CRIME INFORMATION BUREAU

**ALL TRANSACTIONS SENT ON THE TIME SYSTEM MUST
DEAL WITH AUTHORIZED LAW ENFORCEMENT OR
CRIMINAL JUSTICE RELATED MATTERS**

TIME System Operator Training Policy

Any individual who uses a TIME System terminal must be trained in the operation of the device, system policies, and procedures. In addition, all personnel with unescorted access to terminal areas and/or areas where TIME System information is stored must receive security awareness training. Security awareness training must occur before assignment to a position that gives access to Criminal Justice Information, and annually thereafter. Training for operation of the TIME system must be conducted within six months of employment. This training will include a test to affirm the operators' proficiency and knowledge of CIB, NCIC, and Nlets policies and procedures. All terminal operators will be re-tested biennially to reaffirm operating proficiency. The level of training should be based on system use.

TIME System Certification Levels

The Crime Information Bureau has designated levels of training, which require biennial recertification, and additional training classes that do not require recertification:

Security Awareness

This training reviews the basic security requirements that must be followed to gain access to the TIME/CJIS systems and information. It covers issues such as required background checks, physical security measures (logons, passwords, etc.), technical security requirements (encryption), and what to do in the event of a security incident. The CJIS Security policy requires that security awareness training be completed annually by all personnel who have access to criminal justice information. All employees who have access to criminal justice information and all appropriate information technology (IT) personnel shall receive security awareness prior to appointment or assignment. This course is designed for those who will not be attaining a TIME System certification but require security training.

Available online via TRAIN or a paper version is available on the CIB website,
<https://wilenet.widobj.gov>.

eTIME Certification

Instruction will include TIME System query functions to the data files. Currently eTIME provides access to the following files: driver's registration, vehicle registration, criminal history, DOC, DNR, CIB/NCIC wanted person, missing person, protection order/injunction, CCAP, NICS, Mental Health Records, stolen part, stolen article, stolen security, stolen/lost/felony/recovered guns, and other CIB/NCIC hot files. This certification does not authorize the individual to operate mobile data computers with MDC, full query, or full access capabilities.

Available online via TRAIN.

Online: To achieve a full eTIME Certification online requires completion of Modules 1, 2, 3 and 5; however, users may certify in only the modules applicable to their job duties. Student must pass test questions included in each module.

Mobile Data Operator Certification

The material will include file queries only; it will not include entries or updates. This certification authorizes the individual to operate terminals/computers with eTIME access, MDC access and perform transactions available for MDCs on full access terminals.

Available online via TRAIN or in a classroom environment.

Classroom: Taught by Agency Assigned Instructors (AAI) who are TIME System Basic or Advanced certified and have received specialized training from a CIB training officer. Students must pass a written examination.

Online: To achieve an MDC certification online requires completion of Modules 1 through 6. Student must pass test questions included in each module.

Basic

Instruction designed for beginning personnel who access the TIME System. This training will cover sending administrative messages, performing queries, interpreting queries, hit confirmations, liability, and security awareness. The user will learn about the databases used for queries including National Crime Information Center (NCIC), Crime Information Bureau (CIB), Department of Corrections (DOC), Department of Transportation (DOT), and Department of Natural Resources (DNR). Students should review the New Operator Handout prior to enrollment. A master copy of the New Operator Handout is available at www.wilenet.widoj.gov.

Available online via TRAIN or in a classroom environment.

Classroom: Instruction consists of a two-day (8:30 a.m. - 4 p.m.) session. Students must pass a written examination.

Online: To achieve a Basic certification online requires completion of Modules 1 through 8. The student must pass test questions included in each module.

Advanced

Instruction designed for personnel who will perform entry, modify, supplemental and cancel transactions. Training includes record entry and cancel procedures for the Wanted Person file, Missing Person File, Stolen Vehicle File, Stolen Part File, Gang File, Threat Screening Center File, Protection Order File, Identity Theft File, Violent Person File, NICB Impound File, Detainer File, and NCIC Stolen Property Files. Modifying and supplementing these files is also covered. Students must have successfully completed the Basic Certification before attending Advanced training.

Available online via TRAIN or in a classroom environment.

Classroom: Classroom instruction consists of a two-day (8:30 a.m. - 4 p.m.) session. Students will then have 30 days to complete a project consisting of six parts to test their abilities with entries, modifications, supplementations, and cancellations.

Online: Advanced online training consists of three (3) instructional modules. Students will then have 30 days to complete a project consisting of six parts to test their abilities with entries, modifications, supplementations, and cancellations.

Additional TIME System Training

Inservice/Recertification

Inservice training includes a review of select TIME System topics. These topics include updates, new information, or frequently asked questions. The recertification examination is a biennial examination for certified operators who have received a Wisconsin Department of Justice certification. NCIC requires that all operators be re-certified biennially, based upon the date of their last certification.

Available online via TRAIN only.

Online: An annual in-service module is available online via TRAIN. Specific recertification examinations for MDC, Basic, and Advanced operators are also available online. Recertification for eTIME operators requires the recompletion of the appropriate modules.

Validation/Quality Control Training

This specialized training program is designed for persons assigned the duty of Validation Officer. The training includes all functions of verifying computerized records, including contacting the Clerk of Courts and complainants to determine the records are still active or valid. Instruction includes an explanation of the audit program and what documentation will be needed for the audit; file validation procedures; quality control and serious error notices. Every agency validating records in the TIME/NCIC System must have an individual assigned as a Validation Officer. CIB recommends that Validation Officers attend training every five years.

Available in a classroom environment only.

Classroom: Classroom instruction consists of a one-day (8:30 a.m. - 4 p.m.) session.

MDC/Basic Instructor Certification

This special certification is designed for persons in good standing with Criminal Justice agencies and at least three years of experience with the TIME System (Basic or Advanced Certified). The documentation required for this is 3 letters of recommendation from your agency administrators, a certificate of completion of an Instructor Development Course and of course a willingness to complete training for Basic/MDC TIME Certification for the department. Instructor must maintain their level of Basic or Advanced certification in order to sustain the instructor certification. Agencies interested in additional information should contact CIB via email at CIBTRAIN@doj.state.wi.us.

Advanced Instructor Certification

This special certification is designed for persons in good standing with Criminal Justice agencies and at least three years of experience with the TIME System (Advanced Certified). The documentation required for this is three letters of recommendation from your agency administrators, a certificate of completion of an Instructor Development Course and a willingness to complete training for Advanced TIME Certification for the department. Instructor must maintain their level of Advanced certification in order to sustain the instructor certification. Agencies interested in additional information should contact CIB via email at CIBTRAIN@doj.state.wi.us.

TAC Training (TIME Agency Coordinator)

A specialized training program designed for persons who serve as the point of contact at their local agency for matters related to CJIS information access. The TAC administers the TIME system programs within the local agency and oversees the agency's compliance with CJIS system policies assigned the duty of TIME Agency Coordinator (TAC). Each agency having TIME System access must designate an individual employed by the criminal justice agency as the TAC. Any exceptions must be coordinated with and approved by CIB. The TAC serves as the liaison between the agency and the Crime Information Bureau. The training will familiarize TIME Agency Coordinators with all physical, personnel, computer and communications safeguards and security requirements in compliance with the Department of Justice, Crime Information Bureau, Criminal Justice Information Services Division (CJIS) and International Justice and Public Safety Information Sharing Network (Nlets) rules and regulations. The TAC has an important role in ensuring terminal operators are properly trained, certified, and re-certified. Instruction includes liability concerns relating to the state and national files, departmental responsibilities regarding hit confirmation and record keeping. Every agency must designate a person as TAC and this person must complete TAC training within 12 months of assignment. CIB recommends that TACs attend training every five years.

Available in a classroom environment only.

Classroom: Classroom instruction consists of a one-day (8:30 a.m. - 4 p.m.) session.

LASO Training (Local Agency Security Officer)

LASO training shall be required prior to assuming duties and annually thereafter. At a minimum, the following topics shall be addressed as enhanced security awareness training for a LASO:

1. The roles and responsibilities listed in CJIS Security Policy Section 3.2.9.
2. Additional state/local/tribal/federal agency LASO roles and responsibilities.
3. Summary of audit findings from previous state audits of local agencies.
4. Findings from the last FBI CJIS Division audit of the CSA.
5. Most recent changes to the CJIS Security Policy.

Available online via TRAIN.

Online: An annual training module is available online via TRAIN.

SYSTEM SECURITY

The TIME/NCIC Systems are criminal justice computer networks that provide access to sensitive and confidential information, such as driver's license records, criminal history records, wanted person records, etc. This information must be protected from those who would try to gain unauthorized access to the system and those who would use information obtained from the system for unauthorized purposes.

Various agencies have agreed to make their information available to law enforcement and criminal justice agencies via the TIME and NCIC Systems for the specific purpose of facilitating the administration of criminal justice. Any misuse of this information or violation of system policies, jeopardizes the availability of information for all participating agencies.

The FBI's CJIS Security Policy establishes *minimum* information security requirements to protect information sources, transmission, storage, and creation of criminal justice information. The TIME System has adopted the CJIS Security Policy as the TIME System Security Policy. Each agency and user accessing the system is responsible for ensuring the security of the system and criminal justice information.

Authorized Personnel

TIME/NCIC System information is only to be used by *authorized* law enforcement/criminal justice personnel for law enforcement/criminal justice purposes as outlined in the CJIS Security Policy. Authorized personnel are those that have unescorted access to the physically secure location. Authorized personnel are required to undergo a fingerprint-based background check, complete security awareness training, and appear on the agency's list of authorized personnel.

System Usage

TIME/NCIC System information is **only** to be used by authorized law enforcement/criminal justice personnel for law enforcement/criminal justice purposes. Both conditions must be met. For example, a law enforcement officer may not obtain license plate/vehicle registration information for personal reasons.

Each criminal justice agency authorized to access the TIME/NCIC Systems is required to have a written policy for discipline of policy violators. Misuse of the TIME System or information obtained from it may be a violation of state or federal laws, and violations may subject individuals and agencies to criminal prosecution and/or other penalties. The unauthorized request, receipt, or release of TIME/NCIC System information can and *has* resulted in criminal/civil proceedings.

Physical Access & Visitors

Agencies must control all entrances to the secure area, and verify that an individual qualifies for access, before granting admission. Remember, authorized personnel are those that have undergone the required fingerprint-based background check, completed security awareness training and appear on the agency's list of authorized personnel. If a person has not met these requirements, they may only access the secure area if they are escorted by authorized personnel.

Before granting a visitor escorted access to the secure location you should verify the visitor's identity. Visitors must be escorted at all times, and visitor activity must be monitored.

Personnel should be aware of their surroundings and take steps to ensure unauthorized persons do not access criminal justice information or the TIME/NCIC Systems. This may include challenging or questioning unescorted subjects, verifying credentials of strangers, and/or ensuring visitors and other unauthorized users are not looking over someone's shoulder to get information. Numerous techniques and tools exist to help ensure the security of data. These may include the use of screensavers, screen shields, terminal location, and positioning, etc.

Agency personnel should ensure that all people abide by entrance and exit procedures, visitor control, handling procedures, and access control points. Personnel should report violations or suspected violations, including areas that may not be secure.

Using publicly accessible computers to access, process, store or transmit criminal justice information is prohibited. Publicly accessible computers include but are not limited to hotel business center computers, convention center computers, public library computers, public kiosk computers, etc.

Logins

A unique login ID is required for each individual who is authorized to store, process, and/or transmit criminal justice information. This includes all persons who administer and maintain the system/network that accesses and/or transmits TIME/NCIC information. Users are required to uniquely identify themselves before they are allowed to perform any actions on the system.

By logging into and accessing the system and the information contained therein, users are signifying their agreement to abide by all system policies and procedures and acknowledging the possible consequences of misuse of system resources or criminal justice information. *Users should protect their logins and not share them with anyone.* Users are responsible for any and all system activity that happens under their login.

If a user is unable to login after five (5) consecutive invalid access attempts, their account will be automatically locked until released by an administrator. In addition, the system will initiate a session lock after a maximum of thirty (30) minutes of inactivity. The session lock will remain in effect until the user once again establishes access using appropriate login and authentication. In the interest of officer safety, devices that are part of a criminal justice vehicle, used to perform dispatch functions or designated solely for the purpose of receiving alert notifications, are staffed when in operation and located within a physically secure location are exempt from this requirement.

Passwords / Memorized Secret Authenticators

The CJIS Security Policy uses the term Memorized Secret instead of password. However, for this document we will continue to use the term password. Passwords used to access the TIME/NCIC Systems must meet specific security requirements, as presented in IA5-1A (Identification Authentication) of the CJIS Security Policy.

Note: If chosen by the subscriber, passwords SHALL be at least 8 characters in length.

For a complete list of requirements for passwords, please refer to the CJIS Security Policy Section IA5-1.

Users should protect their passwords and not share them with anyone. System users should be aware of subjects attempting to obtain computer system access or password/login information by using 'social engineering'. Social engineering means manipulating people into doing something or divulging confidential information. This may include emails from unknown sources, email attachments containing spyware programs, telephone callers purporting to be from another

authorized agency, etc. When in doubt, system users should verify the source or identity behind the email, telephone call, etc. before potentially misusing system resources or providing criminal justice information to unauthorized subjects.

Proper Handling of Criminal Justice Information

Information obtained via the TIME/NCIC systems, whether in physical or digital format, must be stored in a secure area accessible only to authorized personnel. Criminal justice information obtained from the TIME/NCIC Systems should remain in the secure area unless there is specific authorization and procedures for removing information from the secure area. Agencies must physically control and securely store digital and non-digital media within physically secure locations or controlled areas and encrypt CJI on digital media when physical and personnel restrictions are not feasible. Agencies must protect system media until the media is destroyed or sanitized.

When TIME/NCIC information (paper or digital) is transported outside of the secure areas it must continue to be protected. Thus, transport of TIME/NCIC information is restricted to authorized personnel. Agencies must protect and control digital and non-digital media to prevent compromise of the data during transport outside of the physically secure locations or controlled areas. Digital media shall be protected by using encryption. Physical media must be protected at the same level as the information would be protected in electronic form. Agencies must maintain accountability for system media during transport outside of the physically secure location or controlled areas as well as document activities associated with the transport of system media and restrict the activities associated with the transport of system media to authorized personnel.

Physical media will be securely disposed of when no longer needed for investigative or security purposes, whichever is later. Physical media will be destroyed by crosscut shredding or incineration and agencies must employ sanitization mechanisms with the strength and integrity commensurate with the security category or classification of the information. Digital media storing TIME/NCIC information (hard drives, flash drives, CD's, etc.) must be sanitized or degaussed using approved sanitizing software that ensures a minimum 3-pass wipe. Inoperable digital media should be destroyed (cut up, smashed, shredded, etc.). The sanitization, disposal, and destruction of TIME/NCIC information must be witnessed or carried out by authorized personnel to avoid the possibility of inadvertent release of system information to unauthorized persons.

Agencies must restrict the use of digital and non-digital media on agency owned systems that have been approved for use in the storage, processing, or transmission of criminal justice information by using technical, physical, or administrative controls. Agencies must prohibit the use of personally owned digital media devices (i.e. USB/flash drives, external hard drives, etc.) on all agency owned or controlled systems that store, process, or transmit CJI. Agencies must prohibit the use of digital media devices on all agency owned or controlled systems that store, process, or transmit CJI when such devices have no identifiable owner.

Agencies must have policies and procedures related to media protection. There must be an agency-level media policy that conforms to applicable laws, and establishes purpose, scope, roles, responsibilities, management commitment, coordination among agency entities, and compliance. All agency personnel must be aware of the media protection policies and procedures. Agencies must review and update these policies and procedures at least once a year and following any security incidents involving digital or non-digital media. Agencies must designate an individual with security responsibilities to manage the development, documentation, and dissemination of the media protection policy.

Dissemination of Criminal Justice Information

Any individual authorized to use the TIME/NCIC System who receives a request for system information from another individual must ensure the person requesting the information is authorized to receive the data. The correct Originating Agency Identifier (ORI) must be used in each transaction to identify the agency receiving the information to ensure the proper level of access for each transaction.

Each data service has its own rules for secondary dissemination of records, which may include requirements for logging, identification of the purpose of the request, and identification of the specific individual receiving the record. Most records may be legitimately disseminated to another criminal justice employee/agency when the purpose of the request is criminal justice related.

Any secondary dissemination of this information must meet state and federal statutes and/or regulations.

Criminal justice information obtained from the TIME/NCIC Systems may not be included in an internet email transmission unless the email is encrypted to the FIPS 140-2 standard. When email contains sensitive information, it should be standard practice to label those items as well.

Voice transmission of criminal justice information (via police radio, cellular phone, etc.) is exempt from the encryption and authentication requirements when an officer determines there is an immediate need for the information in a situation affecting the safety of the officer or the general public, or the information is needed immediately to further an investigation.

Fax transmission of criminal justice information is acceptable with certain encryption specifications. Fax transmission of criminal justice information over a standard phone line is exempt from encryption. If a facsimile server, application of service which implements email-like technology to send CJI to an external physically secure location, encryption requirements for CJI in transit must be met.

Criminal Justice Information that is introduced to the court system pursuant to a judicial proceeding and that can be released to the public via a public records request is not subject to the CJIS Security Policy.

Security Incidents & Response

A security incident is a violation or possible violation of policy that threatens the confidentiality, integrity, or availability of criminal justice information. There has been an increase in the number of accidental or malicious computer attacks against both government and private agencies, regardless of whether the systems are high or low profile.

Indicators of a security incident may include system crashes without a clear reason, new files with novel or strange names appearing, changes in file lengths or modification dates, unexplained poor system performance, etc.

Personnel should know how to report a security incident, who to report an incident to, when to contact that person, and what basic actions to take in case of a suspected compromise of the system. This may include contacting a supervisor, contacting on-call information technology staff, disconnecting the affected computer from the network, etc.

Agency staff should document any security incidents/possible security incidents, and promptly report incident information to the Crime Information Bureau. Evidence of the security incident may need to be collected and retained to conform to the rules of evidence in case of legal action (either civil or criminal).

Agencies must monitor physical access to the information system to detect and respond to physical security incidents, and wherever feasible the agency shall employ automated mechanisms to make security alert and advisory information available throughout the agency as appropriate.

Virus/Spam/Spyware & Malicious Code Protection

To ensure information security, agencies connecting to the TIME/NCIC Systems are required to have in place malicious code protection, virus protection, spam protection and spyware protection. Users should be cautious when downloading internet content or clicking on web-based pop-ups/windows, unknown emails, email attachments or embedded objects. Removable devices such as flash drives, CDs, etc. may expose your system to viruses or malware. Caution should be used before they are introduced to the system. The use of personally owned digital media devices as well as devices that have no identifiable owner is prohibited on all agency owned or controlled systems that store, process or transmit criminal justice information.

Technical Considerations

Mobile Devices – Handheld Devices, Laptops, etc.

As digital handheld devices continue to become more integrated into the mobile workforce, security measures must be employed since such devices may be used outside of physically secure locations. Wireless devices, even in physically secure areas, are susceptible to penetration, eavesdropping and malware. Furthermore, compromised or lost wireless devices may introduce risk to the overall security of an agency's network, criminal justice information and/or the TIME/NCIC Systems. The use of digital handheld devices and/or laptops to access TIME/NCIC information is allowed, provided the agency implements the security requirements for such access as outlined in the CJIS Security Policy. This may include mobile device management, advanced authentication, encryption, security-related updates, official use guidance, data at rest encryption, and prevention of data compromise in case of possible loss of the device. The requirement to use or not use advanced authentication is dependent upon the physical, personnel and technical security controls associated with the user location as specified in the CJIS Security Policy.

Personally owned devices are prohibited from accessing, processing, storing, or transmitting criminal justice information.

A personal firewall must be employed on all devices that are mobile by design (i.e., laptops, handhelds, personal digital assistants, etc.).

Mobile devices used to access the TIME/NCIC Systems may be agency-owned or personally owned. Personally owned devices (tablets, laptops, etc.) used to access the TIME/NCIC Systems or used to access data obtained from those systems must meet all the requirements set forth in the CJIS Security Policy. Agencies wishing to use personally owned mobile devices for system access must first document the specific terms and conditions for such use. Such documentation should consider licensing issues, agency control, security requirements, and sanitization of the device if the owner no longer carries out law enforcement duties, etc.

Account Management

User logins/accounts should be kept current. When a user is terminated, leaves employment, or job duties no longer require TIME/NCIC System access the user's system account must be disabled. An agency must validate system accounts at least annually.

User TIME/NCIC accounts will be assigned according to the principle of 'least privilege'. Least privilege means giving a user account only those privileges which are essential to perform assigned duties. Assigned authorizations will control access to the system and system information.

Users may only have one active computer session accessing the TIME/NCIC Systems at a time. Multiple concurrent active sessions for one user are prohibited unless the agency can document a business need for such multiple session access.

System Updates

Malicious code protection, virus protection, spam protection and spyware protection must be in place at critical points throughout the networks and on all workstations, servers, and mobile computing devices on the network. Malicious code protection must be enabled and must include automatic updates for all systems with internet access. Agencies with systems not connected to the internet must implement local procedures to ensure malicious code protection is kept current (i.e., most recent definitions update available). Resident scanning must be employed.

Agencies must monitor applications, services, and information systems containing software or components affected by recently announced software flaws and potential vulnerabilities resulting from those flaws. System patches shall be installed in a timely manner.

Backup & Storage Procedures

Agencies must consider the requirements for secure storage of electronic media and hardware containing criminal justice information, and ensure that such backup procedures, archiving, and storage, whether centralized or de-centralized (off site) meet the security requirements outlined in the CJIS Security Policy.

TIME SYSTEM SANCTIONS POLICY

The TIME Advisory Committee has approved the following sanctions. The Crime Information Bureau (CIB) is the CJIS Systems Agency and will:

Cancel the records of a TIME System user who has not completed the 30-day validation certification.

Deactivate the ORI of an agency that fails to comply with triennial audits.

1. Verbal request from CJIS Systems Agency (CSA) to comply
2. Written request from CJIS Systems Officer (CSO) to comply
3. Written notice of intent to deactivate ORI
4. Written notice of deactivation

Deactivate an individual's access who fails to meet training and certification requirements.

Deactivate the ORI of an agency that fails to pay TIME System fees.

1. Verbal request from CJIS System Agency to comply
2. Written request from CJIS Systems Officer to comply
3. Written notice of intent to deactivate ORI
4. Written notice of deactivation

Take other administrative action appropriate to the particular circumstances, when necessary, to protect system integrity or public safety.

If an agency observes or notes a possible security problem, contact should be made as soon as possible with the TIME System Control Center who will notify the Wisconsin Information Security Officer (ISO).

TIME SYSTEM CONTROL CENTER

Every state has a Control Center that is responsible for operating and maintaining its law enforcement telecommunications system 24 hours a day, seven days a week. The Control Center is also responsible for monitoring transactions being sent on the system, as well as assisting agencies with problems they may be experiencing with their terminals.

Wisconsin's Control Center is located in the Justice Center in Madison and is called the TIME System Control Center (TSCC). If an agency needs to contact the Control Center, they can send an administrative message using the destination mnemonic "TSCC", or by calling (608) 266-7633.

There are certain transactions that can only be sent by "TSCC". Some of these are: Locate placements, All Points Broadcasts and INFO broadcasts.

If an agency needs to contact another state's Control Center, they can do so by sending an administrative message using that state's two-character state code as the destination, e.g., "MN", "IL", etc. If a message needs to be sent to the Canadian Control Center, use "CN" as the destination.

ADMINISTRATIVE MESSAGES

The following types of administrative messages are **PROHIBITED**:

1. Announcements of social affairs, retirement parties and/or labor-management affairs, as well as seasonal goodwill messages.
2. Messages supportive or in opposition to political issues, labor-management issues, legislative bills, or announcements of meetings relative to such issues.
3. Messages relating to the advertisement of equipment for sale.
4. Messages relating to requests for information concerning recruitment of personnel, job announcements, interviews, salaries, uniforms, personnel, or other related items which can routinely be obtained by correspondence or other means.
5. No routine broadcasts of wanted/missing persons or stolen property if can be entered into NCIC.
6. Solicitation of funds.
7. No NLETS training messages that include the name of a company that is providing the training unless the company is not-for-profit and is providing a direct service. Training announcements may be sent using regional broadcast codes to states in geographical proximity of the sender only.
8. Requests for/replies to requests for criminal history record information.
9. Excessively long messages or messages that are incomplete (contain insufficient information for action requested).
10. Attempt to locate vehicle for breach of trust (without a warrant).
11. Messages regarding stolen property when the complainant is only seeking recovery of the property.

ALL POINTS BROADCASTS (APBD's)

TIME System users do not have the capability to send statewide messages, otherwise known as all points broadcasts (APBDs). **All requests for nationwide or statewide APBDs MUST be directed to the TIME Control Center (TSCC) and must be of significant importance to law enforcement.** The request for the APBD will be evaluated and approved if the message falls within one of the following categories.

If your agency needs to request a broadcast in a specific state, send a message to that state's control terminal. For Canada-wide broadcasts, the request must be sent to INTERPOL in Washington, D.C. (DCINTER00). If an out-of-state agency contacts your agency requesting a broadcast, refer them to TSCC.

CATEGORIES OF APBD

1. Death or aggravated battery to law enforcement officials involving a person at large. An adequate physical description of any suspect and/or vehicle is required. "Adequate" means enough information to recognize the person or vehicle if seen.
2. Felonies involving armed or believed to be armed fugitive(s). An adequate physical description of the fugitive and/or vehicle is required.
3. Escapees from custody. This includes all escapees from: officer custody, city and county jails, prisons, detention homes or centers, work camps, and juvenile facilities.
4. Death and funeral notices of actively or formerly employed law enforcement officials. Wisconsin APBD's may also include public safety officials.
5. Attempts to Locate (ATL)
Where foul play is suspected or known and is so specified. An adequate physical description of the person and/or vehicle is required.
For death or serious illness message delivery only if the direction of travel is unknown. If the direction of travel is known, the requesting agency must send messages to the specific agencies along the route of travel (an area/highway broadcast may be used under appropriate circumstances).
6. A missing person or runaway will not generally be sent state or nationwide as an attempt to locate.
7. Found unidentified bodies or body parts must be entered into NCIC prior to the broadcast request.
8. Severe weather warnings and disaster alerts.

9. Information that has statewide or nationwide law enforcement significance.

Description of the method of operation (M.O.) requesting information on similar cases or alerting other agencies to be aware of the same.

Request for information on a person in custody refusing to cooperate by not giving name, etc. The requesting agency can ask for assistance based on a description of the person and circumstances surrounding the case.

If the request concerns stolen property that cannot be entered into CIB/NCIC. The list of property items must have state or nationwide significance and be condensed into no more than 15 lines of text. Give general descriptions without listing all of the quantities.

Any information that cannot be entered into CIB/NCIC and is pertinent to a criminal investigation that would be of interest to state or nationwide law enforcement agencies.

If the APBD request falls within one of the regulations and there is information in the APBD that qualifies for entry into any of the data files, the APBD will not be approved until the applicable data has been entered into CIB and/or NCIC.

The restrictions listed above have been adopted for APBDs. Recognizing that there may be circumstances where the seriousness of the situation overrides the normal policy prohibitions, the restrictions may be waived under the following conditions:

- A user has information that is pertinent to a criminal investigation that is of interest to **all** states and cannot be entered into NCIC.
- A user has information regarding kidnapping, skyjacking, or other serious criminal acts.
- A user has information on a wanted person that cannot be entered into NCIC but is of interest to **all** states.

NTOS Messages

The National Threat Operations Section (NTOS) mission is to protect the nation by serving as the primary communication channel through which the public provides information pertaining to federal criminal investigations and threats to national security.

NTOS provides state and local tip information directly to respective agencies via Nlets Administrative messages. These messages contain information that does not rise to a federal investigation level but may be related to your agency's law enforcement functions. NTOS does not require any action. It will be an internal agency decision on how to use the information provided in the administrative messages.

Based on the information provided, agencies can choose to open new investigations in their area, aid in current investigations and/or provide awareness for officer safety.

IMMINENT THREAT TO LAW ENFORCEMENT (ITLE)

An Imminent Threat to Law Enforcement (ITLE) administrative message can be broadcasted statewide to law enforcement only. The following criteria must be met to qualify as an ITLE message:

1. Threat to cause death or serious injury to a law enforcement officer
2. Death or serious injury of a law enforcement officer in the line-of-duty
3. Law enforcement officer missing in connection with official duties

Use the mnemonic ITLE to send the message.

AMBER ALERT

The purpose of the AMBER Alert is for the safe recovery of missing children that a law enforcement agency believes have been abducted and are in danger of serious bodily harm or death. Criteria:

1. Child must be 17 years of age or younger
2. Child must be in danger of serious bodily harm or death.
3. Initiating agency must have enough descriptive information about the child, the suspect(s) and/or the suspect vehicle(s) to believe an immediate broadcast alert will help locate the child.
4. The missing person shall be entered into NCIC.

Responses will be preceded by the following caveat:

AMBER ALERTISSUED FOR NIC/MXXXXXXXXXX***AMBER ALERT ***

Amber Alert request should be sent to the Wisconsin Department of Justice Division of Criminal Investigation (DCI). Please contact Wisconsin State Patrol to initiate 844-XXX-XXXX.

SILVER ALERT

The Silver Alert legislation requires law enforcement to issue a Silver Alert when the following criteria are met:

1. The missing person is 60 years of age or older.
2. The missing person is believed to have Alzheimer's, Dementia, or another permanent cognitive impairment which poses a threat to their health and safety.
3. There is reasonable belief that the missing person's disappearance is due to their impaired cognitive condition.
4. The Silver Alert request is made within 72 hours of the individual's disappearance.
5. There is sufficient information available to disseminate to the public that could assist in locating the missing person.
6. The missing person has been entered into NCIC.

Silver Alert requests should be sent to the Wisconsin Department of Justice Division of Criminal Investigation (DCI). Please contact Wisconsin State Patrol to initiate 844-XXX-XXXX.

Missing Child ALERT

Wisconsin legislation expanded the definition of a “person at risk” to include children in order to cover gaps in the Amber Alert criteria. The following are the criteria for a Missing Child Alert:

1. The person at risk has not attained the age of 18 years, AND the person is believed to be incapable of returning home without assistance due to a physical or mental condition or disability.
2. The individual(s) location is unknown.
3. It is within 72 hours of the individual's disappearance.
4. Their situation does not qualify for another alert (e.g., Amber Alert)
5. OR the person has not attained the age of 10 years.
6. The missing person shall be entered into NCIC.
7. There is sufficient information available to disseminate to the public that could assist in locating the missing person.

Statute requires that the Wisconsin Crime Alert Network (WCAN) be utilized when issuing a Missing Child Alert. The process to issue a Missing Child Alert will be identical to issuing a Silver Alert. **Only the Division of Criminal Investigation (DCI) can issue a Missing Child Alert.**

To request a Missing Child Alert, contact Wisconsin State Patrol Traffic Management Center where you will provide your agency contact information. A DCI Staff on-call person will contact your agency to discuss the request. There are no forms to fill out prior to contacting State Patrol. If the Missing Child Alert has been approved, a Wireless Emergency Alert (WEA) will be issued up to a maximum of 5 miles radius from the last known location and only between the hours of 8am-9pm.

US Marshals Missing Child Program

The U.S. Marshals Service (USMS) supports the National Center for Missing and Exploited Children's (NCMEC's) mission to protect children from victimization by providing assistance to federal, state and local law enforcement agencies. The Justice for Victims of Trafficking Act of 2015 enhanced the U.S. Marshals' authority to assist federal, state and local law enforcement with the recovery of missing, endangered, or abducted children, regardless of whether a fugitive or sex offender was involved.

The Marshals established a Missing Child Unit to oversee and manage the implementation of its enhanced authority under the act. Upon request, the Marshals assist other law enforcement agencies with the recovery of “critically missing children,” who have gone missing under circumstances that indicate an elevated risk to the child.

In order to get the USMS involved, they request the following:

1. The child must be entered into NCIC
2. There must be a request / approval from the entering law enforcement agency
3. Access to police reports, case notes and photos
4. Risk factors should be articulated
5. The agency's recovery plan
6. Intake case with NCMEC (recommended, not required)

In order to contact the US Marshal Service Missing Child Unit, agencies can email MissingChildUnit@usdoj.gov or contact their local USMS office, which can be found here: <https://www.usmarshals.gov/who-we-are/contact-us/district-office-contact-information>.

GREEN ALERT

The Green Alert is for missing veterans who have a service-related health condition. The Green Alert does not require an approval process through DCI. The following criteria should be met when issuing a Green Alert:

1. There is reason to believe that the veteran at risk is missing due to his/her physical or mental health condition.
2. There is sufficient information available to disseminate that could assist in locating the missing veteran.
3. The missing person shall be entered into NCIC

Statute requires that the Wisconsin Crime Alert Network (WCAN) be utilized when issuing a Green Alert; and it is strongly recommended that an area broadcast or statewide message be sent.

GENERAL BROADCAST AREAS

The state has been divided into geographical areas for TIME System messages (listing is by county but includes all jurisdictions with TIME access within the county). All areas include the TIME System Control Center (TSCC) automatically. Agencies may send messages up to 8 general broadcast areas in one transaction. Agencies should not attempt to send statewide messages to all 9 regions without first contacting TSCC for a statewide broadcast. For example: Agencies should not first send a message to 5 regions and then send the same message to the remaining 4 regions. Mobile terminals may not initiate area broadcasts. Use the four-character mnemonic following the area name to send administrative messages to all agencies listed in the area.

The same categories and rules used for all points broadcasts are to be used when considering an AREA broadcast; the difference being that the information in the message pertains to a specific area of the state rather than having state or nationwide significance.

In addition to the general prohibitions listed earlier, the following restrictions apply for the use of in-state area broadcasts:

- No broadcasts for routine stolen or lost license plates.
- All announcements of training being hosted or sponsored by the originating agency must be sent to the broadcast area TRNG. An agency may transmit up to three training announcements for each training session to be held. The receipt of TRNG training broadcasts is entirely voluntary. Your TIME Agency Coordinator (TAC) can request to have terminals added or removed from the TRNG broadcast group.
- Messages seeking jail bed space or notifying agencies of the availability of the same must use area sheriff's broadcast mnemonics.

The area broadcast can be sent by an individual agency, it is not to be requested through TSCC.

ADMINISTRATIVE MESSAGE FORMAT

Administrative messages must follow a specific format. The following are the various parts of the administrative message:

- Header: Destination – directs the message to its proper destination. The header consists of the destination agency Mnemonic, Physical Station Number (PSN) or NCIC Agency Identifier (ORI).
- Attention: Designate whom in the department the message is intended for. Messages may be directed to a specific section or person within that department.
- Reference: (General purpose of the message) May also be used when there have been previous messages on the same topic or situation. List the original message number(s) and date(s). When sending an administrative message, Portal XL users may designate their message as 'urgent' by simply typing the word "URGENT" as the first item in the reference line of the message. Hit confirmation requests and responses will always carry an 'urgent' notifier. Designating a message as 'urgent' will cause an audible noise to be played when the message is received at another terminal. In addition, there will be a visual notification displayed on the receiving terminal indicating an urgent message has arrived.
- Text: (Body of the message) Be brief but give complete details and describe the action requested. Avoid the use of ten codes and sayings like "BOLO". Persons or property that qualify for entry must be entered into the data files prior to sending an administrative message pertaining to them.
- When sending an emergency message that requires immediate action on the part of the receiving agency, an acknowledgement of the receipt of the message should always be requested. The request for receipt of acknowledgement should be included in the text of the message. If an acknowledgement is not received within a reasonable amount of time, follow-up contact should be made with the receiving agency to ensure the message was received. Keep messages as brief as possible.
- Authority: (Complete name of your department) Include city, state, and your agency's NCIC Agency Identifier for out-of-state messages.
- Operator: (The individual sending the message)

IN-STATE

SINGLE DESTINATION

- One destination Mnemonic or Physical Station Number (PSN). Messages sent to a mobile terminal must be addressed by physical station number (PSN).
- Uses: Message to specific agency or terminal, e.g., "TSCC," "DASO," "1856".
Message to an AREA/HIGHWAY/TRANSPORT, e.g., "SCAR", "NWAR".
- Mobile terminals may send messages to one terminal only.

MULTIPLE DESTINATIONS

- Maximum of ten destination Mnemonics and/or PSN' s.
- Uses: Message to multiple specific agencies.
Message to multiple AREAS/HIGHWAYS/TRANSPORT, up to 8.

SINGLE DESTINATION TO NON-TERMINAL AGENCY

- One destination NCIC Agency Identifier.
- Use: Message is routed to the agency that handles TIME system functions for the on-terminal agency.

OUT-OF-STATE:

MULTIPLE DESTINATIONS

- Maximum of ten destination NCIC Agency Identifiers.
- Use: Message to specific out-of-state (including Canadian) agencies.

COMBINATION IN-STATE AND OUT-OF-STATE/CANADA:

- Maximum of ten destination Mnemonics, PSN's and NCIC Agency Identifiers.
- One in state and one out-of-state or Canadian destination required.
- Use: Message to in-state & out-of-state and/or Canadian agencies, e.g.,
Attempt to Locate in Superior, WI (SUPD), Duluth, MN (MN0690600)
and Toronto, Ontario (ON3057000).

NLETS STATES/REGIONS AND CANADIAN PROVINCES

MULTIPLE DESTINATIONS

- Maximum of five two-character state, region, or Canadian destinations.
- Message is routed to the Control Center of specified state(s) or Canada.
- Uses: APBD request to specific state(s) (not including Canada).
Request for additional information. Assistance in interpretation of records.

NLETS REGIONS

Nlets has divided the states and territories of the U.S. into eight regions. When a region code is used, the message will be directed to the State Control Center of each of the states within that region. The Control Center will then direct the message to the proper terminals. Requests for APBD's can be sent to regions. Region codes may also be used (instead of two-character state codes) for driver's license queries by name, sex, race and date of birth and vehicle registration queries by vehicle identification number or license plate number.

NOTE: A license plate query containing a region code in the License Plate State Field will be rejected by NCIC for stolen status. Each state registration file within the region will respond with a positive or negative response. Once the state of registration is determined, it should be re-queried to NCIC to check stolen status.

IN-STATE MANUAL TERMINALS

Normal business hours are Monday-Friday 7:45 a.m. to 4:30 p.m.

	<u>MNEMONIC</u>	<u>PSN</u>
DEPARTMENT OF TRANSPORTATION VEHICLE SECTION - *Provides "alpha checks" (RHAS-registration history abstract of vehicles listed to a subject). Minimum data: last name, first name and last known address or general address area. Provide as much data as possible for proper identification. Alpha checks, etc. are available using eTIME's open search feature, which is available 24x7. Please use the open search feature if possible, prior to contacting DOT.	WREG	1264
DEPARTMENT OF TRANSPORTATION DRIVER'S LICENSE SECTION - Provides certified copies of driver's records through WILENET (usually associated with court case). Requires: full name, sex, race, date of birth, driver's license number, date of violation and court date. - *To retrieve additional data or an explanation of the data (DHAS–driver history abstract). Minimum data needed: last name, first name, sex, approximate age, last known address, general address area and driver's license number if known. Partial license plate searches, etc. are available using eTIME's open search feature, which is available 24x7. Please use the open search feature, if possible, prior to contacting DOT.	WCNR	1280
DEPARTMENT OF NATURAL RESOURCES RECORDS SECTION - Provides additional information on snowmobiles, ATVs, and boats, including interpretation of DNR responses. May also be reached by telephone from 7am-10pm at 1-888-936-7463.	RDNR	6162
DEPARTMENT OF NATURAL RESOURCES LAW ENFORCEMENT DIVISION - Provides information pertaining to rules and regulations (hunting, fishing, licenses, etc.). May also be reached by telephone from 7am-10pm at 1-888-936-7463.	WDNR	6162

*After hours emergency requests, send to the State Patrol District in your area.

NLETS HELP FILES

The HELP Files are computerized informational messages prepared and updated by each state and housed at the Nlets computer. They advise the fields and codes required to access records in the different files, as well as provide an explanation and sample of how the files work and the output received. There are multiple HELP Files that can be accessed by using the appropriate file destination.

- | | |
|-----------------------|---|
| 1. XXOLNHELP- | DRIVERS LICENSE INFORMATION |
| 2. XXLICHELP - | VEHICLE REGISTRATION INFORMATION |
| 3. XXBASHELP- | BOAT AND SNOWMOBILE INFORMATION |
| 4. XXSIRHELP - | CRIMINAL HISTORY RECORD INFORMATION |
| 5. NLSIRHELP - | STATES PROVIDING AUTOMATED CRIMINAL HISTORY |
| 6. NLFLYHELP- | OFFICERS FLYING ARMED INFORMATION |
| 7. NLLPRHELP- | NLETS LICENSE PLATE RECOGNITION INFORMATION |
| 8. NXWTHHELP- | STATE PROVIDING AUTOMATED ROAD/WEATHER INFO |
| 9. XXGUNHELP- | CONCEALED CARRY INFORMATION |
| 10. XXSWQHELP- | STATE WANTED QUERY INFORMATION |
| 11. NLTSTHELP- | NLETS TEST RECORD INFORMATION |

(The **XX** at the beginning of the ORI should be replaced with the two-character state code.)

NLETS STANDARD ORIs

The following are manned terminals in each state that can be accessed when requesting additional information, explanations, or copies of records. These terminals may be accessed by administrative message, using the appropriate Nlets Standard ORI as the destination:

- | | |
|------------------------|---|
| 1. XXOLN0000 - | DRIVER'S LICENSE RECORD INFORMATION |
| 2. XXLIC0000 - | VEHICLE REGISTRATION INFORMATION |
| 3. XXVIN0000 - | VEHICLE IDENTIFICATION NUMBER INFORMATION |
| 4. XXBOAT000 - | BOAT REGISTRATION INFORMATION |
| 5. XXSNOW000- | SNOWMOBILE REGISTRATION INFORMATION |
| 6. XXSIR0000 - | CRIMINAL HISTORY RECORD INFORMATION |
| 7. VAFAM0199 - | LEO FLYING ARMED |
| 8. VANVS005V - | NATIONAL VEHICLE SERVICES |
| 9. DCFBIWA00 - | NCIC CONTROL |
| 10. DCINTER00 - | INTERPOL (Washington, D.C.) |
| 11. ON1005900 - | CPIC CONTROL/INTERPOL (Ottawa, Canada) |
| 12. NL0000000 - | NLETS COMMAND (Phoenix, Arizona) |

(The **XX** at the beginning of the ORI should be replaced with the two-character state code.)

For more information on Nlets, refer to the Nlets User guide: [Nlets User Guide : Nlets](#)

PERSON SEARCH TECHNIQUES

Query on: SMITH/JOHN/JOSEPH, MALE/WHITE, 01/01/50

NCIC

Soundex on Last Name – Upon request users may expand the name search; only if both the name and DOB are specified as search criteria. An expanded search will use each name part as the surname, while interchanging the remaining names as given names.

If the last name contains a hyphen (-), primary hits are determined by using each hyphenated name part as a last name as well as all combinations of the hyphenated name part. For example, a surname of Saenz-Parada-Lopez will be searched as Saenz-Parada-Lopez, Saenz-Lopez-Parada, Lopez-Parada-Saenz, Lopez-Saenz-Parada, Parada-Lopez-Saenz, Parada-Saenz-Lopez, Saenz, Parada, and Lopez.

Sex is sent to NCIC as unknown.

Exact match on month, day and year of birth with the capability to expand the DOB search. If requested the expanded search will return records with the exact date of birth of the inquiry as well as records with the exact month and day and a range of plus or minus 1 year of the date of birth.

NOTE: If the person is suspected of being a threat screening center member and if a no record is produced on the initial query, the same query should be conducted using the default DOB of **01/01/ (exact year of birth) and one additional numerical identifier**. Discretion should be used in making a determination as to whether the individual in question is in fact the subject of an NCIC record.

If the race code “W” is used all records with the race code “B” will be excluded. If the race code “B” is used all records with the race code “W” will be excluded. If any other race code is used, all race codes will be included in the search. CIB recommends using race code “U” (unknown) during queries.

CIB

Soundex on Last Name and First Name.

Exact match on Sex.

Date of birth plus or minus one year.

DOT

Soundex on all names.

Exact match on Date of Birth.

DNR

Exact match on Last Name, First Name and Date of Birth unless wild card character is used.

DOC

Soundex on all names.

Exact match on Sex.

Date of birth plus or minus one year.

WANTED PERSON QUERIES

Warrant/Wanted Person File

Four different options for querying the NCIC wanted person file are available. The default setting is all felonies & misdemeanors. Operators may choose what NCIC wanted person records are returned based on the type of warrant (felony/misdemeanor) and the extradition limitations field. It is recommended that searches be conducted for “All Felony & Misdemeanors”.

- All Felony & Misdemeanors - selecting this option will return all felony and misdemeanor records regardless of extradition. Not all records included may be actionable by the inquiring agency; however, the information returned may provide investigative leads.
- All Felony & Extraditable Misdemeanors - selecting this option will return possible extraditable misdemeanor records and all felony records.
- Extraditable Felony & Misdemeanors - selecting this option will limit responses to felony and misdemeanor records that are possibly extraditable.
- Felony Only - selecting this option will limit responses to only felony records regardless of extradition.

State Wanted Query

System users may also query another state’s in-state only wanted person database.

Why would a Wisconsin agency care about these wanted person entries, as they can’t take any enforcement action, since the warrants are non-extraditable?

While this information may not be valuable to an officer on a routine traffic stop, there are situations in which simply knowing the subject is wanted by an agency in another state may prove helpful to law enforcement personnel. For example, during criminal investigations or employment background checks it may be beneficial to law enforcement to know that outstanding warrants exist in other states. For example, an individual could be wanted in Illinois for the same offense they are being investigated for in Wisconsin, leading to contact between the two agencies proving beneficial to both.

The Portal XL and eTIME browser software include the ability for Wisconsin users to query other states in state warrants if that state supports these transactions. A query of the Nlets Help File, NLSWQHELP, will indicate which states participate.

NCIC SPECIAL RECORD HEADER

The following header may be found on any NCIC person record to advise when the subject of the record has been known to use or possess stolen or false identification documents. The difference between stolen/fraudulent identifiers and alias information is the subject possessed physical proof of the identifiers: i.e., stole a driver's license or created a fraudulent social security card. This is for informational purposes only.

WARNING - THE SUBJECT IDENTIFIED IN THIS RECORD NIC/W30XXX0846 IS
KNOWN TO USE THE FOLLOWING STOLEN OR FALSE (S/F) IDENTIFICATION
DOCUMENTS. USE CAUTION IN VERIFYING THE IDENTITY OF THIS PERSON.
S/F NAM/IDENT, FALSE
S/F NAM/PUBLIC, PETER
S/F DOB/19010201
S/F DOB/19020101
S/F SOC/777XX0000

The following Blue Alert caveat may be found on NCIC Missing Person, Wanted Person, Violent Person and Vehicle records. The Blue Alert is an advisory message to person and/or vehicle records to alert agencies to one of the below circumstances:

- 1) The serious injury or death of a law enforcement officer in the line-of-duty,
- 2) An officer who is missing in connection with the officer's official duties, or
- 3) An imminent and credible threat that an individual intends to cause the serious injury or death of a law enforcement officer.

Below are examples of the caveat for the different file types:

This message appears immediately below the Message Key (MKE) translation on all NCIC **Wanted Person** and **Violent Person** record responses.

BLUE ALERT WARNING. USE EXTREME CAUTION IN APPROACHING THIS INDIVIDUAL.

This message appears immediately below the Message Key (MKE) translation on all NCIC **Missing Person** record responses.

BLUE ALERT WARNING. THE INDIVIDUAL OF RECORD IS AN OFFICER MISSING IN THE LINE OF DUTY.

This message appears immediately below the Message Key (MKE) translation on all NCIC **Vehicle File (felony vehicle)** record responses.

BLUE ALERT WARNING. USE EXTREME CAUTION IN APPROACHING THIS VEHICLE.

A Blue Alert will also be noted in the first ten characters of the miscellaneous field:

MIS/BLUE ALERT

WISCONSIN DOT QUERIES

TIME System Access:

Questions about records from out-of-state users should be directed to WisDOT at terminal "WI013075V" for driver licensing or "WI013035V" for vehicle licensing and titling (not 24-hour terminals). Between 4pm-8am weekdays and on weekends questions should be directed to DOT at terminal "WIWSP0000".

Access to these files is for criminal justice purposes only due to the confidentiality of many record entries. The requirement for completion of the Federal Driver Privacy Protection Act (MV2896) form makes it necessary for other persons or agencies to deal directly with DMV.

DOT Law Enforcement Hotline Telephone Numbers:

Hotline telephone numbers are specifically designed to provide front of the line service to law enforcement personnel.

Under no circumstances should these hotline numbers be provided to anyone other than those it is meant to serve.

Driver licensing questions: (608) 267-1854

Vehicle questions: The Bureau of Vehicle Services does not have a hotline designated for law enforcement. Urgent requests that cannot be fulfilled using TIME or the open search feature of eTIME should be sent to terminal WI013035V, WIWSP0000, or mnemonic WREG. WisDOT requests that agencies use eTIME's Open Search capabilities for searching for owned/leased vehicles by owner's name.

Non-urgent record requests: Refer to <http://wisconsindot.gov/Pages/dmv/license-drvs/rcd-crsh-rpt/records.aspx>.

Self-service options for customers to obtain their own vehicle records or vehicle restriction information is available at <http://wisconsindot.gov/Pages/online-srvcs/online.aspx>.

Vehicle Information Search for Emergency (VISE): DOJ provides this capability to law enforcement; however, according to policy DMV will fulfill requests it receives. To obtain information when only partial vehicle or plate information is available, send an administrative message to **WI013035V** or **WREG** with the following:

1. Reason for request
2. Phone number and email of requesting agency/law enforcement personnel
3. Area(s) to check (county, region, etc.)
4. Criteria to search by/for (vehicle make, body style, partial plate number, etc.)

Non-Criminal Justice Agency Access to DOT Information:

Access to vehicle registration and driver's license files via the TIME System is for criminal justice purposes only due to the confidentiality of many record entries. The TIME System can be accessed by law enforcement agencies and personnel for law enforcement purposes only. By the FBI's definition, non-criminal justice agencies, i.e., fire departments are not law enforcement.

While fire departments and other governmental agencies may be allowed to access vehicle registration and driver's license information under the Federal Driver Privacy Protection Act, the TIME System may not be used for these purposes. Some government agencies that are responsible for enforcing laws or ordinances may be eligible for an "S" ORI to inquire on vehicle records only. Other governmental agencies, including fire departments, who require access to WisDOT files, should be advised to contact WisDOT directly.

Public Access:

Any requests for a driver record from the public should be referred to WisDOT. Customers may access their own driver or vehicle abstract at <https://wisconsindot.gov/Pages/online-srvcs/other-srvs/request-record.aspx>.

If the customer does not have internet access or is requesting the record of another person, the customer should complete a Vehicle/Driver Record Information Request (MV2896) form and mail their request to the address on the form. Form MV2896 is available at the Internet address of: <https://wisconsindot.gov/Documents/formdocs/mv2896.pdf>. A fee is required for each paper record whether a record is found or not.

Agencies and businesses interested in starting an account to order abstracts online can call (608) 266-0928 for information about the Public Abstract Request System (PARS).

Wisconsin Driver's License Photos

Wisconsin driver's license photos are available via the TIME System to Wisconsin law enforcement agencies, federal law enforcement agencies, and law enforcement agencies of other states for the purposes of the administration of criminal justice and for traffic enforcement. According to the definitions included in the law, district attorney's offices, Department of Corrections offices and facilities, social service agencies, etc. **are not considered law enforcement agencies**, and thus the TIME System will block access to Wisconsin driver's license photos by these types of non-law enforcement agencies.

Portal XL software contains a field on numerous transactions, the 'DOT Image Indicator' field. A 'Y' for yes placed in this field will return an available driver's license photo to the requestor via the TIME System. In addition, if a Wisconsin driver's license photo is requested, purpose code and reason/attention line fields are required; specifying why the photo was requested and who specifically will be receiving it.

Each Wisconsin driver's license photo returned via the TIME System will come with a warning caveat attached:

THIS PHOTOGRAPH IS SUBJECT TO THE REQUIREMENTS AND RESTRICTIONS OF SECTION 165.8287 OF THE WISCONSIN STATUTES. THE PHOTOGRAPH SHALL NOT BE USED FOR ANY PURPOSE OTHER THAN THE ADMINISTRATION OF CRIMINAL JUSTICE OR TRAFFIC ENFORCEMENT. SECONDARY DISSEMINATION IS PROHIBITED AND THE PHOTOGRAPH SHALL BE DESTROYED WHEN NO LONGER NECESSARY FOR THE PURPOSE REQUESTED. THE PHOTOGRAPH SHALL NOT BE USED AS PART OF A PHOTO LINEUP OR PHOTO ARRAY.

Any photograph obtained electronically by a law enforcement agency under this subsection may not be used for a photo lineup or photo array.

FULL vs. SUMMARY DRIVER'S RECORDS

The TIME System allows for inquiries of summary and full driver's records. A summary record contains all identifying information including status, but without the driver's violation record. When querying a Wisconsin driver record you automatically receive a full driver record from WisDOT. Full driver's records may be available from other states if requested using the appropriate transaction.

Some states support the full record query by name, sex, race and date of birth or driver's license number only. The Help file will advise the particular requirements for each state. If a state does not support the full driver's record inquiry you may receive a "NO RECORD" response from that state. A query specifically requesting the summary record may be required. CIB recommends querying the state's HELP file to determine if the state will accept a request for the individual's full driving record.

CONCEALED CARRY LICENSE FILE

There are three reasons a concealed carry license can be queried per state statute 175.60 (12) and (12g):

1. To confirm that a license or certification card produced by an individual at the request of a law enforcement officer is valid.
2. If an individual is carrying a concealed weapon and claims to hold a valid license issued under this section or a valid certification card issued under s. 175.49 (3) but does not have his or her license document or certification card, to confirm that an individual holds a valid license or certification card.
3. If the law enforcement agency is a Wisconsin law enforcement agency, to investigate whether an individual submitted an intentionally false statement under sub. (7) (b) or (15) (b) 2.

IMMIGRATION VIOLATOR FILE

The Immigration and Customs Enforcement Service created and maintains a file on immigration violators. This file contains records for three different response categories:

1. **Deported Felon:** Persons convicted of a felony related to drug trafficking, firearms trafficking, or serious violent crimes and that have been deported for these convictions.
2. **Absconder:** Persons with outstanding warrant for removal from the United States.
3. **NSEERS:** Persons who are subject to monitoring through the National Security Enter Exit Registration System.

One of these three headers will appear on the immigration response:

DEPORTED FELON RESPONSE HEADER

WARNING REGARDING FOLLOWING RECORD - SUBJECT OF NIC/N681127856 IS A PREVIOUSLY DEPORTED FELON. CONTACT LESC AT (877) 999-5372 FOR IMMEDIATE HIT CONFIRMATION AND AVAILABILITY OF BUREAU OF IMMIGRATION AND CUSTOMS ENFORCEMENT DETAINER.

ABSCONDER RESPONSE HEADER

WARNING REGARDING FOLLOWING RECORD - SUBJECT OF NIC/N682337856 HAS AN OUTSTANDING ADMINISTRATIVE WARRANT OF REMOVAL FROM THE UNITED STATES. CONTACT LESC AT (877) 999-5372 FOR IMMEDIATE HIT CONFIRMATION AND AVAILABILITY OF BUREAU OF IMMIGRATION AND CUSTOMS ENFORCEMENT DETAINER.

NSEERS RESPONSE HEADER

WARNING REGARDING FOLLOWING RECORD - SUBJECT OF NIC/N682337876 HAS AN OUTSTANDING ADMINISTRATIVE WARRANT OF ARREST FOR IMMIGRATION VIOLATIONS FOR FAILURE TO COMPLY WITH NATIONAL SECURITY REGISTRATION. CONTACT LESC AT (877) 999-5372 FOR IMMEDIATE HIT CONFIRMATION AND AVAILABILITY OF BUREAU OF IMMIGRATION AND CUSTOMS ENFORCEMENT DETAINER.

Wisconsin law enforcement officers currently only possess the legal authority to enforce federal **criminal** immigration violations (and not federal **civil** immigration violations). As such, an officer only has the authority to arrest for an immigration violation when an NCIC hit confirmation shows that the subject is a Deported Felon or an Absconder. If the NCIC hit reveals that the subject is a NSEERS violator, the officer may continue to detain the subject only if the officer has reasonable suspicion or probable cause to believe that the subject has committed a violation of Wisconsin law.

IMMIGRATION VIOLATOR RECORD

WARNING REGARDING FOLLOWING RECORD - SUBJECT OF NIC/N070185716 IS A PREVIOUSLY DEPORTED FELON. CONTACT LESC AT (877) 999-5372 FOR IMMEDIATE HIT CONFIRMATION AND AVAILABILITY OF BUREAU OF IMMIGRATION AND CUSTOMS ENFORCEMENT DETAINER.

VIOLENT PERSON FILE

The Violent Person File (VPF) was designed to alert law enforcement officers that an individual they are encountering may have the propensity for violence against law enforcement. Criteria for entry are one of the following:

1. Convicted of assault or murder of LE, or statute that involves violence against LE-fleeing and obstruction.
2. Convicted of violent offense against a person including homicide or attempted homicide.
3. Convicted of a violent offense against a person where a firearm or weapon is used.
4. Known threat-LE reasonably believes that the individual has seriously expressed intent to commit an act of unlawful violence against LE or CJ community.

WARNING-A SUBJECT IN THIS RESPONSE HAS BEEN IDENTIFIED AS A VIOLENT OFFENDER OR A SERIOUS THREAT TO LAW ENFORCEMENT OFFICERS. REVIEW THIS RESPONSE IN ITS ENTIRETY TO OBTAIN ADDITIONAL INFORMATION ON THIS SUBJECT. USE EXTREME CAUTION IN APPROACHING THIS INDIVIDUAL.

WARNING-THE SUBJECT IN THIS RECORD HAS BEEN IDENTIFIED AS A VIOLENT OFFENDER. THE SUBJECT HAS A CRIMINAL HISTORY OF ASSAULTING LAW ENFORCEMENT OFFICERS. USE CAUTION IN APPROACHING THIS INDIVIDUAL. DO NOT ARREST OR DETAIN BASED SOLELY UPON THIS INFORMATION.

THREAT SCREENING CENTER FILE

Formerly called the Known or Suspected Terrorist File (KST). Do not inform the subject, if a subject is a verified match, contact the Threat Screening Center.

LAW ENFORCEMENT SENSITIVE INFORMATION

WARNING - APPROACH WITH CAUTION

DO NOT DETAIN OR ARREST THIS INDIVIDUAL BASED ON THIS NOTICE

DO NOT ADVISE THIS INDIVIDUAL THAT THEY MAY BE ON A TERRORIST WATCHLIST

IF YOU ARE A BORDER PATROL OFFICER, IMMEDIATELY CALL THE NTC AT XXX-XXX-XXXX.

THIS INDIVIDUAL IS OF INVESTIGATIVE INTEREST TO LAW ENFORCEMENT REGARDING ASSOCIATION WITH TERRORISM AND THERE MAY BE A DETAINER AVAILABLE FROM THE DEPARTMENT OF HOMELAND SECURITY FOR THIS INDIVIDUAL. CONTACT THE FBI'S TSC AT XXX-XXX-XXXX DURING THIS ENCOUNTER TO ASSIST IN DETERMINING IF THIS INDIVIDUAL IS ON THE TERRORIST WATCHLIST AND WITH GATHERING INTELLIGENCE WITHIN YOUR LEGAL AUTHORITY. IF THIS WOULD EXTEND THE SCOPE OR DURATION OF THE ENCOUNTER, CONTACT THE TSC IMMEDIATELY THEREAFTER.

LEGAL NOTICE: UNAUTHORIZED DISCLOSURE IS PROHIBITED. THE INFORMATION IN THIS NOTICE BELONGS TO THE TSC AND IS PROVIDED TO YOUR AGENCY FOR OFFICER SAFETY, INTELLIGENCE, AND LEAD PURPOSES ONLY. USG ATTORNEY GENERAL AUTHORIZATION MUST BE OBTAINED PRIOR TO USING THIS INFORMATION, OR INFORMATION DERIVED THEREFROM, IN ANY LEGAL OR ADMINISTRATIVE PROCEEDING OR PROCESS. CONTACT THE TSC TO OBTAIN SUCH AUTHORIZATION.

CCAP

The Consolidated Court Automation Programs (CCAP) provides access to certain public records of the circuit courts of Wisconsin. The information displayed is an exact copy of the case information entered into the CCAP case management system by court staff in the counties where the case files are located. The information provides the type of case, the parties, and any judgment that has been entered in the case. For criminal cases, a case summary is provided to show the current pending charges or the defendant's conviction/acquittal status. Criminal cases, traffic, and ordinance violations also show a history of the charges against the defendant. A link to "court record events" provides the date of actions taken in the case, such as filing of the complaint or petition, pleadings, court appearances, and judgments. Individual courts vary in how much detail is entered for each court record event.

MENTAL HEALTH

TIME System transaction 0027 allows law enforcement access to Wisconsin mental health records. Access to Mental Health records is available for all TIME System customers (eTIME, Portal XL, Server to Server). Law enforcement may request information based only on the below reasons:

- (a) Enforce or investigate a violation of felon in possession of a firearm. (Purpose Code C)
- (b) Conduct a background check on an individual who is applying to become a law enforcement officer or on a current law enforcement officer. (Purpose Code J)
- (c) Make a determination on HR 218 (former law enforcement officer carry concealed permit, Purpose Code F)
- (d) Aid the court in making a determination in firearms restrictions for protection orders and injunctions. (Purpose Code C)

RETURN OF FIREARMS

Federal law regarding National Instant Criminal Background Check System (NICS) authorizes criminal justice agencies access to NICS information to conduct background checks for the purpose of returning firearms. To assist law enforcement when making a determination of whether an individual is restricted from possessing a firearm, transaction 0028 in the TIME System allows access to the National Instant Criminal Background Check System (NICS). This functionality searches multiple data services including CCH, CIB Hotfiles, DOC, DOT, III, NCIC, and NICS.

The correct purpose code for return of firearms is F.

National Instant Criminal Background Check System (NICS)

Mandated by the Brady Handgun Violence Prevention Act of 1993 and administered by the FBI, the National Instant Criminal Background Check System, or NICS, is used by Federal Firearms Licensees (FFLs) to determine whether a prospective buyer is eligible to buy firearms. The NICS Index contains information provided by local, state, tribal and federal agencies of persons prohibited from receiving firearms under federal or state law. The NICS Index contains prohibiting information which may not be found in the NCIC or the III.

NICS DENIED TRANSACTION FILE

TIME System users can access the National Instant Criminal Background Check System (NICS) Denied Transaction File (NDTF). This file shares information regarding individuals who have been disqualified from firearm possession under the Brady Act of 1993. This disqualification is based on federal law and state prohibitors reported to NCIC. The NICS Denied Transaction File is designed to enhance officer and public safety while also providing investigative leads.

The NICS Denied Transaction File contains records of individuals who have been denied a firearm, as the result of a NICS check, within the previous 180 days. These records are maintained by the FBI and if a "hit" exists it will be returned when you conduct any wanted person query. After 180 days, the file is purged from the system. If an individual's NDTF record is canceled, it will be immediately removed from the system.

The return of a NICS Denied Transaction File response on a person query does not guarantee that the subject of the response is still prohibited from possessing a firearm. The response is solely informational and additional investigation should be conducted to confirm the continued restriction against possessing a firearm. The information in any NDTF response should never be used as a determination to detain or arrest the subject of a response.

NICS Denied Transaction File Response

*****NOTICE: DO NOT DETAIN OR ARREST BASED ON THIS HIT. THE DATE OF NATIONAL INSTANT CRIMINAL BACKGROUND CHECK SYSTEM (NICS) DENIAL (DND) PROVIDED IN THIS RECORD IS THE DATE THE SUBJECT WAS DENIED BY THE NICS FROM THE RECEIPT AND/OR THE POSSESSION OF A FIREARM OR THE ISSUANCE OF A FIREARM OR EXPLOSIVES PERMIT PURSUANT TO STATE AND/OR FEDERAL LAW. HOWEVER, IT IS POSSIBLE THIS SUBJECT MAY NO LONGER BE A PROHIBITED PERSON.

VEHICLE FILE

For query purposes, a vehicle is defined as any motor-driven conveyance designed to carry its operator, to include aircraft. Although trailers do not meet this definition, trailers are also entered and queried in this file. Boats are an exception and would be entered and queried in the Boat File. Electric bicycles and electric scooters are also exceptions in that they are entered and queried in the Article file. Examples of vehicles include construction equipment, farm tractors, motorized wheelchairs, snowmobiles, all-terrain vehicles, utility-terrain vehicles, off-highway motorcycles, and trailers.

Possible stolen or missing license plates are also queried in the Vehicle File.

VEHICLE QUERIES

QUERY ON:

Wisconsin License Plate Number,
Plate Type (**Optional**), Year of Expiration

Out-of-State License Plate Number,
Plate Type, State of Registration, Year of Expiration

U.S. Government License Plate Number,
Plate Type, State of Registration, Year of Expiration

Vehicle Identification Number
-if sent out-of-state

Owner Applied Number

FILES SEARCHED:

DOT, CIB, NCIC

NLETS, CIB, NCIC

NLETS, CIB, NCIC

DOT, NCIC

DOT, CIB, NCIC
NLETS

CIB, NCIC

NOTES: When querying a government vehicle for registration/stolen status the out-of-state query transaction with a plate type of "US" or a valid VIN must be used. The code of "GS" must be used in the "Destination State" field and "US" in the "State" field. If no record is received additional queries may be required using a valid two-character state code in the "State" field.

Destination State: [GS]
License Plate: [enter the license plate information]
State: [US or the appropriate state for the second query]
Type: [US]
Year: [enter the appropriate year]

The Wisconsin Department of Transportation does not issue license plates with the alpha character of O. All Wisconsin license plates inquiries should contain the numeric of 0 instead of the alpha O.

TRIBAL VEHICLE REGISTRATION

Eight Native American Indian tribes have a reciprocal registration agreement with the Wisconsin Department of Transportation, which allows residents living on the reservation to purchase tribal plates that are designed and issued by the tribe. These are the tribes and their respective NCIC Indian nation code.

- Bad River Band of Lake Superior Chippewa Indians- **XC**
- Ho-Chunk Nation – **2H**
- Lac Courte Oreilles Chippewa Band of Lake Superior Indians-**WZ**
- Lac du Flambeau Band of Lake Superior Chippewa Indians-**LP**
- Menominee Indian Tribe of Wisconsin-**IX**
- Oneida Nation of Wisconsin-**OT**
- Red Cliff Band of Lake Superior Chippewa-**YH**
- St. Croix Chippewa - **YI**

Queries of tribal license plates through Wisconsin DOT will produce plate holder information *excluding* expiration data, while an inquiry by VIN through Wisconsin DOT will provide vehicle & owner information. The exceptions are Ho-Chunk Nation and Oneida tribal license plates. Queries of Oneida and Ho-Chunk Nation tribal license plates will return a standard WisDOT response.

Tribal license plates require two queries to determine the registration and the stolen status of the vehicle or license plate(s). To obtain Wisconsin registration information you can run a standard Wisconsin vehicle query (0173) using the Type code of "TB (Tribal) or leaving the type code blank.

License Plate:	[enter the license plate information]
Type:	[enter the TB (Tribal) or leave blank]
Year:	[enter the appropriate year]

To obtain Out-of-State registration information you will run an Out-of-State vehicle query (0170). Follow the below steps for Out-of-State Tribal registration plates. Additional information may be available from each state's help file.

Destination State:	[enter the appropriate state]
License Plate:	[enter the license plate information]
State:	[enter the appropriate Tribal Nation code]
Type:	[enter the vehicle type]
Year:	[enter the appropriate year]

To obtain NCIC responses, including stolen vehicles, a separate query (0174 - License Plate Only Query – CIB and NCIC) is required.

For eTIME Browser/S2S MACH, the second query will be conducted by performing a NLETS query using the appropriate region code. If the state is unknown, the "Region code for all states" can be used. Follow the below steps for NCIC responses:

NLETS:	[enter the appropriate region code]
Registration Number:	[enter the license plate information]
Type:	[enter the vehicle type]
Year:	[enter the appropriate year]

VEHICLE SEARCH TECHNIQUES

Query on: License Plate Number

NCIC Search on license plate number and state of registration.
Alpha "O" converted to numeric "0".

Felony Vehicle Search: Use for felony vehicle records only. When a license plate is queried through NCIC, NCIC will disregard the license plate state information and search on the license plate number. This only affects records identifying felony vehicles (vehicles used in the commission of a crime). The following caveat will be included in a felony vehicle response:

RECORD NIC/V123456789 IS BASED ON LIC SEARCH ONLY
(LIS NOT SEARCHED) VERIFY ALL DATA BEFORE TAKING FURTHER
ACTION BASED ON THIS RESPONSE.

CIB Exact match on license plate number.

DOT Exact match on license plate number.
Exact match on plate type. If no plate type code is submitted, search techniques will be expanded to include all plate types.

DNR Exact match on registration number.

Query on: Vehicle Identification Number

NCIC Exact match on the last 8 characters.
Alpha "O" converted to numeric "0".

If only the last 8 characters match, a caveat will appear above the record stating:

RECORD NIC/V123456789 IS BASED ON PARTIAL VIN SEARCH - VERIFY ALL
DATA BEFORE TAKING FURTHER ACTION BASED ON THIS RESPONSE

CIB Exact match.

DOT Exact match.

NOTE: The TIME System allows for inquiries of summary and full vehicle registration records. A summary record contains all the identifying information including status and to whom the vehicle is registered. The complete record will also include lien information. When querying an out-of-state vehicle registration record you normally receive a summary vehicle record from that state's DOT.

DNR Exact match.

NATIONAL INSURANCE **CRIME BUREAU**

The National Insurance Crime Bureau (NICB) is a crime prevention organization assisting law enforcement in the prevention, detection, and prosecution of the financial crimes of theft, fraud, and arson relating to personal property. The National Insurance Crime Bureau is a not-for-profit organization that receives support from approximately 1,100 property/casualty insurance companies and self-insured organizations. The NICB partners with insurers and law enforcement agencies to facilitate the identification, detection and prosecution of insurance criminals.

NICB maintains a rapidly expanding national and international database of vehicle records. NICB tracks a motor vehicle's complete life cycle from manufacture to demolition. The NICB database is designed to include vehicle liability, physical damage, and related homeowner claims. NICB files include data on passenger vehicles, multipurpose vehicles, trucks, trailers, motorcycles, snowmobiles, construction and farm equipment, boats, and uniquely identifiable parts. Information contained in the various NICB databases is contributed voluntarily by various partners. As such, the information NICB provides is solely an investigatory aid.

NICB provides automated access to twelve different files: Manufacturer's Shipping File, Impound File, Export File, Salvage File, Auction File, Pre-Inspection File, Vehicle Claim File, Rental File, Theft File, International Index File, Theft (recovery file), and the NCIC/CPIC Canceled File.

These files may be accessed via two distinct types of inquiries. One will access only the Impound and Export files. The other will access the remaining NICB files. Access to these files is for investigative purposes only.

If only a partial vehicle identification number is available, the user may submit the last eight characters of the vehicle identification number, prefaced with the word 'PARTIAL'. When a partial vehicle identification number is submitted, only the Manufacturer's Shipping File will be searched.

PART FILE

A part is defined as any vehicle/boat component with a serial number or owner applied number. Examples of parts are: backhoe, hay baler, automobile engine, boat engine, transmission, battery, carburetor, vehicle identification plate, door, bumper, vehicle title document and jet pump.

ARTICLE FILE

Any item having a unique manufacturer assigned serial number and/or owner applied number and not meeting the definition of a vehicle, part, boat, gun or security may be queried in this file for stolen status. Examples of articles are computers, televisions, bicycles, food stamps, cell phones, and animals.

NOTE: Credit cards, bank drafts and checks, including cashier, certified, company, government (federal, state, and local), bank officer, personal and U.S. Treasury, would not be found in the NCIC Article File or any other CIB/NCIC file.

GUN FILE

A gun is defined as any weapon, including a starter gun, which will or is designed to, or may be readily converted to expel a projectile by air, carbon dioxide, or the action of an explosive, may be queried in this file for stolen, lost or recovered status as long as it has a serial number and/or owner applied number. Examples are shotguns, pistols, rifles, the frame, or receiver of any such weapon, any firearm silencer, pellet guns, destructive devices such as grenades, mines, missiles, and cannons.

NOTE: BB guns and paint ball guns are excluded from this definition and should be queried in the Article File. The manufacturers of BB guns are not bound by the same statutes as are manufacturers of above-mentioned weapons.

For NCIC purposes, a 3-round burst weapon is considered an automatic.

HIT CONFIRMATION

WHAT IS HIT CONFIRMATION?

Confirming a hit means to contact the agency that entered the record to:

1. Ensure that the person or property inquired upon is identical to the person or property identified in the record.
2. Ensure that the warrant, missing person report, protection order or theft report is still outstanding.
3. Obtain a decision regarding the extradition of a wanted person when applicable, information regarding the return of the missing person to the appropriate authorities, information on the conditions of a protection order or information regarding the return of stolen property to its rightful owner.

NOTE: If the CIB Firearms Unit conducts a firearms search (whether for a handgun transfer or a concealed carry permit) and the search results in a match to a wanted person record, protection order record, etc. they will send a hit confirmation request to the entering agency *even though the subject is not in custody*.

FIVE STEPS IN HIT CONFIRMATION

1. Compare the computer results with the original query:
 - Ensure you are within any geographic restrictions/extradition limitations listed on the warrant entry.
 - Ensure the property is in custody or the subject is within the immediate vicinity of the officer and the officer is capable of taking the subject into custody.
2. Check with the requestor for additional information that may be included in or may clarify the hit.
3. Check with the ORI to verify the record (10 Minute/1 Hour Hit Confirmation Rule):

The ORI of the record must furnish a substantive response within the designated timeframe, i.e., a positive or negative confirmation or notice of the specific amount of time necessary to confirm or reject.

 - Urgent:** Means the hit must be confirmed, or receipt of the request acknowledged within 10 minutes. Urgent is used in instances where the hit is the only basis for detaining the suspect or the nature of the case requires urgent confirmation of a hit.
 - Routine:** Means the hit must be confirmed or receipt of the request acknowledged within 1 hour. Generally, this priority will be used when the person is being held on local charges, property has been located under circumstances where immediate action is not necessary, or an urgent confirmation is not required.
4. Obtain documentation from the ORI on the results of the hit confirmation request. CIB recommends that the agency maintains documentation of the hit confirmation response and all relevant paperwork with the case file for a minimum of 18 months or the length of the case's life cycle.
5. Query all identifiable data not queried originally.

LOCATE

A Locate can only be placed AFTER Hit Confirmation has occurred.

The purpose of a locate message is to indicate (until the originating agency cancels the record) that the wanted person has been apprehended or stolen property has been located. If the ORI fails to cancel the NCIC record, a Located wanted person record will purge within five days, and a Located property record will purge within ten days. A locate applied to a missing person record indicates the location of the missing person has been determined and immediately purges the record from the file. If a CIB record is being located, TSCC will contact the ORI and explain why the locate is being placed against the record. TSCC will advise the ORI that they have approximately **TWO** hours to cancel the record. If the ORI fails to cancel the record within the time allotted, TSCC will cancel the record. This message is placed against a record that remains active in the system after hit confirmation has taken place. The locate message includes the date and time the person or property was located, as well as the name of the locating agency.

A locate message must be transmitted when an agency other than the originating agency of the record finds the missing person, apprehends the wanted person, or recovers the property on file in NCIC. It is recommended that a locate be placed against a CIB record after hit confirmation has taken place. **ALWAYS place a locate after going through hit confirmation on an NCIC hit.**

REASONS FOR PLACING A LOCATE

- The bond has been posted and the subject will be released but warrant is still entered. (NOEX)
- The ORI advises they will not extradite the subject, but the warrant has not been modified/canceled. (NOEX)
- The ORI advises they will extradite the subject, but the warrant has not been modified/canceled. (EXTR)
- The ORI advises to release the subject because the distance is too far or no personnel are available to transport, but the warrant has not been modified to reflect these geographic restrictions. (NOEX)
- The ORI advises to release the subject after giving him/her a new court date, but the record remains in the system. (NOEX)
- Wanted person is being held on local charges / is incarcerated in prison. (DETN)
- Missing person is being detained and arrangements are being made for their return. (DETN)
- Missing person is not being detained and record has not been cancelled. (RELD)
- Property is recovered and is to be released with the record still in the system.
- Person or property is no longer wanted, missing or stolen and record has not been cancelled.
- Arresting/incarcerating agency refuses to place a locate and you want to add detainer data to the record.
- When ORI takes incorrect action.

**** Prior to placing a Locate against a wanted person record, make sure that your agency is within any geographical restrictions indicated on the warrant. ****

A Locate is placed against a record by contacting TSCC via administrative message (Portal XL users may use form 1729). The message should advise:

1. The record to be located.
2. The reason for the Locate.
3. Your agency's case number assigned to this incident.

In one special circumstance, NCIC allows for cancellation and re-entry of a Located Record: Hit confirmation has taken place. The ORI wants the subject and will transport the subject from the locating agency's state. The subject is released, awaiting extradition. In this case the ORI may cancel and re-enter the warrant record. The ORI should state in the remarks field "Do not arrest in **(State of location)**; subject awaiting extradition."

- Line 1: Locate Message (\$.L.) sent.
- Line 2: The ORI of record being located.
- Line 3: "Locate Notification" giving time (in Eastern Standard Time) and date of the Locate placement.
- Line 4: Various data/descriptors. This line starts with a TWO CHARACTER CODE describing what is being located. The code will always start with the letter "L", followed by the first character of the FILE the located record is in (V/vehicle, W/warrant, M/missing, G/gun, etc.)
- The NCIC AGENCY IDENTIFIER of the locating agency will follow the two character locate/file code.
 - Following the NCIC Agency Identifier will be TWO record identifiers. These may be NIC #, ORIGINATING AGENCY CASE #, SERIAL # The DATE the Locate was placed will follow. If there is a LOCATING AGENCY CASE #, it will follow the date the Locate was placed.
- Line 5: The case number used in the locate request.
- If the record being located is a person, a code indicating what type of action is taking place will appear as the last data. The codes used are: EXTR (extradite), NOEX (no extradition) or DETN (Detained - used for Wanted and Missing Persons).
- Line 6: LITERAL NAME of the AGENCY that is filing the Locate.
- Lines 7-15: The record Locate is placed against.
- Line 16: Shows the date the locate was placed, the ORI number of the agency that located the person or property and their case number used in the locate request.

DETAINER

A detainer is used when a person is held at another facility awaiting pick-up. This allows the warrant to stay in the system until extradition. A detainer can be appended to a warrant/wanted person record after the person is arrested, hit confirmation has occurred and the wanted person will not be released to the agency holding the warrant. It is not permissible to leave a warrant record in the TIME System without appending detainer information when the subject has been arrested or taken into custody on the warrant.

If the warrant is in CIB/NCIC, a Locate must be placed prior to appending detainer information to the warrant.

When a missing person record or unidentified person record is entered or modified, a comparison is triggered between the Missing Person files and Unidentified Person files. The comparison can be triggered by the entry or modification of your record, or your record matched with information in a record from another agency that was entered or modified. The comparison is run overnight at NCIC. Two possible outcomes are possible for this automatic search of the two files: \$.N. or \$.M.

NO MATCH (\$.N.)

A \$.N. No Match occurs when the automatic comparison of Missing Person and Unidentified Person files find no records from the opposing file type that matches your record.

\$.N.UNIDENTIFIED/MISSING COMPARE RESULTS

WI0130000

YOUR RECORD WITH NIC/M137847157 OCA/141433-J HAS BEEN SEARCHED. THE SEARCH DID NOT PRODUCE ANY POSSIBLE MATCHES.

POSSIBLE MATCH (\$.M.)

You can receive a \$.M. message if your Missing Person or Unidentified Person record is a match with one that was entered. A possible match response can provide an investigative lead. The record should be queried and reviewed. The entering agency should be contacted for more information.

\$.M.UNIDENTIFIED/MISSING COMPARE RESULTS

WI0130000

YOUR RECORD WITH NIC/M09XXX3727 OCA/12345 IS A POSSIBLE MATCH WITH THE FOLLOWING RECORD(S).

NICS DENIED NOTIFICATION (\$.H.NDN)

This new unsolicited message, \$.NDN, is a NICS Denial Notification. These notifications are sent to agencies when an individual is denied the purchase of a firearm by NICS within an agency's jurisdiction. The unsolicited message will be sent to the agency's main terminal informing them of the denial. The message will include the name, demographic information of the individual who was denied, the reason for the denial, and where the attempted purchase was made. It is at the agency's discretion to determine if action needs to be taken based on the message.

FIREARM DENIAL NOTICE:

A PERSON PURCHASING/RESIDING IN YOUR JURISDICTION WAS RECENTLY DENIED THE TRANSFER OF HANDGUN

THE FBI ENCOURAGES YOU TO CONTACT YOUR LOCAL BUREAU OF ALCOHOL, TOBACCO, FIREARMS AND EXPLOSIVES OFFICE PRIOR TO TAKING ACTION.
CHARLESTON ATF, 304-234-5678

THENATIONAL INSTANT CRIMINAL BACKGROUND CHECK SYSTEM (NICS) SECTION CONDUCTED A NAME SEARCH USING DESCRIPTIVE DATA, NOT FINGERPRINTS, FOR A FIREARM BACKGROUND CHECK WHICH WAS DENIED ON 4/26/2022, 02:02:23PM FOR:

NAME: DOE, JOHN L. NTN: 102356748

SEX: M RACE: W DATE OF BIRTH: 10-11-1990 PLACE OF BIRTH: WV

HEIGHT: 6'1" WEIGHT: 185 SOCIAL SECURITY NUMBER: 123-45-6789

WV0625630 PD HOMETOWN 304-457-0000

NICS UNDER 21 NOTIFICATION (\$.H.U21)

This new unsolicited message from the FBI will be sent when a background check is initiated for a potential firearm transferee under the age of 21. This message will be sent to the law enforcement agency based on the address information provided by the potential firearm transferee. If the agency does not have a terminal, the message will be sent to the county. If you receive a \$.H.U21 unsolicited message, the NICS Section of the FBI is requesting relevant juvenile information that an agency may have on the subject. In the reply, an agency should advise of any potentially prohibiting information that may exist for the subject. If your agency determines prohibiting information is not available or that your agency is not permitted to share juvenile information for firearm eligibility determinations, your agency should respond as such to the message. Agencies are asked to share other information on potentially applicable federal, state, tribal, or local firearm prohibitions including information establishing the potential firearm transferee as a current user of controlled substance, or a respondent of a protection order.

The following is an example of the request the NICS Section will send to the identified points of contact:

In accordance with the Bipartisan Safer Communities Act, when individuals under 21 years of age seek the transfer of a firearm through a federal firearms licensee, the FBI's National Instant Criminal Background Check System (NICS) Section is required to contact your agency for information. We are primarily reaching out to you seeking relevant *juvenile* information on the subject below. However, if you have knowledge of or possess *any* information that could impact the subject's eligibility to receive a firearm, we request you provide such information as well or make us aware by emailing NICS_U21@fbi.gov.

Please respond to this request within three business days, including the NICS Transaction Number (NTN) listed below. Please indicate whether your agency does/does not possess prohibiting information or whether your agency has knowledge of potentially prohibiting information.

Name Last, First M NTN

Sex

Race

Date of Birth

Place of Birth

Height Weight

Social Security Number

Residence Address:

The types of information you may possess include, but are not limited to, an inference of drug use within the past year, active warrants, active protection orders, pending or convicted criminal cases, or mental health adjudications. If a mental health adjudication is located and cannot be shared directly with the NICS Section, please indicate this in your email response. If you have questions regarding this request, please provide a name and phone number and the NICS Section will contact your agency for further discussion.

HOT CHECK INITIATIVE

Upon arrest fingerprint submission to the FBI, two checks are performed on the fingerprint card: a name-based check and a fingerprint comparison check. The Hot Check Initiative is a result of the name-based query and will return if a warrant matches the name associated with the fingerprint submission.

OUR RECORDS INDICATE YOUR AGENCY HAS AN ACTIVE WANT FOR THIS INDIVIDUAL AS CITIZEN, JOHN Q, CASE NUMBER 12345, ENTERED IN NCIC (NIC/W123456789). SUBJECT'S IDENTIFICATION RECORD, INCLUDING CURRENT ARREST INFORMATION, IS AVAILABLE VIA THE INTERSTATE IDENTIFICATION INDEX. FOLLOW-UP ACTION BY YOU WITH THE ARRESTING AGENCY MAY BE APPROPRIATE.

CLEAR OR CANCEL YOUR NCIC RECORD WHEN SUBJECT NO LONGER WANTED.

FBI CJIS DIVISION
CLARKSBURG, WV

CRIMINAL HISTORY RECORD

INFORMATION

There are three levels of criminal history records. The first level is the local law enforcement agency (police department or sheriff's office). A criminal history record is established at the local agency when an individual is arrested, booked in or a citation is issued to that person. The second level is the state central repository; in Wisconsin that is the CIB. The CIB will only establish a criminal record for someone when fingerprints are provided to the CIB from a Wisconsin law enforcement agency. If an agency does not fingerprint the individual or does not submit the fingerprints to CIB, the arrest/conviction information will not be submitted to the CIB database. Wisconsin criminal history records contain information on convictions, non-convictions, and pending cases for which CIB has received fingerprints. The third level is the FBI and the same rules apply. They only have information in their database if a fingerprint card was sent to them from the contributing state. The Criminal History Record Information (CHRI) program provides for the exchange of criminal history information intrastate and interstate.

The following procedures have been adopted by the International Justice and Public Safety Information Sharing Network (Nlets) and comply with the U.S. Department of Justice Rules and Regulations (Title 28) affecting the interstate exchange of criminal history record information. **The use of Administrative Messages for requesting and sending criminal history record information is a policy violation.** Specific CHRI formats are to be used for this type of information exchange. Not all criminal history records are automated; some responses may be manually returned or sent via the U.S. mail.

The following policies apply to all Wisconsin Law Enforcement Agencies:

- (1) All agencies requesting CHRI shall insure that proper controls are established such that only authorized criminal justice agencies and personnel can access CHRI.
- (2) All agencies requesting CHRI shall insure that all authorized criminal justice agencies and personnel having access to the TIME System shall utilize specific formats for CHRI requests.
- (3) All agencies providing CHRI shall insure that all personnel adhere to the approved operational procedures required for responding to CHRI requests.
- (4) All agencies shall insure that requests for CHRI, and responses to requests for CHRI, are for legitimate purposes.
- (5) All agencies requesting CHRI or responding to requests for CHRI shall comply with U.S. Department of Justice Rules and Regulations as they relate to completeness, accuracy and the dissemination of CHRI.
- (6) All agencies shall comply with the policies and procedures for the interstate exchange of CHRI as set forth in this section.

- (7) Any electronic device that uses wireless or radio technology to transmit data may be used for the transmission of criminal history record information when an officer determines there is an immediate need for this information to further an investigation or there is a situation affecting the safety of an officer or the general public. (This may include radios, fax machines, etc.)
- (8) A facsimile machine may be used to transmit CHRI information provided that both agencies involved have an Originating Agency Identifier (ORI) authorized to receive criminal history information. The facsimile machine must be located in a secure area. As not all facsimile machines are monitored continually, the receiving agency should be notified prior to transmitting the information. This will ensure proper retrieval of information.
- (9) In order for criminal justice information to be allowed to be transmitted via e-mail, both the sending and receiving e-mail accounts must be encrypted to meet the standards set forth by the CJIS Security Policy.

TITLE 28 CODE OF FEDERAL REGULATIONS, PART 20

20.33 Dissemination of criminal history record information

- (a) Criminal history record information contained in the III System and Fingerprint Identification Records System (FIRS) may be made available:
1. To criminal justice agencies for criminal justice purposes, which purposes include the screening of employees or applicants for employment hired by criminal justice agencies;
 2. To federal agencies authorized to receive it pursuant to federal statute or Executive order;
 3. For use in connection with licensing or employment, pursuant to Public Law 92-544 (86 stat. 1115) or other federal legislation, and for other uses which dissemination is authorized by federal law. Refer to Sec. 50.12 of this chapter for dissemination guidelines relating to requests processed under this paragraph;
 4. For issuance of press releases and publicity designed to effect the apprehension of wanted persons in connection with serious or significant offenses;
 5. To criminal justice agencies for the conduct of background checks under the National Intant Criminal Background Check System (NICS);
 6. To noncriminal justice governmental agencies performing criminal justice dispatching functions or data processing / information services for criminal justice agencies; and
 7. To private contractors pursuant to a specific agreement with an agency identified in paragraphs (a)(1) or (a)(6) of this section and for the purpose of providing services for the administration of criminal justice pursuant to that agreement. The agreement must incorporate a security addendum approved by the Attorney General of the United States, which shall specifically authorize access to criminal history record information, limit the use of the information to the purposes for which it is provided, ensure the security and confidentiality of the information is consistent with these regulations, provide for sanctions, and contain such other provisions as the Attorney General may require. The power and authority of the Attorney General hereunder shall be exercised by the FBI Director (or the Director's designee).
- (b) The exchange of criminal history record information authorized by paragraph (a) of this section is subject to cancellation if dissemination is made outside the receiving departments or related agencies, or service providers identified in paragraphs (a)(6) & (a)(7) of this section.
- (c) Nothing in these regulations prevents a criminal justice agency from disclosing to the public factual information concerning the status of an investigation, the apprehension, arrest, release or prosecution of an individual, the adjudication of charges, or the correctional status of an individual, which is reasonably contemporaneous with the event to which the information relates.
- (d) Criminal history records received from the III System or the FIRS shall be used only for the purpose requested and a current record should be requested when needed for a subsequent authorized use.

20.21(e) Preparation and submission of a Criminal History Record Information Plan

Audits. Insure that annual audits of a representative sample of state and local criminal justice agencies chosen on a random basis shall be conducted by the state to verify adherence to these regulations and that appropriate records shall be retained to facilitate such audits. Such records shall include, but are not limited to, the names of all persons or agencies to whom information is disseminated and the date upon which such information is disseminated. The reporting of a criminal justice transaction to a State, local or Federal repository is not a dissemination of information.

RELEASE OF CHRI

A secondary dissemination log must be created for Ill and State of Wisconsin CHRI records and be maintained for one year from the date of inquiry. This log shall be completed whenever a record is transferred to another criminal justice agency or an individual within another criminal justice agency or to anyone legally entitled to receive such information who is outside the original receiving agency and is not included in the attention line. This log shall include the name of the individual within the criminal justice agency to whom the response is given.

ATTENTION LINE/REASON FOR REQUEST

Include the unique identifier, such as name, badge number or employee ID of the specific individual that the segment/record will be given to, e.g., Lt Smith, Officer Jones, DA Johnson. It is also a good practice to include information on the reason for the request (if space allows).

OUT-OF-STATE CHRI ISSUES

Some state and local agencies by statute cannot respond to CHRI requests based on a specific purpose code. Always check that state's "SIR" Help File for the most current status. Each state may also require different minimum combinations of data. All require purpose code and attention line.

RECEIVING CHRI MESSAGES

When receiving a valid CHRI request, it is best to acknowledge the receipt of that message advising when the response will be sent.

ACCESS TO FBI CHRI (III)

The III shall **not** be used to access a record to be reviewed and/or challenged by the subject of the record. If an individual has a criminal record maintained by the FBI and that record has been entered in the III, it is available for review, upon presentation of appropriate fee and identification (which includes a set of rolled fingerprint impressions, name, date, and place of birth). For questions please contact the Criminal History Record Request Unit via phone (304) 625-5590. A written request must be submitted to:

Federal Bureau of Investigation
CJIS Division
ATTN: SCU, Module D-2
1000 Custer Hollow Rd.
Clarksburg, WV 26306-0171

ACCESS TO WI CHRI

Wisconsin's Open Records Law, §19.35(1), allows requestors the ability to access adult criminal record files. Information received via the TIME System is not to be disseminated to non-criminal justice entities. The Department of Justice is required to charge a fee to record check requestors for criminal history searches for purposes other than criminal justice. Individuals should use the Department of Justice's internet application, WORCS (Wisconsin Online Record Check System) at <https://recordcheck.doj.wi.gov> to run background checks and access the results. For agencies that run a large volume of background checks you may wish to set up a billing account. You can find more information about setting up a billing account here: <https://recordcheck.doj.wi.gov/Home/FAQ>

You may still submit an Identification Record Request form with a self-addressed stamped envelope for the results to be returned.

Mail to:

Wisconsin Department of Justice
Crime Information Bureau-Criminal History Unit
17 West Main Street
PO BOX 2688
Madison, WI 53701-2688

If you have any questions, please contact the Criminal History Unit at 608-266-7314 or send an email to cibrecordcheck@doj.state.wi.us.

CHRI PURPOSE CODES

CODE C CRIMINAL JUSTICE/LAW ENFORCEMENT PURPOSES

Acceptable by the Interstate Identification Index (III) and the state central repositories. Adult and juvenile records are accessible for this type of investigation.

Used for official duties in connection with administration of criminal justice. The term “administration of criminal justice” is defined as the performance of any of the following activities: detection, apprehension, detention, pretrial release, post-trial release, prosecution, adjudication, correctional supervision, rehabilitation of accused persons or criminal offenders. The administration of criminal justice includes criminal identification activities and the collection, processing, storage and dissemination of criminal justice information by governmental agencies. Social service cases involving child abuse, neglect or exploitation may be performed using a social service agency ORI ending in the letter “F”.

Agencies may request a criminal history record check using purpose code C for the security of the criminal justice facility, for example:

1. Vendors or contractors at the criminal justice agency who are **NOT** involved with the actual administration of criminal justice at the criminal justice agency, e.g., carpet cleaner, individuals responsible for maintaining vending machines, janitors, cooks, etc.
2. Volunteers at the criminal justice agency who are **NOT** involved with the actual administration of criminal justice at the criminal justice agency, e.g., participants in community ride along programs, volunteers at a confinement facility who are providing social or community services rather than rehabilitative services etc.
3. Confinement facility visitors.
4. Inmates of a confinement facility.
5. Inmate mail. A prisoner’s list of names and addresses of those wishing to correspond with the prisoner. CHRI may be used when there is reason to believe that criminal activity is occurring or has occurred.
6. Participants of law enforcement-sponsored firearms training classes held at a public firing range or law enforcement facility.
7. Visitors to federal or state military facilities.
8. When investigating a criminal incident or when an agency/officer has a reasonable suspicion a person is acting in a suspicious manner while taking pictures or loitering at a critical infrastructure facility.

CODE D CIVIL DOMESTIC VIOLENCE AND STALKING CASES

Acceptable by III and the state central repositories. CIB will return only adult records. III will only provide information that has not been sealed by the contributing state.

Civil court cases involving domestic violence or stalking cases (civil courts are issued a NCIC Agency Identifier with the letter D in the ninth position of the identifier). Law enforcement agencies providing CHRI to a civil court for a domestic violence hearing.

CODE F RETURN OF FIREARM(S) TO LAWFUL OWNER

Acceptable by the Interstate Identification Index (III) and the state central repositories. Adult and juvenile records are accessible for this type of investigation.

Used by criminal justice agencies for the purposes of issuing firearms-related permits and explosives permits pursuant to state law, regulation, or local ordinance; returning firearms to their lawful owners; and enforcing federal and state laws prohibiting certain persons with criminal records from possessing firearms in circumstances in which firearms have been pawned.

CODE H PUBLIC HOUSING APPLICANTS

Acceptable by III and the state central repositories. CIB will return only adult records. III will provide the identification segment of the record only. There is a cost for this type of request that will be billed to the ORI of the request. This code is prohibited when using the eTIME browser.

The Public Housing Authority (PHA) must submit a fingerprint card to the FBI to obtain the complete record. It is used to check the suitability of applicants for public housing under the authority of the Housing Opportunity Extension Act of 1996.

CODE J CRIMINAL JUSTICE EMPLOYEE APPLICANT CHECKS

Acceptable by III and the state central repositories. Adult and juvenile records are accessible for this type of background investigation.

This purpose code is used to initiate background checks of agency personnel. This includes:

Noncriminal justice agencies that are involved with the administration of criminal justice on behalf of the criminal justice agency.

Friends, relatives, and associates of the employee or applicant, unless restricted or prohibited by state statute, state common law, or local ordinance.

Vendors or contractors at the criminal justice agency who **ARE** involved with the actual administration of criminal justice at the criminal justice agency, e.g., personnel involved with maintenance of computer systems, upgrading records system, data entry clerk, etc.

Volunteers at the criminal justice agency who **ARE** involved with the actual administration of criminal justice at the criminal justice agency, e.g., volunteer dispatcher, volunteer data entry clerk, volunteers at a confinement facility who are providing inmate rehabilitation, etc.

CODE E AUTHORIZED EMPLOYMENT/LICENSING PURPOSES

Accepted by some state central repositories only, no other purpose code may be used to bypass this requirement and access III information for employment purposes. Only adult records are accessible for this type of background investigation. Authorized means that the criminal history inquiry is required by state statute, local ordinance or federal regulation. Agencies using the TIME System terminal to do this type of non-law enforcement background checks are encouraged to use <https://recordcheck.doj.wi.gov/> instead. There is a cost for this type of request that will be billed to the ORI of the request. This code is prohibited when using the eTIME browser.

INTERSTATE IDENTIFICATION INDEX

III is an automated index of persons with criminal records. III provides access to FBI identification segments and criminal records. A single state agency in each state is responsible for providing the state's records. For states without the ability to provide records for III, the FBI will provide the information from its automated files. Criminal justice agencies can use this information for law enforcement purposes, e.g., criminal investigations, bond setting, charging determinations, sentencing and criminal justice employment. **Criminal records obtained through III cannot be used for licensing or employment purposes.** III queries can be made for gun licensing if required by State Statute or local ordinance.

The III index points to the criminal history record residing either in the FBI or the particular state(s) holding the information. In December 1999, Wisconsin became a participating III State and began contributing Criminal History Records to the Interstate Identification Index. These records are based on arrest fingerprints submitted by arresting agencies within the state. All records with an arrest date after 11-01-99 will be the responsibility of the Wisconsin Crime Information Bureau.

An initial query of III is made to determine the existence of a record. The FBI computer searches its database and returns a list of possible ident segments relating to your request. The segments contain physical identifiers, additional numeric data and aliases. Upon determining a segment is related to the person in question, a second transaction is necessary to obtain the criminal record. The ident segment will indicate the location of the record and how to access it.

INTERSTATE IDENTIFICATION INDEX

INQUIRIES

There are five ways to query the Interstate Identification Index. **PURPOSE CODE** and **ATTENTION LINE** are required with any of the following combinations:

- | | | |
|--------------------------------------|------------------------------|-------------------|
| 1. NAME
SEX/RACE
DATE OF BIRTH | 2. NAME
SOCIAL SECURITY # | 3. NAME
MISC # |
| 4. NAME
STATE IDENTIFICATION # | 5. NAME
FBI # | |

SEARCH TECHNIQUES

III utilizes different search techniques than the NCIC Warrant/Wanted and Missing Person File.

***** END OF RECORD *****

WISCONSIN CHRI SUMMARY RECORD

These transactions require the individual's name, sex/race, date of birth, purpose for the inquiry and name of requestor. In addition to searching the CIB criminal history database, this transaction will also produce responses from the following files:

- Wisconsin/Out-of-State Driver's License
- NCIC/CIB Warrant/Wanted/Missing Person
- Wisconsin Department of Corrections

The search techniques for this transaction use strict parameters. To eliminate multiple near hits, the search criteria will produce **just one** record **or** a **"no record" response**.

The search techniques for the DOT Driver's and NCIC/CIB Warrant/Missing Person files will not change from what is currently used for all other transactions. Multiple near hits will still be possible.

The only authorized purpose code is **C - Criminal Justice Purposes**. The attention line must include the unique identifier of the specific individual requesting the information, e.g., Officer Smith, Lt. Jones.

To obtain the Wisconsin summary criminal history:

MANUAL CHECK/FOLLOW-UP

Agencies may send manual check or follow-up requests to a state central repository or to the FBI Identification Division. These requests are for specific information, e.g., certified copies of arrest records, photographs or non-automated records not accessible through the Interstate Identification Index (III).

The request may be made using the following required fields:

PURPOSE CODE
ATTENTION LINE/REASON
AGENCY NAME
ADDRESS
CITY, STATE
ZIP CODE
REMARKS

AND whatever optional fields available to identify the record:

*NAME, SEX, RACE, DATE OF BIRTH
*PLACE OF BIRTH
*HEIGHT, WEIGHT

GLOSSARY

/9998: Acknowledgement of TIME System transaction

/9999: Reject of TIME System transaction

APBD: All Points Broadcast

ARTICLE FILE: Includes items that do not qualify for entry to the vehicle, gun, boat or security files.

ATL: Attempt to Locate

BOAT FILE: This file contains stolen boats provided the vessel is registered, documented or there is a permanent identifying serial number affixed.

CAVEAT: A warning statement

CCAP: Consolidated Court Automation Programs

CCH: Centralized Criminal History

CCW: Carry Concealed Weapon

CHRI: Criminal History Record Information

CIB: Crime Information Bureau

CJI : Criminal Justice Information

CJIS: Criminal Justice Information Services Division (FBI)

CPIC: Canadian Police Information Centre

CTO: Control Terminal Officer

CURSOR: Blinking or solid character used to indicate location on screen.

DATABASE: A computer containing information, which can be accessed via the TIME System terminal such as CIB, DOT, NCIC and NLETS.

DNR: Department of Natural Resources

DOT: Department of Transportation

eTIME Browser: Internet access to NCIC, CIB, NLETS, CPIC and DOT data services.

EXTRADITE: Turn over an alleged criminal to the jurisdiction of a law enforcement/criminal justice agency in another state.

FBI: Federal Bureau of Investigation

FBI #: Unique number assigned to an FBI criminal history record.

FIELD: A specific number of spaces for characters used to describe requested information such as DATE OF BIRTH, FIRST NAME and LAST NAME.

FPS: Canadian Fingerprint(s) Identification Number, Canada's version of the FBI number.

GANG FILE: This file provides identifying information about violent criminal gangs and members of those gangs.

GUN FILE: This file contains stolen, lost (missing), felony and recovered guns identified by make, caliber, type and serial number.

HARD COPY: Message printed on paper.

HEADER: Pertinent system information that precedes each TIME System message.

HIT: A response received from a database, which upon review is determined to match the data inquired upon.

HOT FILES: NCIC, CIB, CPIC, Wanted/Stolen status files

III: Interstate Identification Index (Automated FBI Criminal History Information)

INPUT NUMBER: The number assigned in your acknowledgement by the message switch.

INTERPOL: International Criminal Police Organization (DCINTER00)

KST: Known or Suspected Terrorist File, now Threat Screening Center File

MENU: A list describing available TIME System functions, which when selected will lead the user to the appropriate formatted screen to perform the desired transaction.

MISSING PERSON FILE: This file contains records of persons who are missing. Missing persons may be entered into the following categories: Disabled, Endangered, Involuntary, Disaster Victim, Other and Juvenile.

MNEMONIC: A unique four-character alpha/numeric code assigned to each TIME System terminal.

MRI NUMBER: Same as the TIME System Message Number.

NCIC: National Crime Information Center

NCIC AGENCY IDENTIFIER: A unique nine-character alpha/numeric code, assigned to each law enforcement/criminal justice agency in the U.S., Puerto Rico, Virgin Islands and Canada.

NEAR HIT: A response received from a database, which upon review is determined not to match the data queried.

NICB: National Insurance Crime Bureau

NCIC NUMBER: (NIC) Unique number assigned to a record by the NCIC computer.

NICS (NICS) National Instant Criminal Background Check System.

NLETS: International Justice and Public Safety Information Sharing Network

OAN: Owner Applied Number

OCA: Originating agency case number

ORI: Originating agency, holder of the record

ORION: Automated ORI File.

OUTPUT NUMBER: Numbers received in responses to transactions sent.

PART FILE: This file contains stolen boat and vehicle parts, provided the part has a unique identifying number permanently attached.

POIF: NCIC Protection Order and Injunction File

PURPOSE CODE: The reason a criminal history is requested.
C - Criminal Justice Purposes
D - Domestic Violence and Stalking
E - Authorized Employment or Licensing Purposes
F - Return of Firearm to Lawful Owner
H - Public Housing Applicants Screening
J - All Criminal Justice Employee Applicant Checks

PSN: Physical Station Number (a specific four-character code assigned to each TIME System terminal)

QUERY: A computerized search of automated data files.

REJECT: Notification that data entered or queried via the TIME System terminal has **not** met specified criteria.

SECURITY FILE: This file contains serially numbered identifiable securities, which have been stolen, embezzled or are otherwise missing. This includes currency (paper money --

both real and counterfeit) and those documents, which are traded in securities exchanges -- stocks, bonds, etc.

SOUNDEX: A name search technique used by databases.

SWQ: State Wanted Query

SYSIDNO (SYSTEM IDENT #): Unique number assigned to a record by the CIB computer upon entry.

TAC: TIME Agency Coordinator. Responsible for familiarizing new personnel to the TIME System and terminal functions. The contact person for CIB training staff. Each agency having TIME System access must designate an individual employed by the criminal justice agency as TIME Agency Coordinator (TAC). Any exceptions must be coordinated with and approved by CIB.

TIME: Transaction Information for Management of Enforcement

TIME SYSTEM MESSAGE NUMBER: Number assigned to your transaction by the message switch. This number will appear in the /9998 acknowledgement and in each of the responses received to the specific transaction. Same as the MRI number.

TSC: Threat Screening Center File, formerly Known or Suspected Terrorist File

TSCC: TIME System Control Center

UNIDENTIFIED PERSON FILE: This file contains records of both living and deceased unidentified persons and body parts.

UNIVERSAL CONTROL NUMBER: Unique number assigned to an FBI criminal history record. Also known as the FBI number.

VALIDATION OFFICER: Person responsible for verifying the accuracy and completeness of records entered to the data files.

VEHICLE FILE (STOLEN): Information in this file includes stolen vehicles, stolen or lost license plates and vehicles used in the commission of a felony.

VIN: Vehicle Identification Number

WARRANT/WANTED PERSON FILE: Included in this file are persons against whom outstanding court warrants or authorized wants exist.

Crime Information Bureau (CIB)

NCIC FIELD NAME ABBREVIATIONS

ADD	Address type	CRY	Country
ADO	Additional offense	CT1	Confirmation telephone numbers
ADR	Address	CT2	Confirmation telephone numbers
AGE	Approximate age	CT3	Confirmation telephone numbers
AKA	Also known as (Alias name)	CTI	Court identifier (Court ORI number)
AN1	Agency name	CTY	City name
AN2	Agency name	CTZ	Citizenship
AN3	Agency name	DBF	Date body found
AOL	Arrest offense literal	DCC	Dental characteristics
AOV	Age of victim	DCH	Dental characteristics
ARE	Area (State/Country)	DCL	Date of clear
ARI	Arresting agency identifier (ORI number)	DDA	Date of documented address
ATN	Attention (person who requested the record)	DEN	Denomination of security
ATR	Agency translation	DFP	Date fingerprinted
BBL	Gun barrel length	DII	Date of investigative interest
BCO	Boat color	DIS	Date incarceration starts
BDA	Beginning date address	DLC	Date of last contact
BHN	Boat hull number	DLO	DNA location
BLD	Building	DLU	Date of last update
BLE	Boat length	DNA	DNA availability
BLT	Blood type	DND	Date of NICS denial
BMA	Boat make	DNO	Detainer number
BMO	Boat model name	DOA	Date of arrest
BNM	Boat name	DOB	Date of birth
BPS	Body part status	DOC	Date of cancel
BRA	Brand name	DOD	Date of detention
BRD	Brady indicator	DOE	Date of emancipation
BTY	Boat type	DOI	Date of image
BXR	Body x-rays	DOL	Date of loss
BYR	Boat model year	DOP	Date of purge
CAL	Gun caliber	DOR	Date of recovery
CAT	Category	DOT	Date of theft
CDA	Manner and cause of death	DOV	Date of violation
CDE	Canadian date of entry	DOW	Date of warrant
CGD	Coast Guard document number	DPE	Date probation expires
CIS	City and State	DPR	Date probation or release revoked
CMC	Caution and medical conditions	DPT	Department or Agency name
CON	Date of conviction	DRE	Dentist's remarks
COU	County	DRS	Identifying dress
CRC	Circumcision	DSE	Date sentence ends
CRI	ORI of court issuing warrant	DSP	Disposition
CRR	Conviction that resulted in registration	DSS	Date supervision starts
		DTE	Date and time of entry into NCIC files
		DTT	Date of threat

DUP	Duplicate	ISS	Issuer
DXR	Dental X-rays available	JUV	Juvenile offender indicator
EBS	Expanded DOB search	JWL	Jewelry description-color, carat, etc.
ECR	Entry criteria	JWT	Jewelry type-ring, necklace, etc.
EAD	Ending date at address	LIC	License plate number
EDD	Estimated date of death	LIS	License plate state
EDS	Ending date of supervision	LIT	License plate type-auto, truck, apportioned, etc.
EML	E-mail Address	LIY	License plate year of expiration
EMP	Employer name	LKA	Linking case number
ENS	Expanded name search	LKI	Linking agency identifier
EPD	Engine power or displacement	LOC	Release location
ERD	Ending registration date	LOT	Lot number
ETN	Ethnicity	LRI	Controlling agency identifier
EXL	Extradition limitation	MAK	Gun make-Colt, Smith & Wesson, etc.
EXP	Expiration date	MAL	Medical examiner/coroner locality
EXT	Extradition	MAN	Medical examiner/coroner agency name and case number
EYB	Estimated year of birth	MAT	Medical examiner/coroner telephone number
EYE	Eye color	MIF	Missing person interest
FBI	FBI number	MIS	Miscellaneous remarks
FIM	Fingerprint image	MKE	Message key (type of entry)
FOC	FBI field office code	MNP	Missing person
FPA	Footprints available	MNU	Miscellaneous number
FPC	Fingerprint classification	MOD	Model
FPP	Foreign postal code	MPA	Dental models and/or photos of teeth available
GNG	Group name	MPC	Missing person circumstance
GTI	Identifying graffiti	NAM	Name
HAI	Hair color	NDB	Name and date of birth
HGT	Height	NIA	Notify investigative agency
HIT	Wanted/missing hit results	NIC	NCIC number (Record identifier)
HMC	Hazardous material container	NMF	First name
HND	Identifying hand signals	NOA	Notify originating agency
HPT	Home port	NPA	Number of persons apprehended
HSP	Hull shape	NPF	Number of missing persons found
HUL	Hull material	NTN	NICS transaction number
ICA	Investigative interest case number	OAC	Originating agency city
ICN	IAFIS control number	OAD	ORI agency address
IDE	Date of entry	OAN	Owner applied number
IDT	Identity Theft type	OCA	ORI case number
IIA	Investigation interest agency identifier	OCP	Occupation
IID	Internet identifier	OFF	Offense
IMG	Image	OFS	Offender status
IMN	Image NCIC number	OLN	Operator license number
IMT	Image type	OLS	Operator license state
INC	IRI literal name		
IND	Image indicator		
IRI	Incarcerating agency ORI number		
ISD	Issue date		

OLY	Operator license year of expiration	RCA	Recovering agency case number
ON1	ORI title/office	REG	Registration number
ON2	ORI agency/company name	RES	Registration state
ON3	agency abbreviated name	REY	Registration year
OOC	Original offense	RFP	Reason fingerprinted
ORD	Offender registration date	RMI	Ransom money indicator
OPT	Opt type	ROV	Relationship to victim
ORD	Offender registration date	RPP	Reason for property record removal
ORI	Originating agency identifier	RPR	Reason probation or release revoked
OWN	Owner	RPS	Reason for person record removal
PAK	Person with information alias	RRI	Recovery agency identifier
PAR	Person armed	RSH	Related search hit
PCO	Protection order conditions	SCI	Sentencing court identifier
PDT	Purge date	SCR	Scar
PEY	Person with information eye color	SDT	Security date
PHA	Person with information hair color	SER	Serial number
PHG	Person with information height	SEX	Sex
PIB	Person with information date of birth	SGP	Subgroup
PIE	PWI ethnicity	SID	State ID number
PIN	Person with information name	SIG	State identification geographical location
PIR	Person with information race	SHN	School name
PIX	Person with information sex	SKN	Skin tone
PLC	Place of crime	SMT	Scars/marks/tattoos
PLI	Partial lot indicator	SNA	Street name
PLN	Professional license number	SNU	Street number
PLT	Professional license type	SOC	Social security number
PMI	Person with information miscellaneous information	SON	Supervising officers name
PNO	Protection order number	SOP	State of purchase
POB	Place of birth	SOR	State of residence
POC	Agency Point of Contact	SOS	Sexual offender status
PPB	Protected person's DOB	SOT	Supervising officers telephone number
PPN	Protected person's name	SOV	Sex of victim
PPR	Protected person's race	SRT	Sort parameters
PRO	Propulsion	STA	State name
PSK	Person with information skin tone	SUPP	Supplemental
PSM	Person with information scars/marks/tattoos	SVC	Service information
PSN	Protected person's social security number	SVD	Service date
PSS	Person with information social security number	SXP	Sexual predator indicator
PSX	Protected person's sex	TAT	Tattoo
PUR	Purpose code	TCN	Transaction control number
PWD	Password	TIR	Tier level
PWG	Person with information weight	TNO	Telephone number
PWI	Person with information	TOT	Type of transaction
RAC	Race	TSC	Threat Screening Center
		TTO	Identifying tattoos
		TYP	Type

UCN	Universal control number	VOR	Value of other recovered property
UNN	United Nations number	VOW	Vehicle ownership
USR	User code	VPC	Violent person criteria
VCO	Vehicle color	VRC	Value of recovered contraband
VIN	Vehicle identification number	VRX	Corrective vision prescription
VLD	Validation date	VST	Vehicle style-2 door, convertible, etc.
VLN	Name of validator	VYR	Vehicle year
VMA	Vehicle make-Ford, Chevy, etc.	WGT	Weight
VMO	Vehicle model-Taurus, Blazer, etc.	WNO	Warrant number
VNP	Value of property recovered	ZIP	Zip code
VOD	Vehicle ownership data
