sufficient documentation for entering a person under the age of 21 into the Missing Person File.

MISSING PERSON CATEGORIES

Disabled

A person of any age who is missing and under proven physical/mental disability or is senile, thereby subjecting him/ herself or others to personal and immediate danger.

Endangered

A person of any age who is missing under circumstances indicating that his/her physical safety may be in danger.

Involuntary

A person of any age who is missing under circumstances indicating that the disappearance may not have been voluntary, i.e. abduction or kidnapping.

Catastrophe Victim

A person of any age who is missing after a catastrophe.

Juvenile

A person who is missing and not declared emancipated as defined by the laws of his/her state of residence and does not meet any of the entry criteria set forth in the Disability, Endangered, Involuntary, or Catastrophe Victim categories.

Other

A person not meeting the criteria for entry in any other category who is missing and 1) for whom there is a reasonable concern for his/her safety or 2) a person who is under age 21 and declared emancipated by the laws of his/her state of residence.

RETENTION PERIOD: Indefinite - A Missing Person record remains in the system until it is canceled by the entering agency.

MISSING PERSON FIELDS

REQUIRED

Last Name	Height
First Name	Weight
Sex	Eye Color
Race	Hair Color
Date of Birth	*Date of Emancipation
Date of Last Contact	Agency Case #
Operator	

OPTIONAL

Missing Person Flag	Suffix
Middle Name	Skin tone
Place of Birth	FBI #
Scars, Marks, Tattoos & Characteristics	Miscellaneous #
Fingerprint Classification	Street Address
Social Security #	Address City
State Identification #	Address State
[Driver's License State, Driver's License #]	Circumcision
[Driver's License Year of Expiration]	Body X-Rays
Blood Type	Glasses Prescription
Jewelry Type	Agency Unit
Jewelry Description	[License Plate #, License Plate State]
Linking Agency Identifier	License Plate Year of Expiration
Linking Agency Case #	[License Plate Type]
Notify Originating Agency	[Vehicle Identification #]
Missing Person Circumstances	Vehicle Model Year
Caution and Medical Conditions	Vehicle Make, Model,
DNA Profile Indicator	[Vehicle Style, Color]
DNA Location	Miscellaneous/Remarks
Footprint Available	Dental Characteristics

[Indicates Group Fields]

* Required for Juvenile Category entry

NOTE: NCIC allows an initial entry when hair and eye color and/or height and weight are not available; provided the entering agency has a photograph and/or fingerprints of the missing person. Agencies are permitted to enter records using the existing unknown hair and eye color values (XXX) and the unknown (UNK) value in the Height (HGT) and Weight (WGT) fields. If a record contains these values in the descriptor fields, it is mandatory that the Miscellaneous/Remarks field is populated with "PHOTO AND/OR PRINTS AVAILABLE WITH HIT CONFIRMATION WITHIN 10 MINUTES". The entering agency should also consider associating an image of the missing person to the entry.

MISSING PERSON ALERTS

AMBER Alert

The purpose of the AMBER Alert is for the safe recovery of missing children that a law enforcement agency believes have been abducted and are in danger of serious bodily harm or death.

Criteria:

1. Child must be 17 years of age or younger
2. Child must be in danger of serious bodily harm or death.
3. Initiating agency must have enough descriptive information about the child, the suspect(s) and/or the suspect vehicle(s) to believe an immediate broadcast alert will help locate the child.
4. The missing person shall be entered into NCIC.

Use of the Amber Alert flag in the Missing Person Circumstance field will generate an automatic notification to the National Center for Missing and Exploited Children and the FBI. In addition, responses will be preceded by the following caveat:

AMBER ALERTISSUED FOR NIC/MXXXXXXXXX***AMBER ALERT ***

AMBER Alert requests must be approved by the Wisconsin Department of Justice Division of Criminal Investigation (DCI) Please contact Wisconsin State Patrol to initiate an AMBER Alert. Email CIBTrain@doj.state.wi.us for the phone number.

SILVER ALERT

The Silver Alert legislation requires law enforcement to issue a Silver Alert when the following criteria are met:

1. The missing person is 60 years of age or older.
2. The missing person is believed to have Alzheimer's, Dementia, or another permanent cognitive impairment which poses a threat to their health and safety.
3. There is reasonable belief that the missing person's disappearance is due to their impaired cognitive condition.
4. The Silver Alert request is made within 72 hours of the individual's disappearance.
5. There is sufficient information available to disseminate to the public that could assist in locating the missing person.
6. The missing person has been entered into NCIC.

Silver Alert requests should be sent to the Wisconsin Department of Justice Division of Criminal Investigation (DCI). Please contact Wisconsin State Patrol to initiate a Silver Alert. Email CIBTrain@doj.state.wi.us for the phone number.

GREEN ALERT

The Green Alert is for missing veterans who have a service-related health condition. The Green Alert does not require an approval process through DCI. The following criteria should be met when issuing a Green Alert:

1. There is reason to believe that the veteran at risk is missing due to his/her physical or mental health condition.
2. There is sufficient information available to disseminate that could assist in locating the missing veteran.
3. The missing person shall be entered into NCIC

Statute requires that the Wisconsin Crime Alert Network (WCAN) be utilized when issuing a Green Alert; and it is strongly recommended that an area broadcast or statewide message be sent.

MISSING PERSON FLAG

The “Missing Person” field is a required field when an agency enters a missing person. The user selects one of the following: MP - standard Missing Person, CA – Child Abduction, AA – Amber Alert, or DV – Disaster Victim.

NCIC missing person entries with flags for CA - Child Abduction or AA - Amber Alert result in automatic notification to the National Center for Missing and Exploited Children (NCMEC). Use of this automatic alert system may save valuable time in the crucial first 48 hours after a child is abducted.

Upon request, NCMEC will provide immediate operational assistance to federal, state, and local law enforcement agencies involved in the investigation of child abduction. The miscellaneous or remarks field will assist NCMEC in reviewing cases for immediate attention.

The Child Abduction Flag is to be used when **the child is under the age of 21**, and there is reasonable indication or suspicion that the child has been abducted and/or is missing under **circumstances suggesting foul play or a threat to life**. Therefore, the Child Abduction Flag can only be used for the **missing person categories of Endangered and Involuntary**.

The AMBER Alert Flag (AA) can only be used when the child is under the age of 18 and the missing person category is Endangered or Involuntary. The use of the AA should only be used once the Division of Criminal Investigation (DCI) has activated an AMBER Alert.

PERSON WITH INFORMATION

The Person With Information (PWI) function allows an agency to add additional information to an already existing missing person record that describes a person who may have information regarding the missing person.

The PWI capability may only be used when:

- The missing person was last seen under circumstances that pose a risk to the safety of that person. PWI information may only be added to missing person records in the endangered or involuntary categories. Only the agency that entered the missing person record may add PWI information to the record.
- There is a substantial likelihood that the PWI has relevant information about the missing person that could result in the recovery of the missing person.
- The identity of the PWI has been disclosed to the general public through an Amber Alert or other formal notification.
- Entering information concerning the PWI could assist the law enforcement agency to identify and interview the PWI and the resulting information could assist in the recovery of the missing person.
- The PWI cannot be located, and time is of the essence.
- There is no prohibition under state law on the publication of information concerning the identity of a person for whom a warrant has not been obtained.
- The PWI entry must include agency contact information and guidance for the officer who encounters the PWI.

If the PWI can be entered as wanted (warrant exists, temporary felony want, etc.) the subject should be entered as a wanted person and the records should be linked. Only two PWI may be added to a missing person record, and the PWI information must be reviewed and validated 72 hours after it is entered and every 30 days thereafter.

MISSING PERSON CANCELLATION

Missing person records are to be canceled immediately after hit confirmation, or as soon as the person has returned home or has been found.

REQUIRED

Complete Name (character for character match)
System Identification #
Agency Case #
Operator

OPTIONAL

Reason for Record Removal

The cancellation response will look similar to the warrant cancellation response.

** Remember to **ALWAYS RE-QUERY** the record after cancellation **

Unidentified Person File

For entry purposes, an unidentified person is defined as follows: Any unidentified deceased person, a person of any age who is living and unable to ascertain his or her identity, any unidentified catastrophe victim, body parts when a body has been dismembered. The information on unidentified living persons should only be included if the person gives their consent, or if they are physically or mentally unable to give consent. NOTE: Appendix E is a body diagram provided by NCIC to assist with entry. Contact CIB for assistance with entry.

RETENTION PERIOD: Indefinite

Protection Order and Injunction File (POIF)

Wisconsin Statutes require the clerk of the circuit court to send a copy of certain temporary restraining orders and injunctions to the sheriff (or other appropriate law enforcement agency) within one business day of issuance. The clerk is further required to provide information concerning the effective period of the temporary restraining order/injunction and information necessary to identify the respondent and petitioner. The law enforcement agency is required to enter the information into the TIME System no later than 24 hours after receiving the information from the clerk. Domestic abuse, child abuse, and harassment orders and injunctions are required to be reported.

A file containing the appropriate paperwork must be maintained so the entering agency can respond to hit confirmation requests and CIB audits.

A temporary restraining order or injunction is issued only after a serious situation has come to the attention of the court; it is important that information on injunctions and temporary restraining orders be entered into the TIME System in a timely manner as required by statute. Law enforcement agencies are able to query this file when responding to domestic violence calls. The information provided through the file response can help the officer to respond appropriately to the call.

Wisconsin law also may prohibit individuals who are the respondent of an injunction from possessing a firearm. The POIF file will be checked by the Department of Justice, Firearms Unit whenever a person attempts to purchase a handgun. If DOJ's Firearms Unit finds an injunction is on file, they may deny the transfer of a handgun and advise the entering agency of the attempt to purchase.

The TIME System allows entry of other orders meeting the following NCIC criteria using the Type of "Other":

- a. any injunction, restraining order, or any other order issued by a civil or criminal court for the purpose of preventing violent or threatening acts or harassment against, sexual violence or contact or communication with, or physical proximity to another person, including any temporary or final orders issued by civil or criminal courts whether obtained by filing an independent action or as a pendente lite order in another proceeding so long as any civil order was issued in response to a complaint, petition, or motion filed by or on behalf of a person seeking protection and
- b. any support, child custody or visitation provisions, orders, remedies, or relief issued as part of a protection order, restraining order, or stay away injunction pursuant to local, state, tribal, or territorial law authorizing the issuance of protection orders, restraining orders, or injunctions for the protection of victims of domestic violence, dating violence, sexual assault, or stalking.

STATE STATUTES REGARDING PROTECTION ORDERS

§813.12 (6) (b) Domestic abuse restraining orders and injunctions

Within one business day after an order or injunction is issued, extended, modified, or vacated under this section, the clerk of the circuit court shall send a copy of the order or injunction, or of the order extending, modifying or vacating an order or injunction, to the sheriff or to any other local law enforcement agency which is the central repository for orders and injunctions, and which has jurisdiction over the petitioner's premises.

§813.12 (6) (c)

No later than 24 hours after receiving the information under par. (b), the sheriff or other appropriate local law enforcement agency under par. (b) shall enter the information concerning an order or injunction issued, extended, modified, or vacated under this section into the transaction information for management of enforcement system. The sheriff or other appropriate local law enforcement agency shall also make available to other law enforcement agencies, through a verification system, information on the existence and status of any order or injunction issued under this section. The information need not be maintained after the order or injunction is no longer in effect.

§813.12 (6) (am) 1.

If an injunction is issued or extended under sub. (4) or if a tribal injunction is filed under s. 806.247 (3), the clerk of the circuit court shall notify the department of justice of the injunction and shall provide the department of justice with information concerning the period during which the injunction is in effect and information necessary to identify the respondent for purposes of a firearms restrictions record search under s. 175.35 (2g) (c).

§813.1283

State statute 813.1283 recognizes the existence of Canadian Domestic Violence Protection Orders and requires Wisconsin law enforcement officers to enforce them as any other protection order of this state or any other state. The Canadian Domestic Violence Protection Order can be presented to Wisconsin Circuit Court to be filed and then entered into the TIME System by the sheriff's office following the same rules as Wisconsin and foreign protection orders.

Administrative Rule Jus 10.06 (1) (c) advises the required respondent identifying information to be: Name, Sex, Race, Date of Birth, Height, Weight, Hair Color.

State statutes 813.122 (9) (b) & (c), 813.123 (8) (b) & (c), and 813.125 (5g) (a) & (b) require the same provisions for child abuse orders, individual at-risk orders, and harassment orders.

ENDING DATE OF INJUNCTIONS

The “Ending Date” is a required field for entry of an injunction and the TIME System will not allow the “Ending Date” field to be filled with “NONEXP” for non-expiring. This is done in conjunction with Wisconsin Chapter 813 and the restricted time limits for injunctions. Therefore, if your agency receives an injunction with the “Effective Until” or “Ending Date” field incomplete, it should be returned to the court to obtain the specific date of when the order expires. With regards to “Kayleigh’s Law”, if there is no ending date, you will still be required to put in an ending date since “NONEXP” is not an option. The end date must be entered as 12/31/2150.

State statutes 813.12 (4) (c) (1) & (4) (c) (2) restrict the length of time for which a domestic abuse injunction may be issued.

§813.12 (4) (c) (1)

An injunction under this subsection is effective according to its terms, for a period of time that the petitioner requests, but not more than 4 years. An injunction granted under this subsection is not voided if the petitioner allows or initiates contact with the respondent or by the admittance of the respondent into a dwelling that the injunction directs him or her to avoid.

§813.12 (4) (c) (2)

When an injunction granted for less than 4 years expires, the court shall extend the injunction if the petitioner states that an extension is necessary to protect him or her. This extension shall remain in effect until 4 years after the date the court first entered the injunction.

§813.12 (4) (d)

A judge or circuit court commissioner may, upon issuing an injunction or granting an extension of an injunction issued under this subsection, order that the injunction is in effect for not more than 10 years, if the court finds, by a preponderance of the evidence stated on the record, that any of the following are true:

- a. There is a substantial risk that the respondent may commit first-degree intentional homicide under s. 940.01, or 2nd-degree intentional homicide under s. 940.05, against the petitioner.
- b. There is a substantial risk that the respondent may commit sexual assault under s. 940.225 (1), (2), or (3), or under s. 948.02 (1) or (2), against the petitioner.

2. This paragraph does not prohibit a petitioner from requesting a new temporary restraining order under sub. (3) or injunction under this subsection before or at the expiration of a previously entered order or injunction.

State statutes 813.123 (5) (c) (1), and 813.125 (4) (c) specify the same 4-year period for individual at risk orders and harassment orders.

State statutes 813.122 (5) (d) (1) & (d) (2) restrict the length of time for which a child abuse injunction may be issued.

§813.122 (5) (d) (1)

An injunction under this subsection is effective according to its terms, for a period of time that the petitioner requests, but not more than 2 years or until the child victim attains 18 years of age, whichever occurs first.

§813.122 (5) (d) (2)

When an injunction in effect for less than 6 months expires, the court shall extend the injunction if the petitioner states that an extension is necessary to protect the child victim. This extension shall remain in effect until 6 months after the date the court first entered the injunction or the child attains 18 years of age, whichever occurs first.

§813.122 (5) (dm)

A judge may, upon issuing an injunction or granting an extension of an injunction issued under this subsection, order that the injunction is in effect for not more than 5 years, if the court finds, by a preponderance of the evidence stated on the record, that any of the following are true:

- a. There is a substantial risk that the respondent may commit first-degree intentional homicide under s. 940.01, or 2nd-degree intentional homicide under s. 940.05, against the child victim.
- b. There is a substantial risk that the respondent may commit sexual assault under s. 940.225 (1), (2), or (3), or under s. 948.02 (1) or (2), against the child victim.

2. This paragraph does not prohibit a petitioner from requesting a new temporary restraining order under sub. (4) or injunction under this subsection before or at the expiration of a previously entered order or injunction.

State statutes 813.12 (4) (d) 1m, 813.122 (5) (d) 1m, 813.123 (5) (d) 1m, 813.125 (4) (d) 1m allow for a permanent injunction to be ordered when the respondent has been convicted of sexual assault and in which the petitioner was the victim.

§813.12 (4) (d) 1m

A judge may, upon request by a petitioner, order that the injunction is in effect permanently if the respondent has been convicted of a violation of s. 940.225 (1) to (3) in which the petitioner was the crime victim.

§813.122 (5) (dm) 1m

A judge may, upon request by a petitioner, order that the injunction is in effect permanently if the respondent has been convicted of a violation of s. 948.02 or 948.025 in which the child victim was the crime victim.

§813.123 (5) (dm) 1m

A judge may, upon request by a petitioner, order that the injunction is in effect permanently if the respondent has been convicted of a violation of s. 940.225 (1) to (3) in which the individual at risk was the crime victim.

§813.125 (4) (d) 1m

A judge may, upon request by a petitioner, order that the injunction is in effect permanently if the respondent has been convicted of a violation of s. 940.225 (1) to (3) in which the petitioner was the crime victim.

If the legal name of the petitioner has changed from what is on the protection order or injunction due to marriage, divorce, etc., the agency can enter the new legal name of the petitioner as a second petitioner. In the MIS Remarks field, the agency should indicate that the additional petitioner is a second name for the petitioner. Aside from legal name changes, no alias names should be entered for the petitioner.

SPECIAL CONSIDERATIONS:

When the petitioner on the order is a business, the information should be entered as it appears on the court order. If there is no individual named on the order, enter the business name as it appears on the order into the last name field and place an X in the first name field.

When multiple petitioners exist, the first petitioner's information should be entered in the petitioner fields. Additional petitioners' data should be added using the supplemental petitioner fields.

Juveniles may appear as petitioners on an order. Their information should be entered in the petitioner fields, regardless of age. Listing juveniles in the remarks field is **inadequate**, as the remarks field is not a searchable field.

When entering a No Contact Order, the proper type of order would be code #8, Other (entry of applicable statute number is required). Entry of these orders is not mandatory but recommended to protect the victim and can be performed by either a Sheriff/Police Department. Expiration date will be the respondents next court date and Petitioner data can be obtained from the court.

RETENTION PERIOD: Temporary restraining orders are purged 96 hours after expiration.
Injunctions are purged on the expiration date.

NOTE: NCIC requires the petitioner's name and either the date of birth or social security number for entry. If the petitioner information is entered without one of these fields the petitioner's name will not appear in the NCIC record. The name will still appear in the CIB record. However, a query of that name will not produce the record.

PROTECTION ORDER AND INJUNCTION RECORD REMOVAL

Two processes exist to remove a protection order/injunction record from the CIB/NCIC files: clear and cancel.

The cancellation process is used when the record must be removed from the file because it is found to be invalid, inaccurate, or entered in error.

The clear process is used when the court advises the order has been dismissed.

Temporary restraining orders and injunctions may be canceled or cleared by the entering agency (ORI) prior to the expiration date.

Temporary restraining order records will be "caveated" at midnight on the date of expiration, this will state "EXPIRED". Then, 96 hours after expiration, temporary restraining orders will be purged by the TIME system automatically. Injunctions will be purged automatically at midnight on the date of expiration.

NOTE: NCIC does not allow modification or supplementation of temporary restraining order records after the ending date. This will require agencies to cancel the temporary restraining order and enter a new injunction. If an agency fails to cancel the temporary restraining order it will be automatically purged from CIB and NCIC 96 hours after the ending date. Temporary restraining orders in NCIC are suppressed from view after the ending date. Injunctions will be purged from CIB/NCIC after the ending date.

REQUIRED

System Identification #
Agency Case #
Respondent Name
Operator

The cancellation response will look similar to the warrant cancellation response.

**** Remember to ALWAYS RE-QUERY the record after cancellation****

Identity Theft File

The identity theft file is a means for law enforcement to 'flag' stolen identities and identify the imposter when he or she is encountered.

When an individual becomes a victim of identity theft and reports the incident to law enforcement, law enforcement should collect pertinent information from the victim. This information is used to create a victim profile which is entered into the NCIC Identity Theft File. This profile includes information such as victim name, date of birth, social security number, and type of identity theft. In addition, the victim chooses a password that will be used to identify that person as the victim in any subsequent police encounters. This password is also entered to the profile listed on NCIC.

The Identity Theft File will be searched as part of any NCIC person query. If a match is found, the victim profile will be returned, including password. This provides the officer with the information necessary to determine if the person encountered is the victim or if the person may be using a false identity.

Information on deceased persons may also be entered into the Identity Theft File if it is deemed by the law enforcement agency that the victim's information has been stolen. The record must include the word "DECEASED" in the password field. No consent form is required with the entry of deceased person information.

The victim profile will also include information in the identity theft type field about what type of identity theft has been reported:

- ACCT – Checking or savings account
- CFRD – Credit card
- GOVT – Government documents or benefits
- INVT – Securities or other investments
- LOAN – Loans
- NETT – Internet or email
- OTHR – Other
- UTIL – Phone or utilities

CRITERIA FOR ENTRY

An entry in the Identify Theft File must be supported by an official complaint recorded by a law enforcement agency. Documentation for the identify theft complaint must meet the following criteria before an entry can be made into the Identity Theft File:

1. Someone is using a means of identification of the victim (denoted in the Identity Theft and Assumption Deterrence Act of 1998 as any name or number that may be used alone or in conjunction with any other information to identify a specific individual).
2. The identity of the victim is being used without the victim's permission.
3. The victim's identity is being used or intended to be used to commit an unlawful activity.
4. The victim has signed a consent waiver prior to entry.

Violent Person File

The Violent Person File (VPF) was designed to alert law enforcement officers that an individual they are encountering may have the propensity for violence against law enforcement.

CRITERIA FOR ENTRY

The agency must have documentation of one of the following criteria before an entry can be made into the Violent Person File:

1. Offender has been convicted for assault or murder/homicide of a law enforcement officer, fleeing, resisting arrest, or any such statute which involves violence against law enforcement.
2. Offender has been convicted of a violent offense against a person to include homicide and attempted homicide.
3. Offender has been convicted of a violent offense against a person where a firearm or weapon was used.
4. A law enforcement agency, based on its official investigatory duties, reasonably believes that the individual has seriously expressed his or her intent to commit an act of unlawful violence against a member of the law enforcement or criminal justice community.

First Name

Operator

OPTIONAL

Middle Name

Suffix

**** Remember to ALWAYS RE-QUERY the record after cancellation ****

IMMINENT THREAT TO LAW ENFORCEMENT (ITLE)

An Imminent Threat to Law Enforcement (ITLE) administrative message can be broadcasted statewide to law enforcement only. The following criteria must be met to qualify as an ITLE message:

1. Threat to cause death or serious injury to a law enforcement officer
2. Death or serious injury of a law enforcement officer in the line-of-duty: and/or
3. Law enforcement officer missing in connection with official duties

Use the mnemonic ITLE to send the message.

Gang File

This file provides law enforcement personnel with identifying information about violent criminal gangs and their members. This information serves to warn law enforcement officers of the potential danger posed by violent individuals. The file also promotes the exchange of information about these organizations and their members to facilitate criminal investigations.

Gang information is based, in part, on investigative information that has not been subject to an independent judicial review. For that reason, strict adherence to the NCIC policy on the security, use and dissemination of gang information is necessary.

Gang information is exclusively for the use of criminal justice agencies for criminal justice purposes. Gang information should **NEVER** be disseminated to any non-criminal justice agency. The same security measures used when dealing with Interstate Identification Index (III) criminal history records should be exercised when receiving information from this file.

The Gang File contains two components, which were designed to accomplish two major goals: promoting the identification of groups and group members and facilitating the exchange of information about these groups and members.

The Group Reference Capability provides information about gang organizations. Prior to making a group entry, a law enforcement agency must complete a Group Registration Form and submit the form to CIB. The Crime Information Bureau forwards this document to NCIC which, in turn, assigns a group code. This code is necessary for entry.

The Group Member Capability provides information about individual members of gangs. The Gang File is searched on every person query. The response will be returned in a format similar to an NCIC wanted person record. Law enforcement agencies can make individual entries of gang members.

ORGANIZATION ENTRY CRITERIA

NCIC has developed guidelines that should be reviewed prior to completion of a Group Registration Form to qualify for entry.

A gang organization must meet the following definition:

- a) Must be an ongoing organization, association, or group of three or more persons, and
- b) Must have a common interest and/or activity characterized by the commission of or involvement in a pattern of criminal activity or delinquent conduct.

Criminal or delinquent conduct includes narcotics distribution, firearms or explosives violations, murder, extortion, obstruction of justice (including witness intimidation and/or tampering), and any other violent offenses such as assault, threats, burglary, and/or carjacking.

Delinquent Conduct, as with the Wanted Person File, is conduct of a juvenile, which would be a crime if committed by an adult.

Criminal Conduct includes acts committed during incarceration which are often labeled as disruptive, and which could be punished as crimes.

MEMBER ENTRY CRITERIA

The following criteria must exist with respect to any individual being entered as a member of a gang:

- A) Self-admitted gang membership at time of arrest or incarceration
- B) Identified as a gang member by a reliable informant or individual
- C) Corroborated identification as a gang member by an informant or individual of unknown reliability
- D) Frequents a documented gang's area, associated with known gang members, and/or affects gang dress, hand signals, tattoos, or symbols
- E) Has been arrested on one or more occasion with known gang members for offenses consistent with gang activity
- F) Self-admitted gang membership (at any time other than arrest or incarceration)
- I) Has been identified as a gang member by an authorized penal organization

NOTE: Code "A" or "I" may be entered individually. All others require a combination of two codes for entry. The supporting documentation used for entry of an organization or member must be maintained for purposes of validation.

GANG ORGANIZATION CANCELLATION

A record with only one interested agency can be completely canceled by that agency. If a record has two or more interested agencies, complete cancellation can result only if all agencies ultimately cancel the record. If the first-in-time agency (primary ORI) "cancels" the record, that agency's ORI and Point of Contact (POC) are removed. The next-in-time agency then becomes the new primary ORI and may modify the record as desired. Cancellation by any subsequent-in-time agency simply removes that agency's ORI and POC from the record.

REQUIRED

Group Name
Subgroup Name
Operator

GANG ORGANIZATION CANCELLATION RESPONSE

When the Gang Record contains a single interest agency, the response will be:

```
/0033 2625 260828F4          WI0180100
NCIC      5140      781 01/01/00 07:27 01 OF 01
1L01169200103910
WI0180100
```

CANCEL GNG/GNST DISCS*ECWI SGP/NONE KNOWN

When the Gang Organization Record contains multiple interest agencies and the Primary ORI and POC are canceled, the response will be:

```
/0033 2625 260828F4          WI0180100
NCIC      5140      781 01/01/00 07:27 01 OF 01
1L01169200103910
WI0180100
```

CANCEL - ORI AND POC HAVE BEEN DELETED FROM THIS RECORD

NOTE: This cancellation will also generate a \$.G. advisory messages to the new primary ORI and all other interested agencies.

**** Remember to ALWAYS RE-QUERY the record after cancellation****

GANG MEMBER CANCELLATION

Cancellation of a Gang Member record is restricted to the agency (ORI) that entered the record.

Vehicle File

STATUTE REQUIREMENT

§342.31(1)

Each sheriff and police department in the state shall immediately report to the department of justice each motor vehicle reported stolen or recovered within its jurisdiction.

DEFINITION

For entry purposes, a vehicle is any motor-driven conveyance designed to carry its operator. In addition to conveyances meeting this definition, trailers are also to be entered into the Vehicle File. The one exception to this definition is a boat, which is entered into the Boat File.

Stolen or missing license plates are also entered into the Vehicle File.

CATEGORIES

1. **Stolen Vehicle**
An unrecovered stolen vehicle may be entered if a hardcopy or electronic theft report has been made. A loaned, rented, or leased vehicle that has not been returned may not be entered unless a theft report is made or a filed complaint results in the issuance of a warrant charging embezzlement, theft, etc.
2. **Felony Vehicle**
A felony vehicle is a vehicle wanted in connection with a felony. If a vehicle is stolen and used in the commission of a felony, enter it as stolen, and indicate in the miscellaneous or remarks field that it is a Felony Vehicle and describe the felony.
3. **Stolen/Missing License Plate(s)**
License plates known or believed to be stolen. License plates that may have fallen off a vehicle and are considered missing can also be entered.

If the complainant intends to apply for duplicate registration instead of new registration, the plate(s) cannot be entered. If only one plate is reported stolen or missing, it cannot be entered unless the remaining plate is destroyed or not used. The entering agency must document what is done with the remaining plate.

STOLEN/FELONY VEHICLE RETENTION PERIODS

Stolen Vehicle –

Vehicle identification number and/or owner- applied number – Four years + year of entry

License plate number, state of registration, expiration and plate type – 90 days

Felony Vehicle - 90 days

Stolen/Missing License Plates – Four years + year of entry

Person Entries – Expired license plate data remains in a person record – four years + year of entry

VEHICLE FIELDS

REQUIRED

[License Plate #

GENERAL GUIDELINES FOR VEHICLE/LICENSE PLATE RECORDS

OWNER- APPLIED NUMBER

If an owner inscribes a number on different parts of his vehicle, the number should be entered in this field. Do not include any special characters such as asterisks or dashes. Do not use a single number or run of zeros. If the number exceeds 20 characters, enter the last 20 characters in this field and indicate the full number in the miscellaneous/remarks field. Another reason for entering a number in this field is when NCIC has rejected the number entered into the VIN field. If all supporting documentation states the number that NCIC rejected is the accurate VIN, enter that number into the Owner-Applied Number (OAN) field until the "true" VIN can be determined; this ensures a hit response if that number is queried either as a VIN or an OAN. If supporting documentation for a stolen motorcycle contains both a frame and an engine number, the frame number is considered the VIN; the engine number should be entered in the OAN field.

ATV and Snowmobile decals may be entered as owner applied numbers.

LICENSE PLATE INFORMATION

There are four fields associated with the license plate: License Plate Number, State of Registration, Year of Expiration and License Plate Type. It is important to enter the correct license plate type, as there are two different code tables associated with this field: Query codes and Entry codes. A complete list of license plate type codes for query and entry appears later in this handout.

Example: A sesquicentennial license plate must be entered with the license plate type code of "CM" but would be queried with the license plate type code of "CV" for registration purposes.

If an agency receives a report with a license plate number of "UNK", "UNKN" or "UNKNOWN" the agency must contact CJIS for entry into the NCIC Vehicle File, License Plate File or any NCIC person file. An administrative message must be sent to CJIS ORI DCFBIWA09 or send an e-mail message to acjis@leo.gov. These cannot be entered into the CIB database.

For snowmobile, All-Terrain Vehicle (ATV), Utility-Terrain Vehicles (UTV), and Off-Highway Motorcycle (OHM) entries the registration number is entered as a license plate.

When entering U.S. government license plates as stolen the state of registration should be entered as "US", the expiration date as "NX" (non-expiring) and plate type as "US".

When a single license plate is taken from a vehicle that has two plates issued to it, the agency should specify in the remarks field whether the plate taken was the front or back plate. If only one license plate was taken the plate may only be entered when the remaining plate is removed or destroyed, and the complainant or owner obtains corrective registration. If the owner or complainant wishes to retain the same license plate number, no entry can be made to the database. Documentation should be maintained detailing what happened to the remaining plate and the fact that the owner was directed to obtain corrective registration.

VEHICLE IDENTIFICATION NUMBER

Enter the number as shown on the supporting documentation. If NCIC rejects this number and all documentation supports the "erroneous" number, enter the number in the Owner-Applied Number (OAN) field until you are able to obtain the correct number. Assistance in determining the correct VIN number may be obtained from the National Insurance Crime Bureau (NICB). When entering motorcycles, the frame number is considered the VIN; the engine number should be entered in the OAN field.

YEAR, MODEL and STYLE

All vehicles will have a year of manufacture associated with the model. Most vehicle models have specific codes assigned to them; however, generic codes are used in some instances.

MAKE

Use the proper make code for the vehicle being entered. The year of manufacture can make a difference in the code to be used, e.g., there are three or four different codes assigned to Jeep depending on the model year. All-Terrain Vehicles and Utility-Terrain Vehicles (ATVs and UTVs) must be entered using the related motorcycle make code. If the manufacturer of the ATV does not manufacture motorcycles and no make code is assigned it must be entered with the generic code of "ATV". You must then specify the manufacturer of the vehicle in the expanded make code or miscellaneous or remarks field.

Other generic make codes that must be explained:

Assembled vehicles	ASVE	** State Air National Guard	AG__
Aircraft	AERO	** Civil Air Patrol	AP__
All-terrain vehicles Unpublished	ATV	** National Guard	NG__
Dune Buggy and go carts	SPEC	Snowmobiles Unpublished	SNOW
Home and garden equipment	FARM	Trailers: Homemade	HMDE
Cycles: Homemade	HOMD	Reconstructed	RCON
Reconstructed	RECO	Unpublished	TRLR
Unpublished	CYCL	Trucks: Unpublished	TRUK
Military Vehicles:		Utility-terrain vehicles Unpublished	ATV
US Air Force	USAF		
US Coast Guard	USCG		
US Navy	USN		
US Army	USA		
US Marine Corp	USMC		

** For National Guard or Civil Air Patrol entries, the two-character code representing the state where the unit is located should be placed after the respective make code.

VEHICLE COLOR

This is a two-part field. If the vehicle is a solid color, enter the color code into the first part of the field, the second part of the field remains blank. When a vehicle of two colors is described, the colors should be entered in the order of top to bottom or front to rear. When describing a vehicle of more than two colors, the code MUL/COL should be entered in this field and the actual colors listed in the miscellaneous or remarks field.

MISCELLANEOUS/REMARKS

A variety of information should be included in this field: The manufacturer's complete name must be entered when a generic make code is used. A brief explanation of the felony for felony vehicle entries, complete numbers when they exceed the maximum allowed for the specific field (a VIN or OAN exceeding 20 characters), and "3W-Motorcycle" for those that are street legal. When a single license plate is taken, the agency should note in the miscellaneous remarks field which one was taken.

The miscellaneous remarks field allows a maximum of 200 characters. This will allow agencies to include other related information and use fewer abbreviations.

If the check boxes for "Hold for Prints" or "Occupants May Be Armed" are checked, then miscellaneous remarks are required.

Codes assigned to each manufacturer are available in the Portal XL software tables and help messages or the Code Manual, available online at: <https://wilenet.widj.gov/>

National Insurance Crime Bureau

The National Insurance Crime Bureau (NICB) maintains a rapidly expanding national and international index of vehicle records. NICB tracks a motor vehicle's complete life cycle from manufacture to demolition. The NICB database is designed to include vehicle liability, physical damage, and related homeowner claims. NICB files include data on passenger vehicles, multipurpose vehicles, trucks, trailers, motorcycles, snowmobiles, construction and farm equipment, boats, and uniquely identifiable parts.

NICB provides automated access to twelve different files: Manufacturer's Shipping File, Impound File, Export File, Salvage File, Auction File, Pre-Inspection File, Vehicle Claim File, Rental File, Theft File, International Index File, Theft (recovery file), and the NCIC/CPIC Canceled File.

These files may be accessed via two types of inquiries. The Impound/Export File inquiry interrogates the NICB Impound and Export files only. Impound records will only be returned if the date of impound is less than 60 days from the date of the inquiry. Access to these files is for investigative purposes only. Users should not program their computers to automatically send inquiries to these files whenever an inquiry is sent to either the NCIC stolen vehicle file or state vehicle registration files.

An "All Files" inquiry will interrogate all available NICB files with one exception. If only a partial Vehicle Identification Number (VIN) is available, the user may submit the last 8 characters of the VIN. In order to identify the VIN as partial to NICB the user **MUST** preface the partial VIN by the word "PARTIAL". For example, a partial VIN would look like this: PARTIAL24654790. Note that there is no space or separator between the word "PARTIAL" and VIN. When a partial VIN search is requested, only the Manufacturers Shipping File will be searched.

NICB makes VIN decoding capability available online via the website <https://claimsearch.iso.com/>, allowing for its use on any computer with internet access. To request user authorization for online access to this NICB function, and for all other NICB questions, please contact NICB by calling 1-800-447-6282 or via email to techsupport@nicb.org.

NICB has a mirror image of NCIC's stolen vehicle file. Every stolen vehicle entered in NCIC will be passed to NICB by NCIC. NICB will enter this record on their file and interrogate Impound (last 60 days entries), Export, Auction, and International Index Files. If a VIN match is made on any NICB inquiry or impound vehicle record entry, the following message will be forwarded to the entering agency.

"THIS IS TO NOTIFY YOU THAT THE VEHICLE YOU ENTERED INTO NCIC, VIN/123456789, IS IN THE NICB DATA BASE. BELOW IS THE NICB RELATED VEHICLE RECORD. THIS MAY ASSIST YOU WITH ANY FOLLOW UP INVESTIGATION.

Part File

DEFINITION

A part is defined as any vehicle or boat component with a serial number or owner-applied number. A part which has been stolen may be entered into this file as long as a hardcopy or electronic theft report is filed. Examples of parts are backhoe, hay bailer, engine, transmission, battery, carburetor, door, bumper, hubcap, air propeller, jet pump, outboard motor, outdrive, vehicle title document, etc.

STOLEN PART FIELDS

REQUIRED

Agency Case #
*Serial #
*Owner-Applied #
Date of Theft
Brand Name
Part Category
**Miscellaneous/Remarks
Operator

OPTIONAL

Agency Unit
Linking Agency Identifier
Linking Agency Case #
Notify Originating Agency Flag
***Production Year
***Engine Power

* A part may be entered using the serial number and/or owner-applied number. When entering an outboard motor, the serial number is required.

** A further description of the part category must be explained in this field, e.g., outboard or motor.

*** Required when Part Category is OB

RETENTION PERIOD: Four years + year of entry

GENERAL GUIDELINES FOR PART RECORDS

SERIAL NUMBER

When a stolen vehicle or boat part is entered, the serial number of the part must be entered in the serial number field. If an entry is for a stolen certificate of title, the title number should be entered in the serial number field. If the part is a non-motorized forklift, the serial number should be entered in the serial number field. The Vehicle Identification Number (VIN) should be entered in the serial number field when the stolen part is a VIN plate.

OWNER-APPLIED NUMBER

The owner-applied number field is a 20-character searchable field. If the record entry also contains a serial number, it cannot be the same as the owner-applied number.

Another use of the owner-applied number field occurs when the stolen vehicle or boat part has a unique identification number which has been assigned in connection with a theft prevention program. In such a case, the owner-applied number may be entered as the only numeric identifier or in addition to a serial number.

BRAND

There are many different codes assigned to VEHICLE and BOAT part brand names. This creates a problem because of the duplication of brand names for vehicles, boats, and their parts. For example, there is a MERCURY automobile and there is a MERCURY outboard motor; each one has a different code. It is important to use the appropriate code for the type of part being entered. Here are some of the most common brand names that have two or more codes assigned to them:

MANUFACTURER	AUTO CODE	TRAILER CODE	BOAT CODE
JOHNSON	---	JOHN	OMCJ
CHRYSLER	CHRY	CHRS	CHRM/CRYO/VVV
MERCURY	MERC	MERB/MERR	MRCM/MROB/QSR

If there is no code assigned to the brand, enter a generic code (PART, ENGN) and list the brand in the miscellaneous or remarks field or the expanded brand name code field.

PART CATEGORY

This two-character code identifies the type of part that is being entered (e.g., outboard motor, engine, drive shaft, alternator, battery, etc.). If no category code is assigned, use one of the following generic codes:

VEHICLES

Automotive Parts – AG
Construction Parts – CE
Farm/Garden Parts – FE

BOATS

Boat Parts – BX

ENGINE POWER

Indicate the size of the engine in cubic inches (I), cubic centimeters (C), liters (L), horsepower (H) or pounds of thrust (P). Examples: 125 Horsepower = 125H, 3 Liters = 3L, 250cc = 250C. Round fractions down to the base number (i.e., 9.9 horsepower would be entered as 9H and then further explain in the miscellaneous remarks field that the engine power is "9 pt 9").

NOTE: If a stolen part is entered with the part category code of "OB", the engine power field is mandatory. Failure to enter the engine power will cause the entry to be rejected.

PRODUCTION YEAR

This field represents the production or model year during which the part was manufactured or "UNKN" if the year is unknown. If the stolen part category is outboard motor "OB" the model year field is mandatory.

MISCELLANEOUS/REMARKS

This field must include a description of the part category (therefore the field is required for all stolen part records); model number, model year, color scheme of the stolen part, etc. should also be entered in this field.

Boat File

DEFINITION

A boat is defined as a vessel for transport by water, constructed to provide buoyancy by excluding water and shaped to give stability and permit propulsion. Any unrecovered stolen boat which has a registration number, document number, permanently attached hull serial number, or owner applied number may be entered if a theft report has been made.

Loaned, rented, or leased boats not returned may be entered if a theft report is made or a filed complaint results in the issuance of a warrant charging embezzlement, theft, etc.

GENERAL GUIDELINES FOR BOAT RECORDS

REGISTRATION NUMBER

After an application for registration of a boat with a state or the United States Coast Guard has been approved, the applicant is issued a "Certificate of Number" (a Registration Certificate authorizing the boat's use primarily for pleasure) setting forth the identification number assigned to the boat. The applicant is required to display the boat registration number on each side of the bow of the vessel. The registration number will be no more than ten characters; however, it may be less.

The Code of Federal Regulations, Title 33, Section 174.23 sets out the requirements for boat registration numbers. Each registration number must consist of two capital letters denoting the state of the issuing authority. These two alphabetics should be followed by not more than four numeric and two alphabetics or not more than three numeric and three alphabetics. A number suffix may not include the letters "I", "O", or "Q", which may be mistaken for numerals. Not all state code prefixes match the CIB/NCIC state codes. Those that differ are California (CF), Colorado (CL), Delaware (DL), Hawaii (HA), Kansas (KA), Massachusetts (MS), Michigan (MC), Mississippi (MI), Wisconsin (WS) and Washington (WN).

HULL NUMBER

The Code of Federal Regulations, Title 33, Section 181, requires that hull identification numbers affixed to boats manufactured as of August 1973 must consist of 12 characters. A manufacturer may display additional characters after the required 12; however, they must be separated by a hyphen.

The complete hull number, including any alphabetic character(s), must be entered in this field. Any spaces, hyphens, or special characters which may appear as part of the hull number should be omitted from the boat hull number field. If the hull number exceeds 20 characters, the last 20 characters must be entered in the boat hull number field. The complete boat hull number must be entered in the miscellaneous field.

HULL NUMBER CONSTRUCTION

The first three characters are identification assigned to the manufacturer: positions one and two must be alphabetic, position three must be alphabetic or the numerics of 1 or 2.

The fourth through eighth characters are assigned by the manufacturer and may be either alphabetic or numeric except for the alphabetic characters I, O, and Q.

The ninth through the twelfth characters indicate the date of certification or date of manufacture. The characters must be either:

- All numerics with positions nine and ten indicating the month and positions eleven and twelve indicating the year; or
- The ninth character must be the alphabetic M, the tenth and eleventh characters must be numerics indicating the model year, and the twelfth character must be an alphabetic indicating the month of the model year, August is designated by the alphabetic A, September by B, October by C, etc.; or
- The ninth and tenth characters indicate month and year of the date of certification or date of manufacture. Character nine is alphabetic: the first month of the year, January, is "A" and the last month of the year December, is "L". Character ten is the last digit of the year of certification or manufacture, such as "2" for 1992. Characters eleven and twelve are the model year, such as "94" for 1994.

BOAT YEAR

The boat year must contain the model year during which the boat was manufactured. The boat year may be obtained from the boat hull number.

BOAT MAKE

If the boat make code is not listed in your software tables, the code MISC should be placed in the make field and the manufacturer's name in the expanded make code field. If the manufacturer's name is not known, the miscellaneous field should be used to describe the boat and any information which can lead to the determination of the manufacturer's name.

BOAT TYPE

The boat type must be a valid NCIC-assigned code as listed in the NCIC Code Manual. The code "YYY" (All other) can be used when the existing codes do not match your entered boat. The boat type will need to be explained in the miscellaneous field if "YYY" is used.

BOAT LENGTH

NCIC uses this field for off-line searches. Round the length off to the nearest foot (i.e., 18' 9" should be entered as 19). The actual length (i.e., 18' 9") must then be explained in the miscellaneous field.

BOAT COLOR

This is a two-part field. If the boat is a solid color, enter the color code into the first part of the field, the second part of the field remains blank. When describing a boat of two colors, the dominant color of the boat's hull above the waterline should be entered first followed by the next most prevalent color. If the boat has more than two major colors, enter MUL/COL, and explain the color scheme in the miscellaneous field.

COAST GUARD DOCUMENT NUMBER

Commercial vessels and certain motor yachts over five tons are "documented" as vessels of U.S. registration under navigation laws administered by the U.S. Coast Guard. An official identifying number is assigned to the vessel, and a valid marine document reflecting the assigned number is issued. This unique number (commonly referred to as a "document number") is permanently marked on the main beam of the "documented" vessel in addition to appearing on the official marine document issued to the owner of the vessel. A document number should be entered in the registration number field when the document number is the only numeric identifier; otherwise, it should be entered into the Coast Guard Document number field. The number will be no more than ten characters; however, it may be less. All characters of the number will be numeric.

MISCELLANEOUS

A variety of information can be entered into this field, including the manufacturer's name if MISC was used as the boat make code. Serialized home-built boats should be identified by entering the words "HOME BUILT." The words "KIT BUILT" should be entered to identify boats constructed from a kit where the manufacturer's identity is not displayed on the boat. Further descriptive data such as trim colors, number of hulls, number of sails, etc. may also be entered in this field.

IMAGE

One identifying or generic image can be associated with a boat record.

Stolen, Lost, Felony or Recovered Gun File

DEFINITION

Any weapon, including a starter gun, which will or is designed to, or may readily be converted to expel a projectile by air, carbon dioxide, or the action of an explosive, may be entered. Examples are: antique guns, cannons, machine guns, pistols, rifles, shotguns, the frame, or receiver of any such weapon, any firearm muffler or firearm silencer, destructive devices such as grenades, mines, missiles, rockets, pellet guns, stun guns and disguised guns such as knife guns.

A recovered (abandoned, seized, or found) weapon for which no stolen report is on file, and there is no proof of ownership, may be entered as "recovered". If a weapon is entered as recovered, the entering agency **must** keep the weapon in its possession.

A lost, felony or missing gun may be entered as it might be traceable to a crime and may assist in the identification of a recovered gun.

Taser weapons are included in this file. The proper type code for entry is "Z" and the caliber code is "9999".

BB guns and paintball guns are excluded from this definition and should be entered into the Article File. The manufacturers of such guns are not bound by the same statutes as are manufacturers of above-mentioned weapons.

GUN FIELDS

REQUIRED

Agency Case #
Serial #
Date of Theft or Loss (Stolen/Felony/Lost Gun)
Date of Recovery (Recovered Gun)
Make
Caliber
Type
Operator

OPTIONAL

Model
Miscellaneous
Linking Agency Identifier
Linking Agency Case #

NOTE: The number found on the frame of the gun is considered the serial number.

RETENTION PERIOD: Stolen, lost/missing or felony guns - remain in the system until canceled by the entering agency.
Recovered guns - two years + year of entry

GENERAL GUIDELINES FOR GUN RECORDS

MAKE

The gun make field must be filled with a minimum of two and a maximum of three characters. Valid gun make codes are available in the Portal XL software tables and help messages or the Code Manual, available online at: <https://wilenet.widj.gov>.

- **GUN MAKE NOT LISTED IN TABLES**

When the make of a serialized firearm is not listed in your software tables, the code ZZZ should be placed in the make field and the make of the firearm should be entered as the first item in the expanded make code field.

- **GUN MAKE UNKNOWN BUT COUNTRY OF MANUFACTURE KNOWN**

If the make of a firearm is unknown but the country of manufacture is known, the appropriate code for that country should be entered in the make field, and "UNKN" should be entered in the expanded make code field. The code US should be entered in the make field only when all the following three conditions exist: 1) the make of the firearm is not known, 2) the country of manufacture is the United States, and 3) the firearm is not a U.S. Military-issue weapon.

- **GUN MAKE AND COUNTRY OF MANUFACTURE BOTH UNKNOWN**

When neither the gun make nor country where manufactured is known, the gun can be entered when the gun has a distinct point(s) of identification or is connected with a major criminal investigation. The code ZZZ should be entered into the make field and "MAK UNKN" should be placed as the first item in the miscellaneous field; the distinct point(s) of identification or connection to major criminal investigation should be noted in the MIS field.

US MILITARY ISSUED WEAPONS

The code US should be entered in the make field when all of the following conditions exist: 1) the make of the firearm is not known, 2) the country of manufacture is the United States, and 3) the firearm is not a U.S. Military-issue weapon as described in the following paragraph.

For a firearm (including surplus weapons) that is a U.S. Military-issue weapon, the make field code USA should be used. Common U.S. Military-issue weapons are listed below:

.45 caliber and/or 9mm U.S. Submachine Guns:

M1, M1A1, M1928, M1928A1 (Thompson),
M50, M55 (Reising), M42 (United Defense),
M3, M3A1 (Grease Gun)

.45 caliber U.S. Pistols, M1911 and M1911A1 (Colt), Mk 23 (HK)

.45 caliber U.S. Revolvers, M1917

.30 caliber U.S. Carbines, M1, M2, M3

.30 caliber U.S. Rifles

Models 1892, 94, 96, 98 (Krag)

Models 1903 and 1903A3, etc. (Springfield)

M1 (Garand)

M1917 (Enfield)

7.62mm U.S. Rifle, M14, M21, M40A1

5.56mm U.S. Rifle, M4A1, M16, M16A1, M16A2, etc.

.30 caliber U.S. Machine Guns (including the Browning Automatic Rifle, etc.)

9mm U.S. Pistols, M9 (Beretta), P226 (Sig Sauer)

MODEL

The model number or a recognizable abbreviation of the model name should be entered. For example, Smith and Wesson Chief's Special Model revolver should be entered in the model field as CHIEF SPEC.

TYPE

The type field is two characters long, and in most cases, data should be entered into both positions. The first position is for the weapon type code, (Pistol = P). The second position represents the weapon action/description, (Bolt Action = B). For pistols, shotguns, and rifles, the second position is required; for all others, this position is optional but should be used. There is confusion over Automatic Action (A) vs. Semiautomatic Action (I). It is important officers obtain the correct description. If a complainant states "automatic", the officer should question whether the weapon really is automatic or semi-automatic and document whichever it is. Per FBI guidelines, a 3-round burst gun is considered an automatic.

MISCELLANEOUS

A variety of data can be entered into this field: Manufacturer/Country name if "ZZZ" make code was used, barrel length, color/finish, cartridge capacity, any unique features/descriptions, etc.

NOTE: If a record was entered before 10/18/72, there may be problems canceling or modifying it. Contact TSCC with problems.

Article File

DEFINITION

Unrecovered stolen articles can be entered into this file if a hardcopy or electronic theft report has been made and the following circumstances are met:

1. Any article in the theft report that is valued at \$500 or more and has a unique manufacturer assigned serial number and/or owner-applied number. Office equipment, television sets, and bicycles may be entered regardless of value.
2. If the total value of the property taken in one theft exceeds \$5000, any article in the theft report, regardless of value, having a unique manufacturer assigned serial number and/or an owner-applied number can be entered.
3. Any article in the theft report regardless of value, having a unique manufacturer assigned serial number and/or owner-applied number may be entered if:
 - a. The circumstances of the theft indicate that there is a probability of interstate movement; or
 - b. The seriousness of the crime dictates that an entry should be made for investigative purposes.

Public Safety, Homeland Security, or Critical Infrastructure items of identification (badges, dog tags, smart cards, etc.) may be entered as Lost Articles if report has been made.

Stolen or lost credit cards, bank drafts, and checks, including cashier, certified, company, government (federal, state, and local), bank officer, personal, and U.S. Treasury, are not to be entered into the NCIC Article File or any other CIB/NCIC file.

For information about the status of major credit cards, law enforcement personnel should contact the credit card company.

Examples of articles are computers, televisions, bicycles, food stamps, oriental rugs, and animals.

STOLEN ARTICLE FIELDS

REQUIRED

Agency Case #
*Serial #
*Owner-Applied #
Type
Brand
Date of Theft
Operator

OPTIONAL

Model
Miscellaneous
Linkage Agency Identifier
Linkage Agency Case #
Lot #
Notify Originating Agency
Hazardous Materials Container
Partial Lot Indicator
United Nations #

*An article may be entered using the serial number and/or owner-applied number. The location of that number should be described in the miscellaneous field.

RETENTION PERIOD: One year + year of entry.

Indefinitely for entries with type code of "T" (Toxic/Hazardous Materials), "Q" (Public Safety, Homeland Security, & Critical Infrastructure Items of Identification) or "Z" (Lost or stolen equipment associated with Public Safety, Homeland Security, and Critical Infrastructure.)

GENERAL GUIDELINES FOR ARTICLE RECORDS

TYPE

If the item is not listed in the type code directory, the article must be entered with category Y (items not listed) and the following procedures must be applied:

1. Use the complete name of the article if possible. If the article name is one word of more than six letters, use the first six letters in the article name.
2. An article name which is two words must be treated as one word.
3. If an article name is three words, use the initial of the first two words and the first four letters of the third word.

Public safety, homeland security and critical infrastructure items of identification such as badges, credentials, police and federal identification cards, military identification, etc., must be entered using an article type code starting with "Q." Lost or stolen equipment associated with public safety, homeland security, and critical infrastructure must be entered using an article type code starting with "Z." Toxic/hazardous materials must be entered using an article type code "T."

BRAND

The following instructions should be used to enter the brand name if the brand name is not listed in the brand name field codes:

1. If the brand name is a single word, use the first six letters of the name. For example, the brand name Wurlitzer must be coded WURLIT.
2. If the brand name is two words, use the first letter of the first word, followed by a space and the first four letters of the second word. For example, the brand name Harmon Kardon must be coded H KARD.
3. If the brand name is three words, use the first letter of the first word, a space, first letter of the second word, a space and the first two letters of the last word. For example, the brand National Cash Register must be coded N C RE.
4. If the brand name is an initial and one word, use the initial, space, and the first four letters of the word. For example, the brand name A. Johnson must be coded A JOHN.
5. If the brand name has two initials and one word, use the first initial, space, second initial, space, and the first two letters of the word. For example, the brand name A. B. Dick must be coded A B DI.
6. Brand names consisting of initials are to be entered omitting spaces and periods. For example, the brand name C.E.I. must be coded CEI.

If the stolen property is issued by a government or military agency, the brand name field should identify that agency. This applies to items such as badges or credentials.

The brand name field in an entry for stolen livestock must contain the breed of the animal. Use the instructions above for coding. For example, Hereford must be coded HEREOF and Tennessee Walker must be coded T WALK.

The brand name field in an entry for a state auto inspection sticker or a license plate renewal tab should contain the appropriate two-character code for the state issuing the sticker or tab.

When stolen property does not have a brand name, or if the brand name is unknown, the code NO BRA must be entered in the brand field. A complete description of the stolen article should be placed in the miscellaneous field when this code is used.

MODEL

The following order or priority should govern filling this field:

1. If the model number exceeds nine characters, use only the last nine characters with the complete model number shown in the miscellaneous field. For example, model number 12345678987 would be entered in the model field as 345678987. The complete model number (12345678987) must be entered in the miscellaneous field.
2. If the model name is a single word, use only the first nine letters. For example, Imperialistic dishwasher manufactured by Frigidaire, code as IMPERIALI.
3. If the model name is two words, use the first letter of the first word, a space, and first seven letters of the second word. For example, Custom Imperial dishwasher by Frigidaire, code as C IMPERIA.

4. If the model name is three words, use the first letter of the first word, a space, the first letter of the second word, a space and first five letters of the third word. For example, Ultra Custom Imperial dishwasher by Frigidaire, code as U C IMPER.
5. If the model name is an initial and one word, use the first initial, a space, and the first seven letters of the word. For example, X. Supremacy dishwasher by Frigidaire, code as X SUPREMA.
6. If the model name has two initials and one word, use the first initial, a space, second initial, a space, and the first five letters of the word. For example, X. S. Custom dishwasher by Frigidaire, code as X S CUSTO.
7. Model names consisting of alpha characters only should be entered omitting spaces and periods. For example, Friden calculator model SBT, code as SBT.
8. If none of the preceding instructions apply (because there is no model name or number); the composition, design, size, or style should be entered.

SERIAL NUMBER

Minimum of one and maximum of 20 alpha and numeric characters. Single zero only, run of zeros only, or single alpha only, indicating the article serial number is not known, cannot be used. Serial number and owner-applied number cannot be identical.

If the serial number exceeds 20 characters, the last (rightmost) 20 characters should be entered in the serial number field, and the complete serial number should be entered in the miscellaneous field.

OWNER APPLIED NUMBER

Minimum of one and maximum of 20 alpha and/or numeric characters. Single zero only and run of zeros only cannot be used. Serial number and owner-applied number cannot be identical. Cannot be used in entry or modification of consecutively serialized group of stolen article record.

An owner-applied number must be entered omitting spaces, hyphens, and symbols.

Alpha characters which are part of the owner-applied number should be included in the number.

MISCELLANEOUS FIELD

The miscellaneous field should describe the location of the serial number and/or owner-applied number on an item of property and provide a further description of the stolen article. A complete description of the stolen article should be placed in this field when the code NO BRA is used in the brand name field. This field should contain the complete model number if it contains more than nine characters and the last nine have been entered in the model field.

NCIC2000 compliant software has expanded the miscellaneous field to allow for fewer abbreviations. For example:

- OAN ENGRAVED ON BACK RADIO
- OAN IS OP ID NO
- SER TAG ON LEFT EAR

Securities File

DEFINITION

For NCIC purposes, serially numbered identifiable securities that have been stolen, embezzled, used for ransom, or counterfeited may be entered into the file if a hardcopy or electronic theft report has been made. Securities are identified as currency, e.g., Federal Reserve Notes, Silver Certificates, U.S. Notes, Canadian Notes, and other foreign currency. Items which do not meet the definition for entry in the NCIC Securities File are personal notes, bank drafts, cashier's checks, bank officers checks, personal checks, company checks, U.S. Treasury checks, other types of government checks, lost or stolen credit cards, gold or silver coins, gift certificates, and savings and checking account passbooks. Serialized food coupons, lottery tickets, and medals do not qualify as securities for NCIC purposes but may be entered in the NCIC Article File.

SECURITIES FIELDS

REQUIRED

Agency Case #
Serial #
Denomination
Type
Issuer
Date of Theft
Owner
Operator

OPTIONAL

Security Date
Miscellaneous
Linkage Agency Identifier
Linkage Agency Case #
Social Security Number
Notify Originating Agency
Ransom Money

RETENTION PERIOD: Four years + year of entry
Traveler's checks, money orders and postal money orders - Two years + year of entry

GENERAL GUIDELINES FOR SECURITY RECORDS

ISSUER

Name of the company, agency, or organization printed on the security is to be placed in the issuer field even if the security was stolen or embezzled before it was appropriately prepared or issued by an authorized person. U.S. currency/notes should be entered as "USTREASURY." Canadian notes/currency must be entered as "CANADA."

OWNER

The full name of the owner appearing on the face of the security is to be included if space in this field permits. Names must be entered in this order: mandatory surname; mandatory comma; space (optional); mandatory first name or initial(s); if any; mandatory space after each middle name or initial except last one; and suffix denoting seniority (Jr., III, etc.) if any. Incorrect placement or omission of the comma will result in a negative response to inquiries on the name. If two names are listed, use only the first. If currency is being entered, the owner would be "BEARER".

Institutional Owner: If the owner is not a person but a company, bank, brokerage house, etc., the full name must be entered in the same order as it appears on the document.

Traveler's Check: The name of the person or company holding a traveler's check at the time of theft or embezzlement should be entered in this field even though this information is not indicated on the face of the document.

Money Order: The person in possession of a money order at the time of theft or embezzlement should be identified as the owner even though his/her name does not appear on the document.

SOCIAL SECURITY NUMBER

The social security number found on the face of the security. When co-owners are listed on the security, the social security number of the first person listed is preferred if available.

SECURITY DATE FIELD

The series year (four numeric characters and any alphabetic character suffix) must be included in this field. The series year is found on the face of U.S. currency following the word SERIES. For example, SERIES 1993 would be entered as 1993.

For Bank of Canada (currency), the year which follows the word OTTAWA (centered immediately under the black bar on which is written BANK OF CANADA-BANQUE DU CANADA) is to be entered. This date will be referred to as the series year.

The alphabetic character M or P is not to be prefixed to the series year of U.S. currency or Canadian notes. They are used only when entering the maturity or issue date.

Securities such as bonds, debentures, notes, and other certificates acknowledging debt usually set out a specific date (maturity date) when they become payable to the owner. Maturity date is to be entered in the security date field when it appears on the security.

Certain securities such as stock certificates represent shares of ownership in a corporation and as such have no maturity date. Others, such as traveler's checks, are documents that can be cashed if appropriately signed or endorsed. For such securities, the date prepared or issued should be entered as issued date.

When maturity date appears, the date entered in the security date field should be preceded by the alphabetic character M, e.g., M011299 for the maturity date January 12, 1999. When issue date appears, the date entered should be preceded by the alphabetic character P, e.g., P051395 for the issue date May 13, 1995.

The issue date of each U.S. Savings Bond appears in the upper right-hand corner on the face side. The issue day is always the first day of the month in which the bond was issued.

If a money order was stolen **before** it was issued and no security date appears thereon, the word BLANK is to be entered into the security date.

MISCELLANEOUS

Detail any special attributes about the security. If the security is counterfeit, enter "COUNTERFEIT" as the first word in this field.

If the face plate number and the back plate number for counterfeit U.S. currency and Bank of Canada notes appear on the currency, they should be entered in this field.

Bait money (prerecorded currency) is Federal Reserve Notes that have been marked to identify stolen money as evidence against a robber. BAIT MONEY should be entered as the first item in the miscellaneous field if Federal Reserve Notes stolen were recorded as bait money.

The interest noted on the security is to be listed: 10.5% interest should appear as 10 1-2 int. Interest information should be noted first in this field unless the security is counterfeit.

NOTE: The miscellaneous field allows a maximum of 200 characters. This will allow agencies to include other related information and use fewer abbreviations.

Group Records

Group entries are limited to two files - Articles and Securities. There are four rules pertaining to group entries. These are:

1. The items must be the same.
2. The items serial numbers must be sequenced.
3. The items serial numbers must have the same number of digits. Leading zeros are permitted.
4. There can be no more than 100 items in a group.

**** Remember to ALWAYS RE-QUERY the record after cancellation****

Acquiring Maximum Data

Always attempt to obtain as much information as possible to enter into the record. In many cases, the information is available simply by reading the officer's case report. If not, there are numerous databases that can be accessed to obtain required and optional information to enter. Remember that "packing a record" with all available data increases the chances of apprehending the wanted person, finding, and identifying the missing person and recovering stolen property.

PERSON RECORDS

1. Department of Transportation files - Wisconsin & other states
 - Driver's license number
 - Physical descriptors
 - Address
 - Former name(s)
 - Other possible states to query
2. Criminal History files – FBI, State and Local Levels
 - Address
 - Physical descriptors
 - Scars, marks, tattoos, other Conditions
 - Alias names and dates of birth
 - Social Security Number(s)
 - Driver's license number(s)
 - Fingerprint classification
 - Whether caution should be used
 - FBI number/state identification number
 - Miscellaneous numbers
 - Photos
3. Wisconsin Department of Natural Resources
 - Address
 - Phone number
 - Physical descriptors
4. Other Police/Criminal Justice Agencies (i.e., Probation & Parole, Department of Corrections Locator, Sex Offender Registration, etc.):
 - Department of Corrections Number
 - Current place of employment
 - Recent acquaintances that subject may be with
 - Scars, marks, tattoos, other conditions
 - Alias names and dates of birth
 - Whether caution should be used
5. Dentists/Doctors
 - Dental information surgeries, scars, etc.
 - Mental and/or physical illness or disabilities

6. Clerk of Courts Office/Consolidated Court Automation Program (CCAP)
 - Address
 - Alias names and dates of birth
7. INTERPOL-U.S. National Central Bureau
 - Whether caution should be used
8. Complainant
 - Identifying photo(s)
9. Internet Resources, i.e., social websites, etc.,
 - Identifying photo(s)
 - Scars, marks, tattoos, other conditions
10. Print Resources, i.e., yearbooks, phone directories, etc.
 - Identifying photo(s)
 - Scars, marks, tattoos, other conditions

VEHICLE and BOAT RECORDS

1. Department of Transportation files - Wisconsin & other states
 - License plate number
 - License plate year of expiration
 - License plate type
 - Vehicle identification number
 - Vehicle year, make, model and style
 - Address
 - Whether the vehicle has been re-registered since stolen
2. Department of Natural Resources files - Wisconsin & other states
 - Snowmobile & ATV registration
 - Vehicle year, make, model and style
 - Vehicle identification number
 - Boat registration
 - Boat hull number
 - Boat year, make, model and type
 - Address
 - Whether registration activity has occurred since stolen
3. National Insurance Crime Bureau
 - Verification of vehicle identification number
 - Vehicle year, make, model, style
4. NCIC
 - Generic photo
5. Complainant
 - Identifying photo

Record Modification

Records should be updated whenever information is received that could be added to the record or whenever it is learned that information in the record needs to be corrected or removed. A "Modify transaction" allows the operator to perform these functions:

1. Add data to the base record: As long as the field was blank in the original entry, the information can be "modified in".
2. Change data in the base record: Corrections can be made by using the modify transaction since this allows the operator to "write over" the incorrect data.
3. Delete data from the base record: This can be accomplished by using the modify transaction & placing the pound sign (#) in the field to be deleted.

NOTES: When modifying the "engine power" in a stolen part entry the "part category" field must also be filled in. The TIME System looks at these as a group for purposes of doing a modify.

When modifying a temporary restraining order to an injunction, modify the type of order, beginning date, and ending date. The beginning date must be the beginning date of the injunction not the beginning date of the temporary restraining order.

NCIC does not allow modification or supplementation of temporary restraining order records after the ending date. This will require agencies to cancel the temporary restraining order and enter a new injunction. Due to the time change between eastern and central time, users will be rejected when attempting to modify a protection order record between 2300- and 2400-hours central time on the date of expiration.

When modifying the "miscellaneous/remarks" field you must key in all of the information you want to appear in that field. You cannot just add information to what is already in the field.

Record Supplementation

A supplement transaction allows you to add data to an already established field within a record. Data that can be supplemented:

DATES OF BIRTH

Nine additional

SCARS, MARKS, TATTOOS AND OTHER CHARACTERISTICS

Nine additional

Nineteen additional on missing & unidentified persons

SOCIAL SECURITY NUMBERS

Nine additional

MISCELLANEOUS NUMBERS

Nine additional

DRIVER'S LICENSE NUMBERS

Nine additional

ALIAS NAMES

Ninety-nine additional (monikers may be entered as alias last names, leaving the first name field blank, for gang/Threat Screening Center members only)

CAUTION AND MEDICAL CONDITIONS

Ten additional

DENTAL INFORMATION

Missing & unidentified persons only

DETAINER

Warrant/wanted persons only

LICENSE PLATES

Nine additional

VEHICLE IDENTIFICATION NUMBER, YEAR, MAKE, MODEL, STYLE AND COLOR

Gang/Threat Screening Center file members only

IDENTIFYING DRESS, TATTOOS, HAND SIGNALS AND GRAFFITI

Gang/Threat Screening Center file organization only by primary ORI

PROTECTION ORDER CONDITIONS

Seven additional

PROTECTION ORDER PETITIONER INFORMATION

Nine additional

STOLEN/FRAUDULENT IDENTIFIERS

Ninety-nine additional names, for warrant/wanted person only

Nine additional dates of birth, social security, driver's license & miscellaneous numbers, for warrant/wanted person only

PERSON WITH INFORMATION

One additional person with information

Each person with information may have up to 99 additional names, 9 additional dates of birth, 9 additional scars, marks, tattoos, and other characteristics.

IMAGES

Nine additional identifying images (other than mugshot and signature) can be associated with a person record.

Nine additional identifying images (such as tattoos, dress, or graffiti) can be associated with a gang/Threat Screening Center file group reference record.

A maximum of 99 alias names may be added to a person record, a maximum of 99 stolen or fraudulent names may be added to a warrant/wanted person record, and a maximum of 9 person with information alias names may be added to a missing person record. A maximum of 9 additional identifiers can be added to other fields listed. The exceptions being:

- | | |
|--------------------------------------|--|
| 1. Missing/unidentified person files | 19 additional scars, marks, tattoos, and other characteristics |
| 2. Caution and medical conditions | 10 |
| 3. Protection order conditions | 7 |
| 4. Images | 1 mugshot & 1 identifying image for person & property records. 10 additional identifying images may be added to person records |

Supplemental records **cannot** be modified. If the record needs to be corrected, the erroneous information must be **canceled**. Again, the supplemental record must be identified. Then, the erroneous information (character for character) must be entered into the appropriate field(s).

SUPPLEMENTATION OF ALIAS NAMES

For audit purposes NCIC has defined data fields as critical and non-critical. A critical data field is one that impacts the search and the resulting responses (i.e. names, DOBs, social security numbers, etc.). Non-critical data fields are those that provide additional information but would not impact the search results (i.e., skin tone, address, warrant number, etc.). NCIC's search algorithm uses the last name only when searching names. For NCIC audit purposes they consider a record to be complete (all available information is entered) for names if all names are entered that would impact the response results. For example, a record entered as John James Smith Jr., NCIC would not require the entry of AKA's of John James Smith, John Smith, or John J Smith from an NCIC audit perspective for completeness as they would not impact whether the record was returned since the last names are all the same, Smith.

One must also consider the other standpoint which is officer information. Even though a record may return, the officer must make a determination whether the record is the same person that they have

stopped. This requires the officer knowing as much information as possible which would include first and middle names even though they are not used by NCIC for searching. For example, it would be good officer information to know a person's first name is James and not Jesus or a middle name of James vs. Jonathon when only J is entered as a middle initial, even though it doesn't impact the NCIC search if the last name for all of them is Smith. It is worth noting here that CIB Hotfiles uses both last name and first names for searching.

Taking all of this into consideration CIB will be moving forward with the following guidelines.

- Person records are to be entered with the name on the source documentation.
 - If the source document contains middle initial, middle name or suffix and it is not entered in the record as the base name or as supplemental data (AKA) it will be marked incomplete during a CIB audit.
 - A suffix, middle initial, or full middle name may be entered in the base record when the original documentation does not contain the suffix, middle initial, or only a middle initial as long as documentation is maintained within the case file to show from where it was obtained.
- If a record does not contain a documented complete first or middle names as base record or supplemental names the record will be marked as incomplete during a CIB audit.
- If a record does not contain documented name variations (i.e., Bill vs. William), or any other documented names the record will be marked as incomplete during a CIB audit.
- Records containing complete first, middle and last name sets (i.e., John James Smith) do not require entry of AKA's that contained shortened name sets (i.e., John Smith, John J Smith).

The above guidelines only address the entry of names and do not change the need to enter all available information to assist officers and communication personnel in making identification determinations.

In the event of a criminal kidnapping of a juvenile by the non-custodial mother, it is recommended that the mother's maiden name be entered as a possible alias and the following information be added to the miscellaneous/remarks field: "child is missing under suspicious circumstances" and/or "child is believed to be in a life-threatening situation." The mother's maiden name should also be entered if it is believed that a runaway juvenile is using the maiden name to try to avoid identification.

When the last, first or middle name spelling listed on the temporary restraining order and related entry varies from the last, first or middle name now listed on the newly issued injunction, the name listed on the injunction may be entered as an alias. The agency must then maintain the supportive documentation (temporary restraining order) which supports both names.

There should be no alias names for petitioners unless the name on the order has been legally changed. Only in that case, the new legal name can be entered as an alias for the petitioner and a note should be added to the remarks to indicate that it is a former name of the petitioner.

DELETING DATA IN THE BASE RECORD

The TIME System allows an operator to delete data from the base record, even when there has been additional information supplemented into that field. When data is deleted from the base record the TIME System will automatically take a piece of data listed as supplemental information for that field and move it into the base record.

Images

The TIME System supports entry and response of NCIC images for persons, articles, parts, guns, boats, and vehicles. Agencies can enter an image they have on file for the person or property or NCIC provides generic images for boats and vehicles. To enter an NCIC image the record must already exist.

IMAGE FIELDS

REQUIRED

Image Type
NCIC Number
Image

OPTIONAL

Date of Image
Miscellaneous

GENERAL GUIDELINES FOR IMAGE ENTRIES

IMAGE TYPE

An Image Type of "M" for a mug shot, "I" for identifying image or "S" for signature is selected. "M" should normally be used for the person files and "I" for the property files. The NIC number is required to identify the NCIC record the image will be appended to. Click on the "Browse" button to navigate to the desired image file. Date of Image and Miscellaneous are optional.

IMAGE SPECIFICATIONS

Images must be a JPEG and no more than 16K, cropped to 256-x256 pixels and 8 bits per pixel gray scale, with a quality factor of 25.

GENERIC IMAGES

To locate an appropriate generic image, query the generic image library by specifying year, make, model and style of the vehicle you are interested in. Once a generic image is located, note the NCIC number associated with it. Modify your vehicle/boat entry using the appropriate modify image transaction and include the NCIC number of the generic reference image.

IMAGE ENTRY RESPONSE

```

IMAGE QUERIES

Users querying persons/property on the system may include an indication in their query if they wish to receive images. If requested by the user, images associated with NCIC records will be returned and may be viewed on the screen and/or printer.

Special queries also exist that allow users to request a specific image or the entire set of images that has been associated with a record.

Dental Characteristics

Dental characteristics should be entered from information provided by the dentist. The code "ALL" should be entered in the first Dental Characteristics (DCH) Field if all 32 permanent teeth are present with no restorations. If dental characteristics are not available, use the code "UNK". If "ALL" or "UNK" is not used, you must enter a valid code for all 32 teeth.

The following rules apply when entering dental characteristics for each tooth:

- The DCH Field shall contain a maximum of 32 codes consisting of two numerics followed by option 1, 2, or 3:
 1. One special character /, or one special character / followed by R.
 2. One alphabetic character M, O, D, F, L, X, or V.
 3. Two to seven alphabetic characters M, O, D, F, L, C, and R.
- Any combination of M, O, D, F, or L should be entered in the sequence of M, O, D, F, L.
- The R character should follow any combination of M, O, D, F, L, C or the / character.
- The C character should follow any combination of M, O, D, F, or L.
- The only character that should be used with / is the R character.
- The characters V and X should not be used with any combination of characters.
- The characters M, O, D, F, L, C, R, /, V, and X may only be used once per numeric.

MISSING PERSON CERTIFICATION

IN ORDER TO REASSURE THAT THE RIGHT OF PRIVACY OF INDIVIDUALS WILL NOT BE VIOLATED:

The National Crime Information Center (NCIC) requires that the law enforcement agency have in its possession written documentation certifying that one of the four following conditions exist PRIOR to entering a missing person into NCIC records:

- (1) The person I am reporting as missing is under proven physical/mental disability or is senile, thereby subjecting himself/herself or others to personal and immediate danger.
- (2) The person I am reporting as missing is missing under circumstances indicating that the disappearance was not voluntary.
- (3) The person I am reporting as missing is in the company of another person under circumstances indicating that his or her physical safety is in danger.
- (4) The person I am reporting as missing is under the age of 18 and whose custody and control is vested in me. Further, that said missing person does not meet any of the criteria set forth in numbers 1, 2, and 3 above.

I HEREBY DECLARE THAT:

First Name Middle Name Last Name

OF

Address City State

Date of Birth Age

IS MISSING PURSUANT TO NUMBER _____ ABOVE AND I REQUEST THAT SAID INDIVIDUAL BE ENTERED INTO THE NCIC RECORD AS A MISSING PERSON.

Witnessed _____ Officer, Official	_____ Signature	_____ Date
	_____ Printed or Typed Name	
	_____ Address	
	_____ Relationship	

I HEREBY ACKNOWLEDGE that if said missing person is a juvenile, I am responsible for transporting said juvenile from the place of location to his/her residence and upon notification of the whereabouts of said individual, I will immediately make arrangements for safe transportation. BEING THE PARENT OR LEGAL GUARDIAN OR LEGAL CUSTODIAN of said juvenile, I hereby authorize temporary detainment pursuant to applicable Wisconsin Statutes.

Identity Theft File Consent Document

By signing this document, I hereby provide the _____ Police/Sheriff's Department permission to enter my personal data into the Federal Bureau of Investigation's Identity Theft File. This information may include, but is not limited to, physical descriptors and identifying information including my name, date of birth, place of birth, social security number, the type of identity theft, and a password provided to me for future identification purposes. I am also providing permission to enter my photograph and fingerprints into this file when that capability becomes available.

I understand that this information is being submitted as part of a criminal investigation in which I was a victim and will be available to entities having access to the Federal Bureau of Investigations National Crime Information Center (NCIC) files for any authorized purpose. I am providing this data voluntarily as a means to memorialize my claim of identity theft and to obtain a unique password to be used for future identity verification purposes.

I understand that the FBI intends to remove this information from the NCIC active file no later than 5 years from date of entry. I understand that I may at any time submit a written request to the entering agency to have this information removed from the active file at an earlier date. I further understand that information removed from the active file will not thereafter be accessible via NCIC terminals, but it will be retained by the FBI as a record of the NCIC entry until such time as its deletion may be authorized by the National Archives and Records Administration (NARA).

I understand that this is a legally binding document reflecting my intent to have personal data entered into the FBI's Identity Theft File. I declare under penalty of perjury that the foregoing is true and correct (See 28 U.S.C. 1746).

The Privacy Act of 1974 (5 United States Code 552a) requires that Federal, state, or local agencies inform individuals whose social security number is being requested whether such disclosure is mandatory or voluntary, the basis of authority of such solicitation, and the uses which will be made of it. Accordingly, disclosure of your social security number is voluntary; it is being requested pursuant to 28 U.S.C. 534 for the purposes described above. The social security number will be used as an identification tool; consequently, failure to provide the number may result in a reduced ability to make such identifications or provide future identity verifications.

Gang File Group Code Request

PLEASE TYPE OR PRINT CLEARLY

Fax completed form to 304-625-5393, Attention: NCIC Operations and Policy Unit/Gang File

Or E-mail: VGTOFCODE@LEO.GOV

*It is not necessary to submit more than one form with each request.
Additional groups may be listed in a similar format on another sheet of paper.*

REQUESTER: _____

AGENCY NAME: _____ ORI: _____

ADDRESS: _____

TELEPHONE NUMBER: _____ FAX: _____

Please complete this request by providing as much detail as possible. Before requesting a code for a gang group, you should ensure that one of the qualifying definitions (listed on the back of this form) is applicable.

DATE OF REQUEST: _____

Signature _____ Title _____

In conjunction with this request, have you already made an emergency Gang Group Member Capability NCIC record entry using the code GNG/UNLISTED GROUP? ☐ Yes ☐ No

If yes, indicate date entry was made: _____

GROUP NAME: _____

LOCATION: (City/County where group operates) _____

GROUP ALIASES: (List if applicable. Codes are not assigned to aliases, but aliases should be entered into the Miscellaneous Field of the Group Reference Capability Record.)

SUBGROUP NAME: (If none, list phrase NONE KNOWN, the Subgroup Code that will be used for this group at the time of record entry.)

Location: _____

Subgroup Aliases: (List if applicable. Codes are not assigned to aliases, but aliases should be entered into the Miscellaneous Field of the Group Reference Capability record.)

COMMENTS: _____

GROUP REFERENCE CAPABILITY (GRC) – CRITERIA FOR ENTRY

1. GRC – GANG DEFINITION

For purposes of entry in the GRC, a **gang** must meet the following criteria:

1. The group must be an ongoing organization, association, or group of three or more persons.
2. The group must have a common interest and/or activity characterized by the commission of or involvement in a pattern of criminal or delinquent conduct.

CRIMINAL or DELINQUENT CONDUCT includes narcotics distribution, firearms or explosives violations, murder, extortion, obstruction of justice (including witness intimidation and/or tampering), and any other violent offenses such as assault, threats, burglary, and/or carjacking.

Delinquent Conduct includes conduct of a juvenile that would be a crime if committed by an adult.

Criminal Conduct includes acts committed during incarceration that are often labeled disruptive and that could be punished as crimes.

Note: Tagger groups, for example, whose only interest and/or activity is spray painting do not meet the Gang entry criteria; therefore, this type of information should not be submitted.

SAMPLE AGENCY AGREEMENT

An agreement between the "Access Agency" and the "Indirect Access Agency", an authorized criminal justice / law enforcement agency receiving TIME System access and/or information via the "Access Agency".

Access Agency: _____ ORI: _____

Indirect Access Agency: _____ ORI: _____

The Wisconsin Department of Justice, Crime Information Bureau (CIB) operates the Transaction Information for the Management of Enforcement (TIME) System. The "Access Agency" has direct access to the TIME System and has signed an agreement with CIB. The "Access Agency" agrees to perform TIME System transactions on behalf of the "Indirect Access Agency" and/or provide TIME System information to the "Indirect Access Agency" in accordance with this agreement and TIME System policies.

- 1) It is agreed that any information received from the Wisconsin TIME System shall be for authorized criminal justice / law enforcement purposes and is not to be disseminated to unauthorized agencies or individuals. Any secondary dissemination of this information must meet state and federal statutes and/or regulations.

A member of the public cannot request information directly from the TIME System. If a member of the public wishes to obtain information from one of the files available via the TIME System, the requester must contact the agency that owns the file (i.e. Department of Transportation for driver's license information, CIB for Wisconsin adult criminal history, etc.). Public records rules apply to requests for existing TIME System responses that were obtained in pursuance to the criminal justice / law enforcement agency's official duties and functions and are contained within agency case files. The TIME System interfaces with data files maintained by various data sources. The ability to redisclose information obtained from the TIME System, in response to a public records request for existing records, depends on: 1) any restrictions imposed by the data source or applicable law, and 2) your usual public records analysis. An agency may need to redact non-disclosable confidential data prior to release.
- 2) Information received from the TIME/NCIC Systems and exchanged between the agencies party to this agreement will be exchanged following the security controls and conditions specified in the CJIS Security Policy.
- 3) Under this agreement TIME System information may be released to other authorized criminal justice / law enforcement agencies; i.e. county District Attorney, prosecuting attorneys, courts, other law enforcement agencies. Wisconsin driver's license photos obtained via the TIME System may only be released to other authorized criminal justice / law enforcement agencies if the releasing and receiving agencies meet all the conditions imposed by state statute. Dissemination of system information via an inadequately protected communications media such as Internet email is prohibited. The "Indirect Access Agency" will accept any and all responsibility for keeping accurate information in their logs according to NCIC, CIB and data service policies / procedures and applicable statutory provisions for secondary dissemination of information.
- 4) The "Indirect Access Agency" agrees to participate in security awareness training. All personnel who have access to criminal justice information must complete security awareness training within six months of employment or assignment. Security awareness training must be completed every year. Personnel that maintain TIME System certification receive security awareness training during that training.
- 5) All records entered in the TIME System by the "Access Agency" Department on behalf of the "Indirect Access

Appendix D: Sample Forms (Advanced & Validation)

Agency" will contain the ORI of the "Indirect Access Agency". It is agreed that the "Indirect Access Agency" will continue timely follow up investigation regarding any and all cases in which wanted or missing persons and property have been entered. It is the responsibility of the "Indirect Access Agency" to maintain hard copy documentation of these entries according to CIB and NCIC policies and procedures. Any additional information received by the "Indirect Access Agency" will immediately be passed on to the "Access Agency" to update information entered. This information includes modifications, supplements and cancellations. Entry, modify, supplement and cancellation verifications will be supplied to the "Indirect Access Agency" by the "Access Agency". The "Indirect Access Agency" will be responsible for monthly validation of all records entered with the "Indirect Access Agency" ORI.

OR (choose applicable paragraph)

All records entered in the TIME System by the "Access Agency" Department on behalf of the "Indirect Access Agency" will contain the ORI of the "Access Agency". It is agreed that the "Indirect Access Agency" will continue timely follow up investigation regarding any and all cases in which wanted or missing persons and property have been entered. It is the responsibility of the "Access Agency" to maintain hard copy documentation of these entries according to CIB and NCIC policies and procedures. Any additional information received by the "Indirect Access Agency" will immediately be passed on to the "Access Agency" to update documentation and information entered. This information includes modifications, supplements and cancellations. The "Access Agency" will be responsible for monthly validation of all records entered with the "Access Agency" ORI.

- 6) If the "Indirect Access Agency" is not a 24 hour operation, it shall provide a phone number(s) and have a contact person(s) available during off-duty hours to immediately check records and reply if another agency receives a NCIC/CIB hit and requests confirmation of wanted/stolen/missing status. (NCIC/CIB policy requires a ten (10) minute hit response for urgent requests.)
- 7) The "Indirect Access Agency" shall maintain accurate logs and proper hard copy documentation to have available for CIB and NCIC audits.
- 8) The "Indirect Access Agency" shall ensure all personnel with access to criminal justice information have undergone the required background check, including submission of fingerprints to the FBI/CIB, and have completed the required security awareness training.
- 9) Each agency reserves the right to terminate this agreement with or without notice upon determining that the other agency has violated any law, rule or regulation concerning criminal justice information or violated the terms of this agreement.
- 10) Termination of this agreement shall not negate the obligation of either party to maintain records previously entered under this agreement to insure their accuracy, completeness and timeliness.
- 11) The "Indirect Access Agency" agrees to the above listed items as a condition to continue access to the TIME System and information through the "Access Agency".
