

## **Acadis Portal Training for TACs**

As a TAC, you will have access to more in the Acadis Portal than typical end users. You will be able to register others for classes and view a list of your personnel (Workforce) and their certifications.

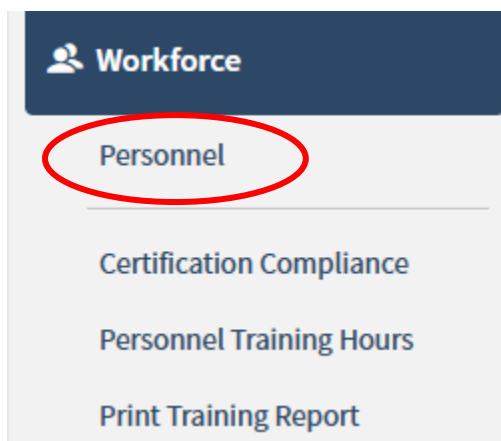

When you log in, you will still see your profile with any in-progress training, a list of your certifications, and upcoming training.

### **Personnel**

Your menu on the left side will have a Workforce option, which is not available to the regular end user.

By clicking on Workforce, you will get a sub-menu of options. To view the staff on your roster, you can click on Personnel.

## Assigning Module Training

Please note that different certifications have been “bundled” together for ease of registering users. eTIME, MDC, Basic and Advanced each have all appropriate modules contained in that one event, so the TAC will only have to register a user one time for those certifications.

Users will have to complete the content of each of the modules within the event, then pass the test of each module before they can move onto the next one. The user will not receive their certification until all modules have been completed within that event. Notice that for bundled events, it will show up with the number of modules listed in the event. (In the example below, 1 of 5 for eTIME modules 1, 2, 3, 5 and the operator agreement).
